- c. Loss coordinates: 191700N/1030600E, Laos.

3. There was no other pertinent information in JOIC files.

DOCUMENT AS REFERRED TO DOD

#4

4. The referent JANAF cable, subject of a query to [redacted] contained the following information:

a. A recent rallier claimed he visited a crash site in early June 1969. There were charred remains of "one pilot" and debris of an F-4H. Source saw one white parachute in rice fields near Phou Teung, and was told it belonged to "the pilot" who had been rescued by one of two helicopters.

b. Crash site: UG 107416, Phou Teung.

c. JPRC's PW/MIA biographic data (machine printout JPO1R) listed Fallon, Patrick Martin, Col., USAF, PW/MIA NR 0734, pilot of F-4B lost 4 July 1969 vicinity UG 013328.

d. JANAF attaches believed source was reporting on the Fallon case.

5. The referent MACV/JPRC cable commented that the above conclusion (para 4.d) was in error, that Colonel Fallon's plane was an A-1H, and that the incident mentioned by source was probably the downing of Capt. Wayne E. Pearson on 22 February 1969 at UG 179384. Captain Pearson was piloting an F-4D and his other crewman was rescued.

6. [redacted] briefed [redacted] on the above from 1000 to 1005 hours 26 January 1972. [redacted] asked that the second reference, JPRC #6339, be brought to [redacted] attention. [redacted] immediately relayed the cable number to [redacted]
