October 1949

This Preliminary Gazetteer for Libya is issued in one volume as part of the National Intelligence Survey program and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area.

This Gazetteer is issued on a preliminary basis to expedite availability of this work material for use in the preparation of the National Intelligence Surveys. It is contemplated that major additions and revisions will be published in supplemental volumes and that subsequently the material will be consolidated and published as a standard component of the National Intelligence Survey for Libya.

Distribution of this publication is made by the Central Intelligence Agency. This document carries a RESTRICTED classification but individual names thereof are unclassified.

FOREWORD

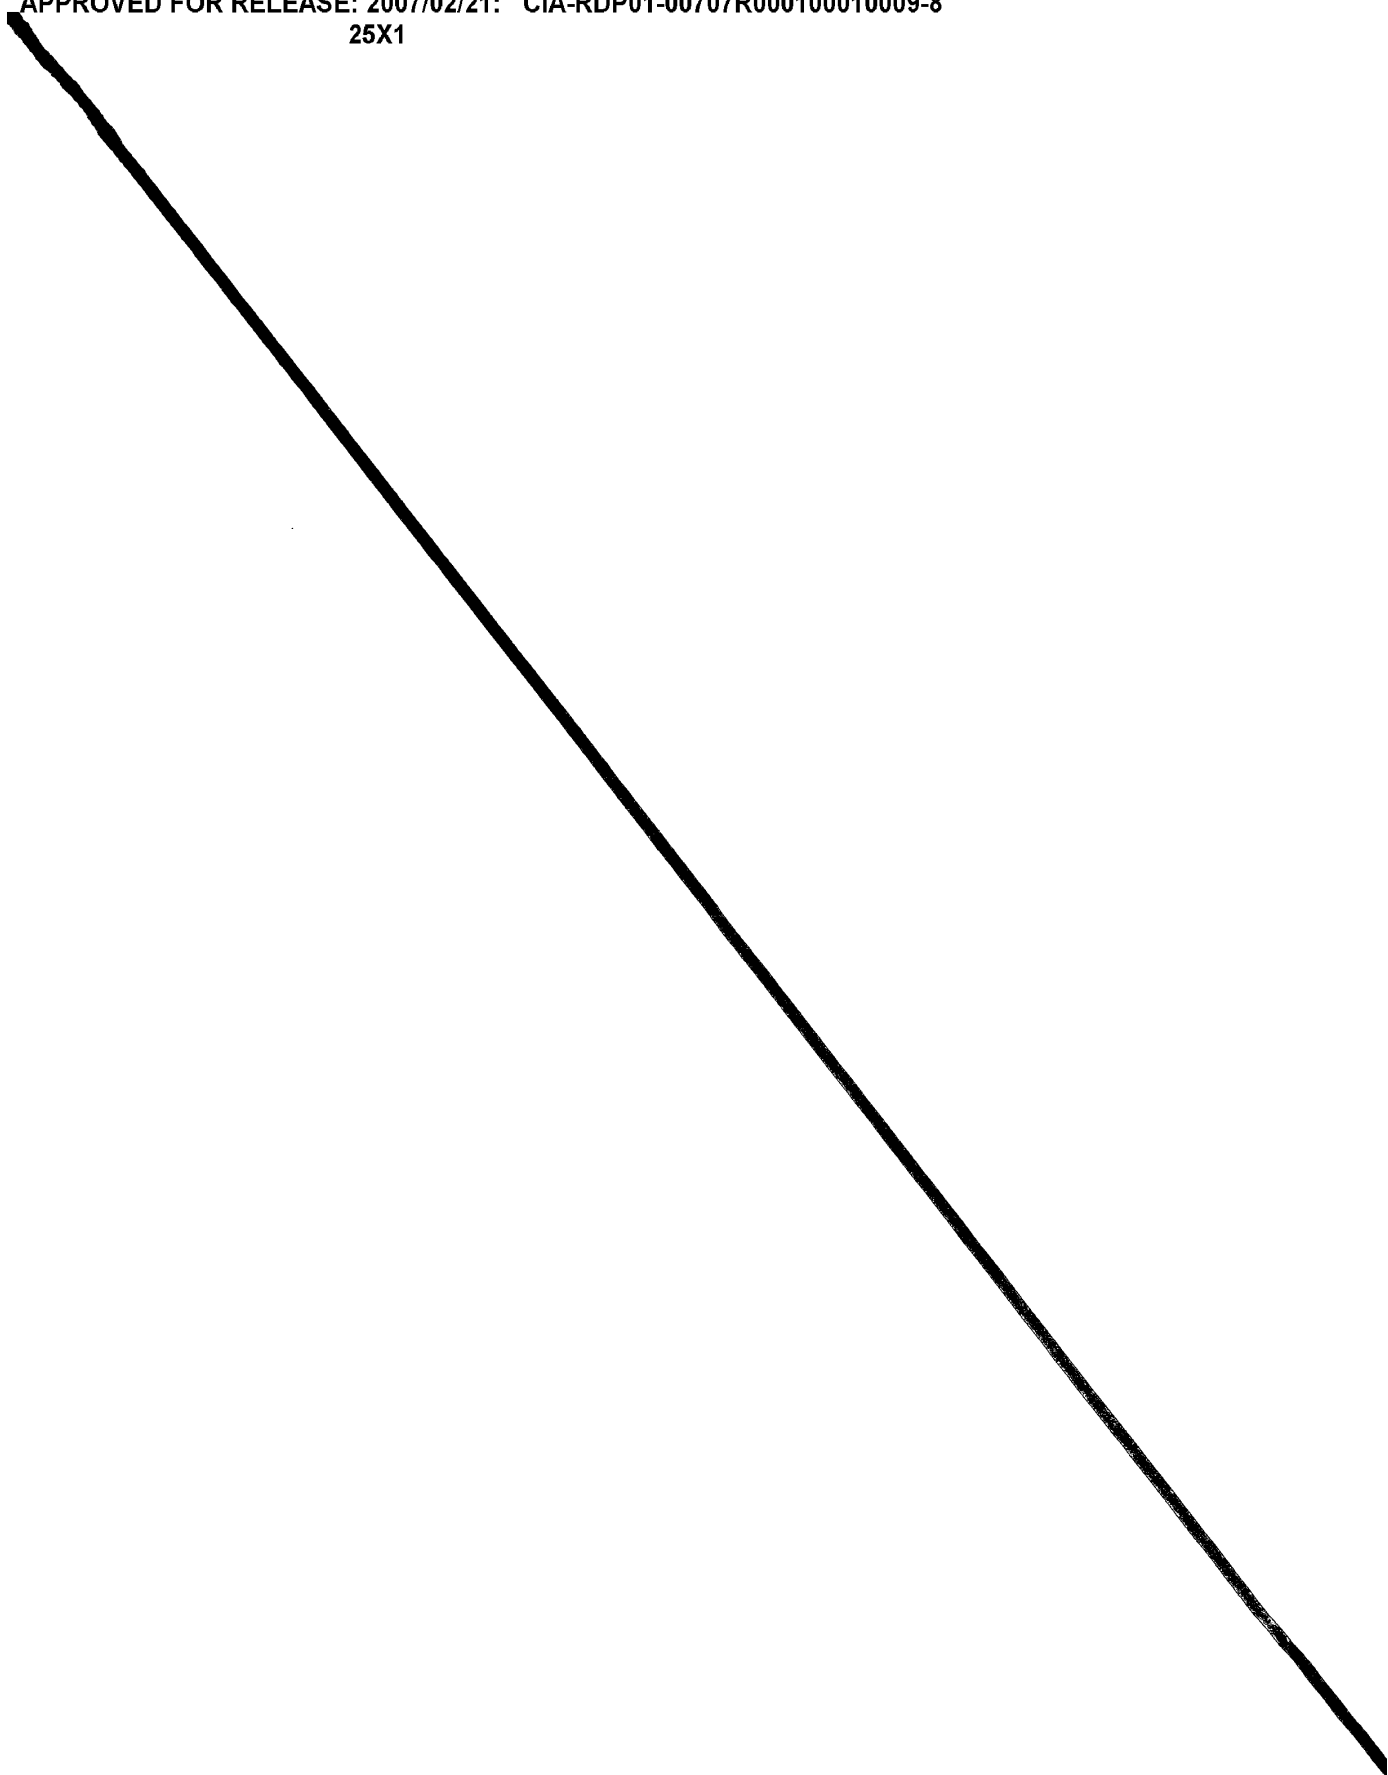

This gazetteer includes the names of physical and cultural features in Libya. It contains about 2,100 entries. The scale of map coverage is generally 1:3,000,000 except along the coast, where selected names were added. Maps by Italian authorities were relied upon in standardizing the names. United States and British hydrographic charts also were consulted for coastal features.
