CENTRAL INTELLIGENCE AGENCY

Washington, D. C.

March 1949

This Preliminary Gazetteer for Palestine is issued in one volume as part of the National Intelligence Survey program and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area.

This Gazetteer is issued on a preliminary basis to expedite availability of this work material for use in the preparation of the National Intelligence Surveys. It is contemplated that major additions and revisions will be published in supplemental volumes and that subsequently the material will be consolidated and published as a standard component of the National Intelligence Survey for Palestine.

Distribution of this publication is made by the Central Intelligence Agency. This document carries a RESTRICTED classification but individual names thereof are unclassified.

FOREWORD

This gazetteer includes the names of physical and cultural features in Palestine. It contains about 2,000 entries. The scale of coverage is generally 1:500,000.

The *Revised List of Names of Palestine*, published by the Permanent Committee on Geographical Names for British Official Use (PCGN), 1937, maps published by the Survey of Palestine and the Jewish Agency for Palestine, and maps by the Middle East Command and Geographical Section, General Staff have been relied upon as sources for the names in this gazetteer. In accordance with the policy of PCGN and other authorities, the definite article has been written with the vowel *e* and the *l* of the article has been assimilated when followed by *d*, *dh*, *n*, *r*, *s*, *sh*, *t*, *th*, or *z*.

Glossary of generic terms

The following glossary contains generic terms occurring in the official standard geographical names listed in this gazetteer. The meanings given are limited to those appearing as designations in the gazetteer (second column). For instance, *ābār* as a generic term occurs in this gazetteer only with the meaning 'spring'. In other Arabic-language areas the common meaning of *ābār* is 'wells'.

ābār	spring
bahret	lake
basāt	marshy plain
bir	well(s), spring
deir	monastery
‘ein	spring
har (Hebrew)	mountain
jabalāt	mountain
jazīrat	island
jebel	mountain(s), hill
khalfj	gulf
khirbet	ancient site
nahr	stream
qasr	fort
rijm	mountain
ramlat	sand dunes
ras	cape, mountain, hill
sahl	plain
tell	hill

wādi	stream, wadi, valley
yām (Hebrew)	lake

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information regarding places and features listed in the gazetteer in order to accommodate the information to the machine method of tabulation.

Name.--Recommended names and cross-references from variant spellings are listed in the first column. In many cases, since Palestine is an area where two languages are locally used, more than one name is approved for a feature, and the gazetteer entry includes the two or three approved names. The Dead Sea, for instance is listed thus: Lūt, Bahret [Arabic]; Yām Ham 'elāh [Hebrew]; Dead Sea [conventional]. For each such multiple entry, there are cross-references from the other approved name or names to the first name.

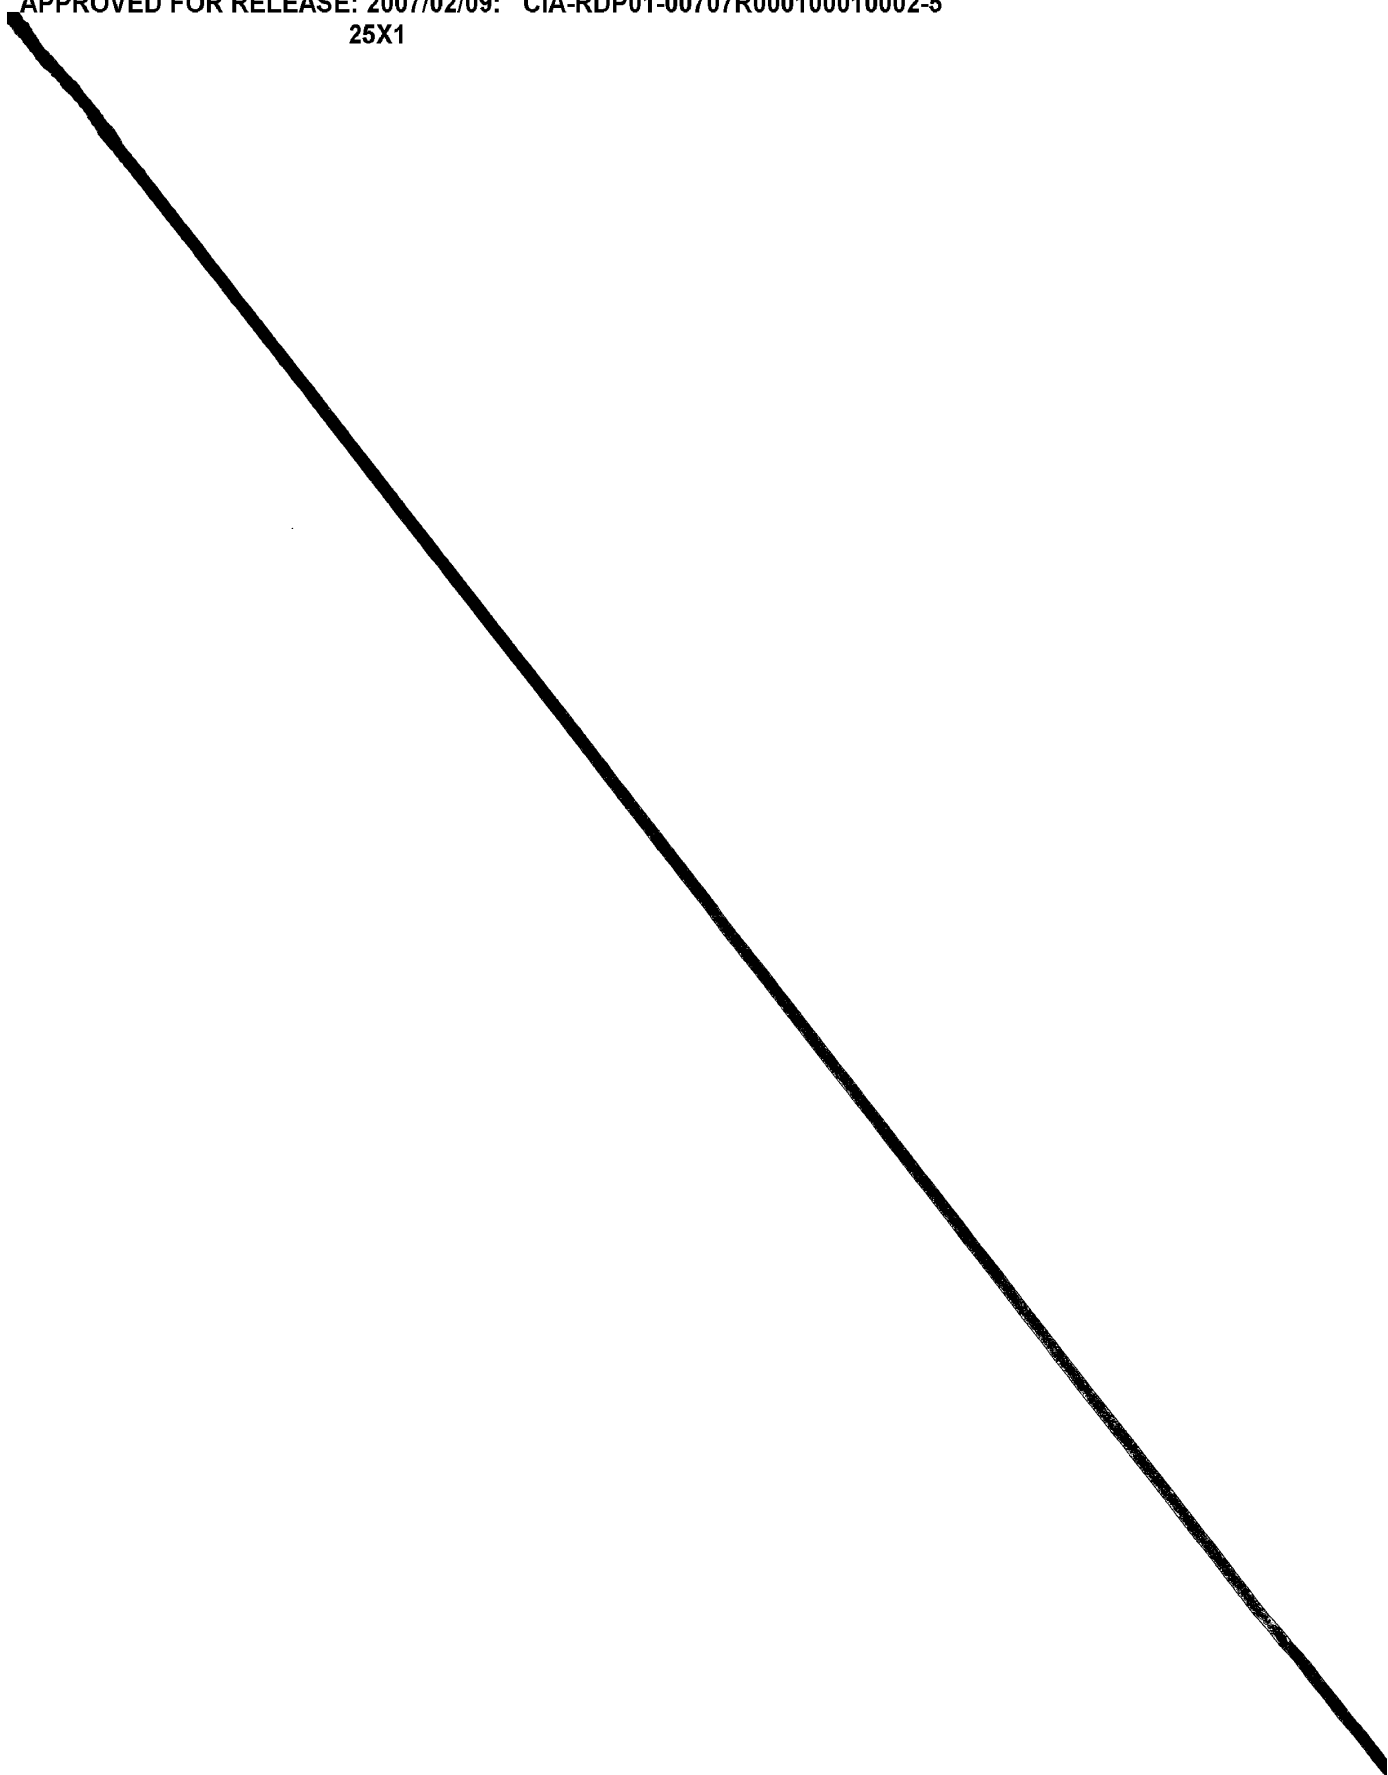

Names beginning with a generic term (see Glossary) are alphabetized by the specific part of the name: Bahret Lūt (entered under Lūt, Bahret) is an example.

For a few features, available sources provide only non-Arabic and non-Hebrew names, and these are listed in an English or anglicized form, without diacritical marks and with English generic terms: Cape Carmel, Carmel Reefs, and Talbot Reefs are examples.

Designation.--The following abbreviations have been used in the second column in cases where abbreviation of designations has been necessary.

ADMD	subdistrict	MON	monastery
AIRF	airfield	MRSH	marsh
BCH	beach	MT	mountain
CAVE	cave, cavern	MTS	mountains
DIST	district	PLN	plain
DUNE	sand dunes	POPL	populated place
HILL	hill, hills	POST	police post
ISL	island	REEF	reef, reefs
LGHT	lighthouse	REGN	region
