CENTRAL INTELLIGENCE AGENCY

Washington, D. C.

June 1950

This Preliminary Gazetteer for Korea is issued in one volume as part of the National Intelligence Survey program and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. For features lying within adjacent areas, refer to appropriate Gazetteer.

This Gazetteer is issued on a preliminary basis to expedite availability of this work material for use in the preparation of the National Intelligence Surveys. It is contemplated that major additions and revisions will be published in supplemental volumes and that subsequently the material will be consolidated and published as a standard component of the National Intelligence Survey for Korea.

Distribution of this publication is made by the Central Intelligence Agency. This document carries a RESTRICTED classification but individual names thereof are unclassified.

APPROVED FOR RELEASE: 2007/03/23: CIA-RDP01-00707R000100020006-0

FOREWORD

This gazetteer contains about 11,500 entries for places and features in Korea. Official Korean sources for geographic names in Korea are not available, and names in this gazetteer were obtained by methods outlined for Korean names in the *Guide to Geographical Names in Korea (Chōsen)*, Special Publication No. 51, United States Board on Geographical Names, 1945. Original Sino-Korean characters for each name were obtained from a Japanese source, the *ōnmun* (Korean) reading was procured from a Japanese-Korean dictionary, and the *ōnmun* was transcribed into the roman alphabet according to the McCune-Reischauer system of romanization.

Glossary of generic terms

The following glossary contains generic terms that occur in the standard names listed in the gazetteer. Each of the meanings given applies in the case of one or more of the standard names. The words are customarily written lower-case and connected with the specific part of the name by a hyphen, as *-do* (island) in *Aphae-do*.

It should be noted that many terms in the glossary are variants of the same name element which, in the McCune-Reischauer transcription system for Korean, are transcribed with different initial consonants, depending on the nature of the neighboring sounds. Thus *li*, *ni*, and *ri* are McCune-Reischauer variants of the same Korean name element. For convenience these variants are listed separately without cross-references to each other.

am	rock
amch'wi	point
bi	point
bong	peak, mountain
bu	municipality (2d-order administrative division)

chedo	archipelago
ch'i	peak
chingno	channel
ch'o	rock, reef, islet
ch'ōn	stream
ch'wi	point
dan	cape, point
do	province, island(s), islets, rocks
dong	village
gak	point
gang	stream
gap	cape, point
gi	point
got	point
gu	entrance channel
gun	county (2d-order administrative division)
ha	stream
hae	sea, bay
haehyōp	strait
haeman	gulf
hang	port, harbor
hyōn	mountain
jōng	district (3d-order administrative division)
ju	shoal, bank, mud flats
kodae	plateau
kun	county (2d-order administrative division)
kūn	rock
kundo	islands, archipelago
li	village

RESTRICTED

lyŏ	rock
mal	point
man	bay
mi	point
myoji	anchorage
myŏn	township (3d-order administrative division)
namdo	south province
ni	village
nyŏng	mountain peak
pakchi	anchorage
pando	peninsula
p'ŏ	harbor, inlet, bay
pong	peak
pukto	north province
p'yŏng	mud flat
p'yŏngya	plain
ri	village
ryŏ	rock
sa	temple
san	mountain, hill
sanmaek	mountain range
sat'oe	sandbank
sŏ	islet, island, rock
sudo	channel, strait
tan	cape, point
to	island(s), islets, rocks
t'oe	bank
tong	village
ŭp	civil town (3d-order administrative division)
yang	sea
ye	island
yŏlsŏ, yŏlto	island group, island chain
yŏn	pool

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.--Standard names and cross-references from variant names appear in the first column. In some cases, two or more names are approved for a feature, and each is listed, with bracketed identification. In some entries, part of a name is underlined; in such cases, the use of the nonunderlined part is optional.

Designation.--Designations in the second column are sometimes abbreviated and represent groups of features, as follows:

ADMD	administrative division	PEN	peninsula
ANCH	anchorage(s)	PLN	plain
BANK	bank(s), sandbank(s)	POPL	populated place
BAY	bay, inlet	PROV	province
CHAN	channel	PT	point
CLIF	cliff	REEF	reef(s)
CO	county (-gun or -kun)	ROCK	rock(s)
CTN	civil town (-ŭp)	RSTA	railroad station
DIST	district	RSVR	reservoir
FLAT	mud flat	SHOL	shoal(s)
HBR	harbor	SPRG	hot springs
HILL	hill(s), hilly area	STAT	state, nation
ISL	island, islet	STR	strait
ISLS	islands, islets	STRM	stream
MCTY	municipality (-bu or -pu)	TMPL	temple
MT	mountain	TNP	township (-nyŏn)
MTS	mountains, mountain range	UPLD	upland, plateau
PASS	mountain pass	WALL	fortress wall
PEAK	peak(s)		

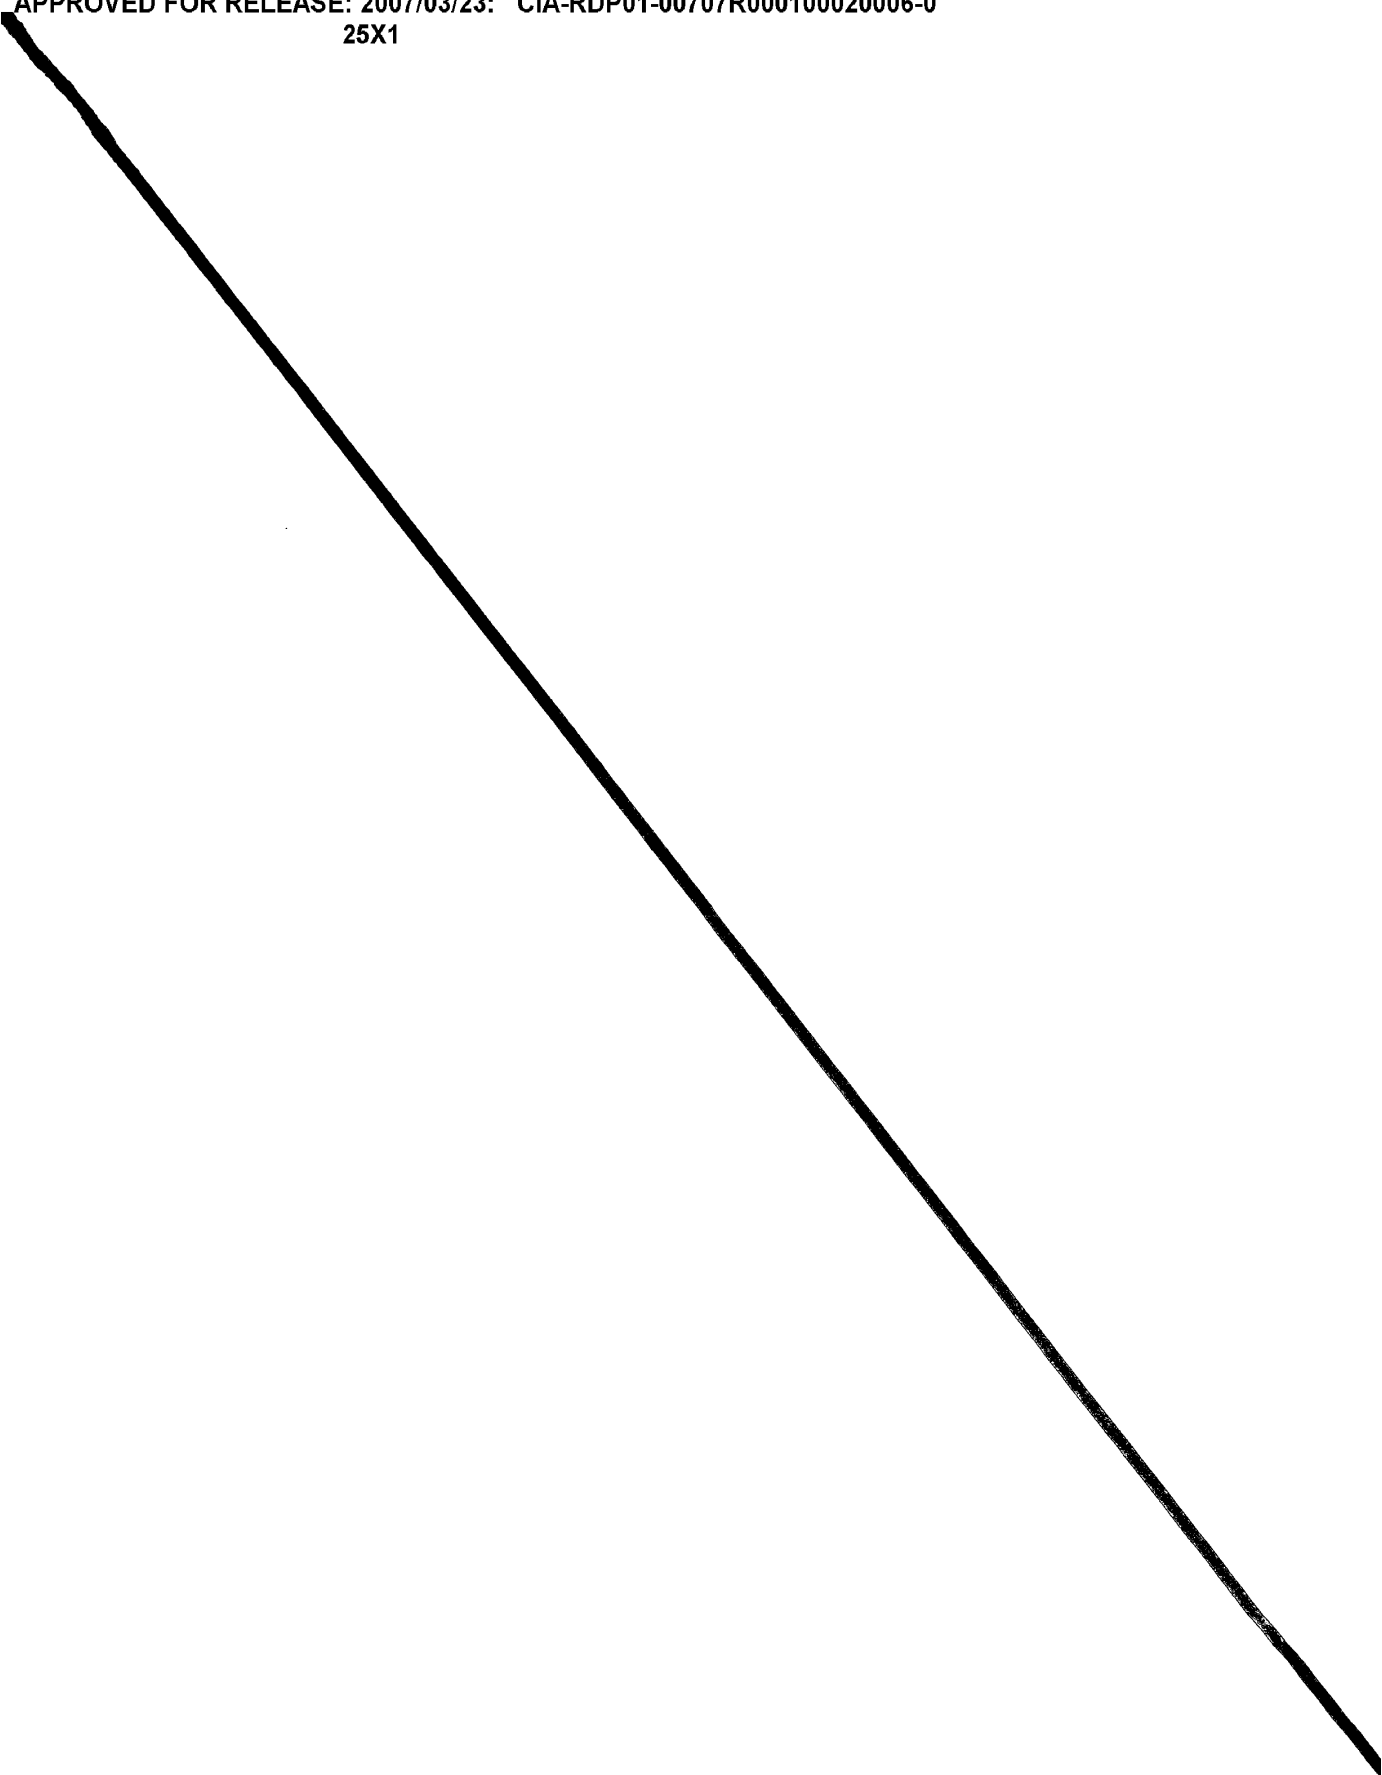

Latitude and longitude.--Coordinates (third and fourth columns) are for finding purposes only. Where the scale of sources permitted, they were read to the nearest minute.

Administrative division.--The number in the fifth column, 433, is the area code number assigned to Korea.

Map references for standard names

Some of the names, or recognizable variants of them, appear on the following two maps; however, many of the names in the gazetteer are not found on any romanized map source.
