October 1949

This Preliminary Gazetteer for Anglo-Egyptian Sudan is issued in one volume as part of the National Intelligence Survey program and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area.

This Gazetteer is issued on a preliminary basis to expedite availability of this work material for use in the preparation of the National Intelligence Surveys. It is contemplated that major additions and revisions will be published in supplemental volumes and that subsequently the material will be consolidated and published as a standard component of the National Intelligence Survey for Anglo-Egyptian Sudan.

Distribution of this publication is made by the Central Intelligence Agency. This document carries a RESTRICTED classification but individual names thereof are unclassified.

FOREWORD

This gazetteer includes the names of physical and cultural features in the Anglo-Egyptian Sudan. It contains about 5,200 entries. The scale of map coverage is generally 1:2,000,000.

Lists published by the Permanent Committee on Geographical Names for British Official Use (PCGN), maps by the Geographical Section, General Staff, and a map at 1:250,000 published by the Survey Office in Khartoum have been used in standardizing the names.

Glossary of generic terms

The following glossary contains generic terms occurring in the standard names listed in the gazetteer. Each of the meanings given applies in the case of one or more of the standard names.

ābār	spring
'ain	spring

Interpretation of entries

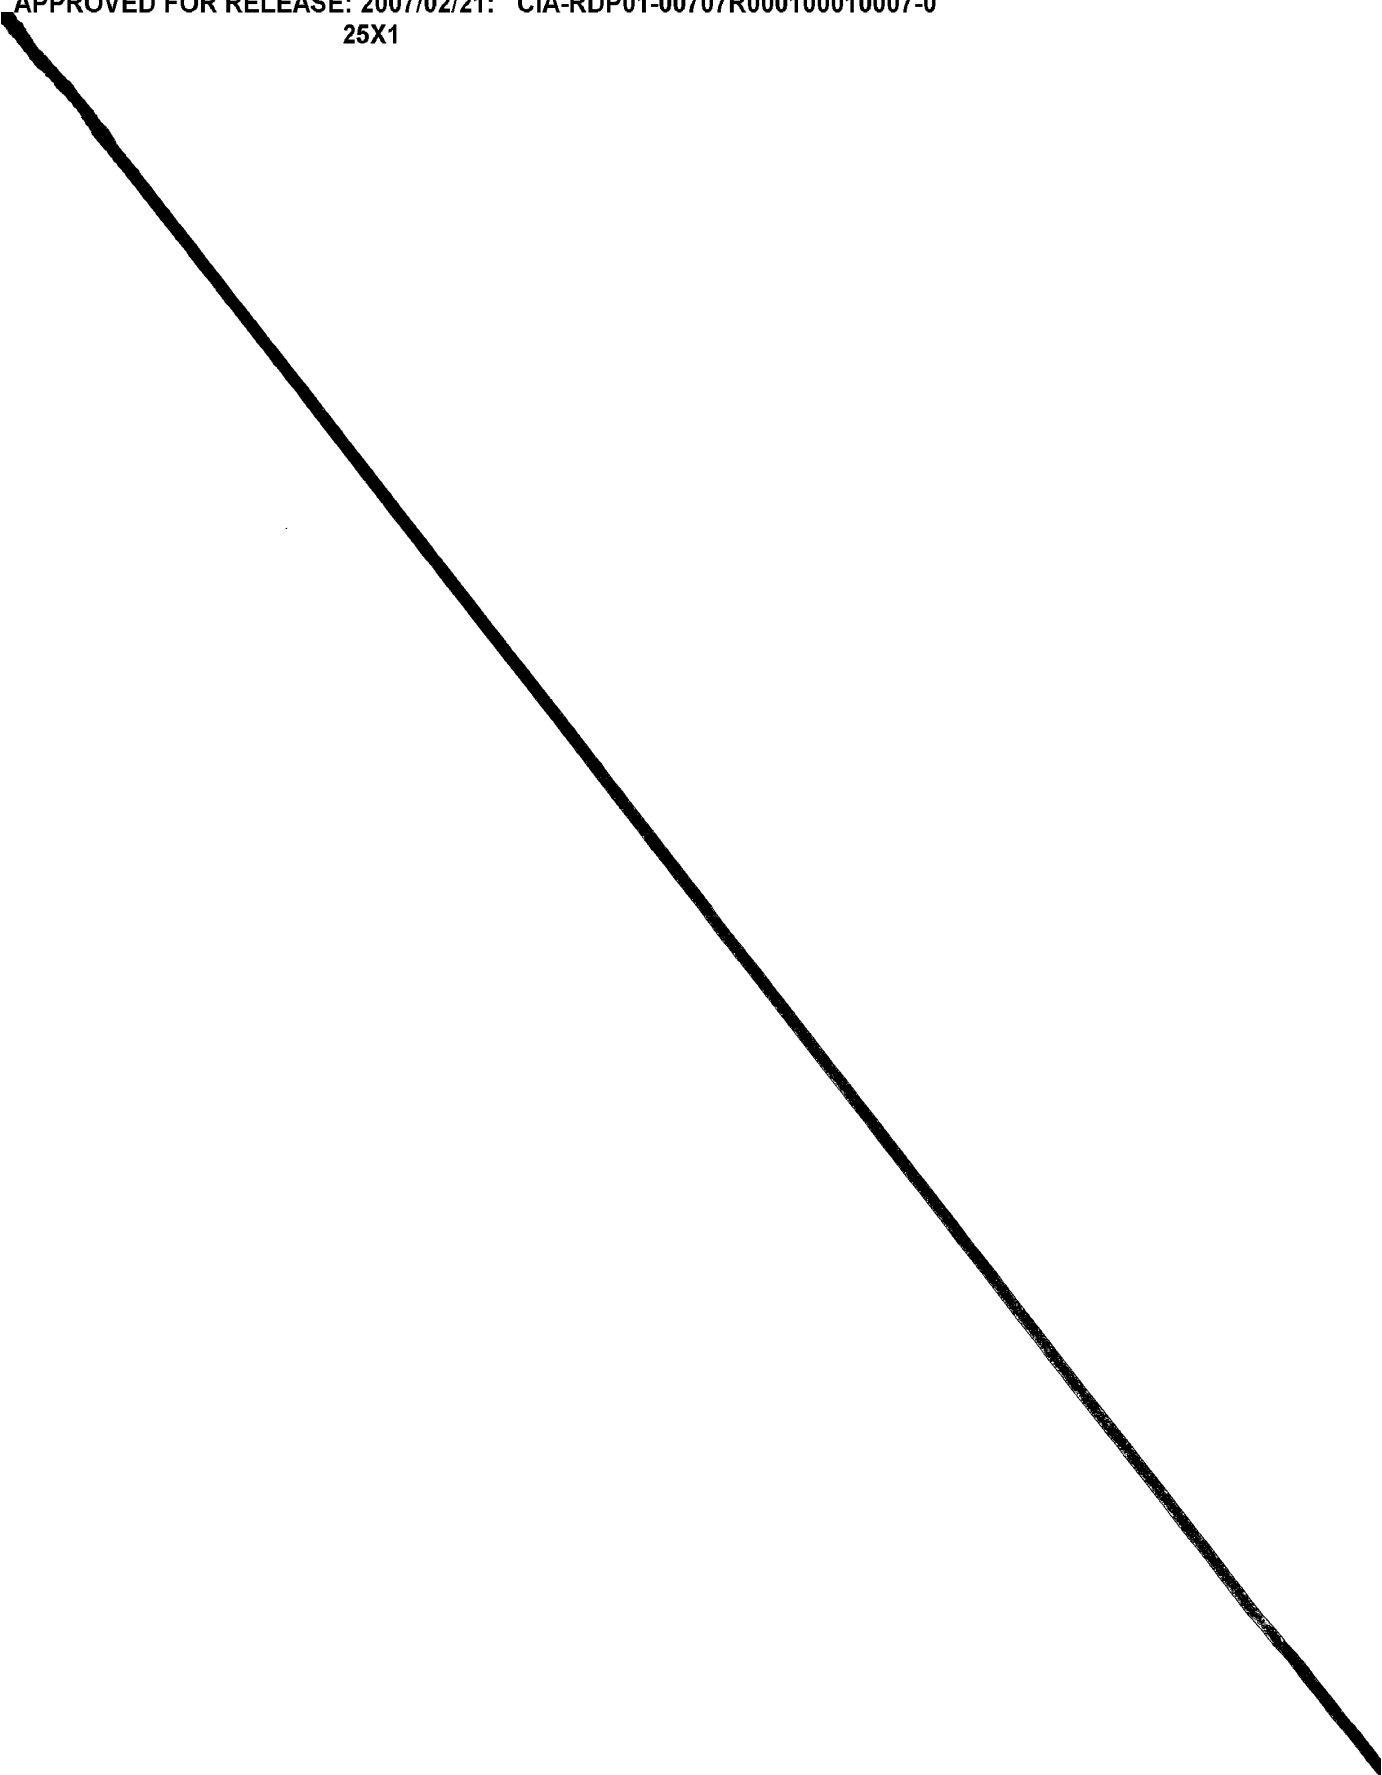

It has been necessary to express in code numbers and letters some of the information regarding places and features listed in the gazetteer in order to accommodate the information to the machine method of tabulation.

Name.--Standard names and cross-references from variant names are listed in the first column. In some cases, more than one name is approved for a feature, and the gazetteer entry includes the two or three approved names, each with bracketed identification. In a few cases also (as in Nile, River) a part of a name is underlined; in such cases, the use of the nonunderlined part is optional. Names beginning with a generic term (see Glossary) are regularly alphabetized by the specific part of the name; thus Jebel Abu Gamal is listed as Abu Gamal, Jebel.

Designation.--The following abbreviations have been used in the second column in cases where abbreviation of designation has been necessary:

AIRF	airfield	CNAL	canal
ANCH	anchorage	DIST	district, former district
AREA	geographical or tribal area	DSRT	desert
BAY	bay, inlet	FALL	fall, cataract
BRDG	bridge	GRGE	gorge
BTLF	battlefield	HBR	harbor
CAPE	cape, promontory	HILL	hill(s)
