to will, however, full of praise for American garls whom he described term attractive.

6. Subject's Department is one of the four in the Institute of Theoretical Physics headed by Prof Fykola Rykolayevych BOROLUBOV. Other three are; Opt of Atomic Sucleus (her tell by 5.5.0AVENCE), Opt of Elementary particles (A.E.PevilleLIDZE), and Dit of Quantum Three y of the Pield and of Statistics Thysics (O.E.ATHETE).

Following is the gist of information obtained by various sources,

I. Peter Shelest is primarily an economics man concerned with Ekralmian national economy, and for his Envoledge and achievements being properly appreciated in Noscow. In political matters, particularly in nationalities problems he often relies on his alvasors but basically follows his "common sense" and is not anti-Ukrainian. On the contrary, if Subject could give any advice to Ekrainiana abroad, he would suggest they should not praise him as a good Ekrainian because this would make hook bad in Moscow.

on other accasion Subject expressed the view that actually no one knows for sure what Peter Shelest thinks. he has a strong backing in Moscow but not from Podgorny or Polansky. We refused ,however, to name the across supporting him. Podgorny is Ukrainian but Polansky is Russian.

Andrey Danylough, former bass of idealogy in the Universe.

4. V. C. Chelestric rimarly a necessar and doesn't like politics. he is quite different from his father. Suphisticated, articulate, interested in many objects. He likes , for instance, modern art.

5. Subject was full of praise and respect for Ivan Dziuba. The latter and deople like Ivan Svitlychny brought up and "folded" Kostenkos, Drachs, and others. Ac ording to Subject the greatest among them was V.Symonenko.

Everybody was condemning Drach for this irresponsible and compromising stem. "Orach ceased to be Drach when he went to the United States."

6. Subject knows about makhalavna liberature buthe does not approve of everything writ on and done. Thus, he criticized the Protest of 129 because it was initiated primarily by Jevish intellectuals who later on were left alone by the FOB whereas their Ebrainian colleagues had to suffer various unpleasantries.

Incidentality, Subject has a "slight" anti-Jewish bias which he expressed alon other occasions.
