This Preliminary Gazetteer for Netherlands Antilles is issued in one volume as part of the National Intelligence Survey program and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. For features lying within adjacent areas, refer to appropriate Gazetteer.

This Gazetteer is issued on a preliminary basis to expedite availability of this work material for use in the preparation of the National Intelligence Surveys. It is contemplated that major additions and revisions will be published in supplemental volumes and that subsequently the material will be consolidated and published as a standard component of the National Intelligence Survey for Netherlands Antilles.

Distribution of this publication is made by the Central Intelligence Agency. This document carries a **RESTRICTED** classification but individual names thereof are unclassified.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information regarding places and features listed in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.--Standard names and cross-references from variant names appear in the first column. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Where part of a name is underlined, the use of the nonunderlined part is optional. Names that include both specific and generic elements are alphabetized by specific part; thus Boca Ascencion is listed as Ascencion, Boca.

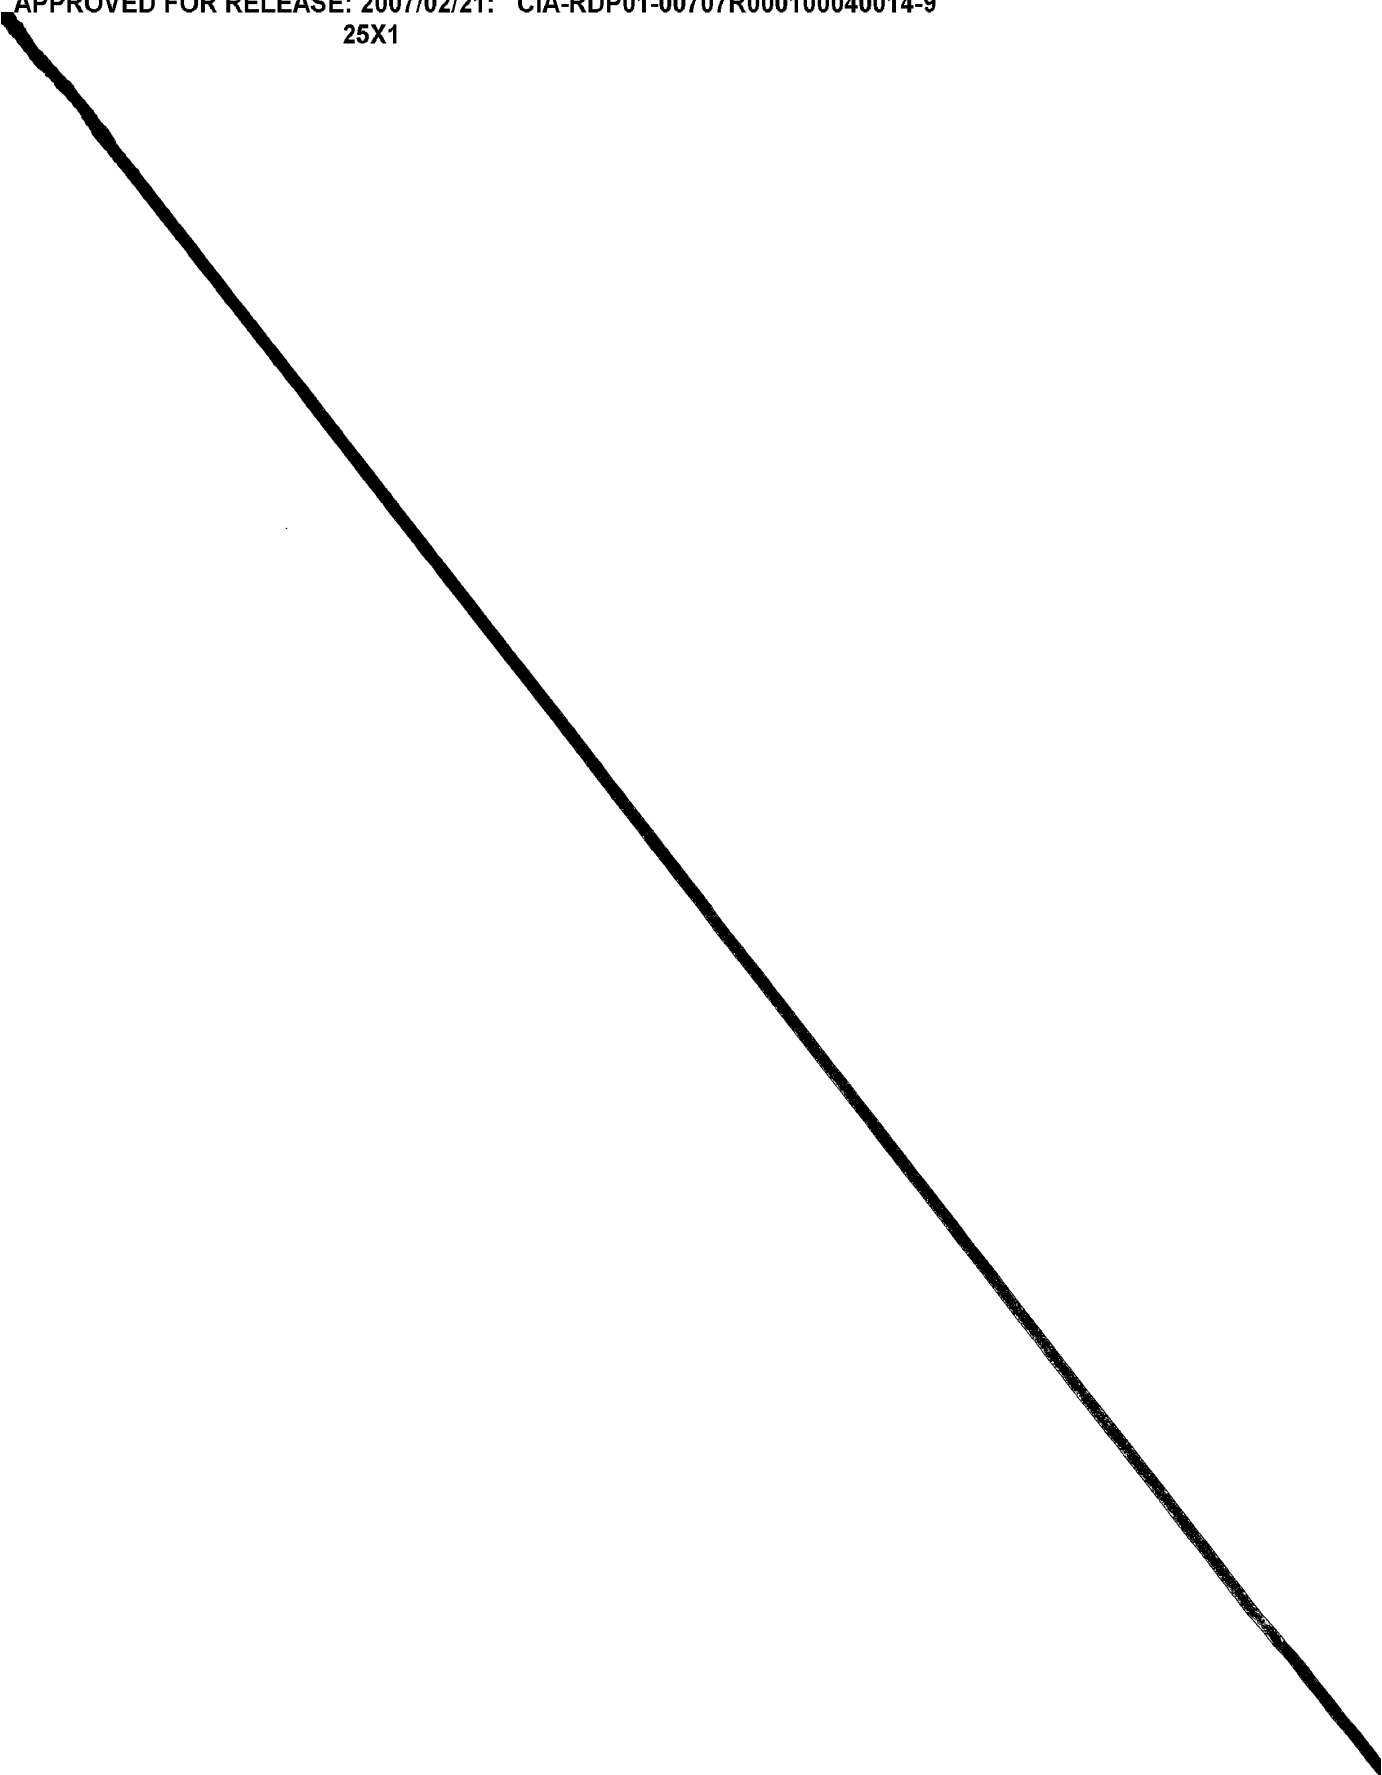

Designation.--Designations, in the second column, are sometimes abbreviated and represent groups of features, as follows:

BAY	bay, inlet	PLNT	plantation
BCH	beach	POPL	populated place
CAPE	cape, headland	POST	military post
CHAN	channel	PT	point
CLIF	cliff(s)	RCKS	rock(s)
CRTR	crater	REEF	reef(s)
ENTR	harbor entrance	SALT	salt plain, salt flats, salt pan

HILL	hill(s)	SHOR	shore
ISL	island, islet	STR	strait(s)
ISLS	islands	STRM	stream
LAGN	lagoon(s)	TERR	territory
LAKE	lake, salt lake(s)		
MT	mountain		
PEN	peninsula		

Latitude and longitude.--Coordinates, in the third and fourth columns, are for finding purposes only. They were generally read to the nearest minute.

Administrative division.--The number in the fifth column, 7380, is the code number assigned to the Netherlands Antilles.
