PRELIMINARY NIS GAZETTEER  
**Cyprus, Malta,  
and Gibraltar**

Restricted

RESTRICTED

CENTRAL INTELLIGENCE AGENCY  
Washington, D. C.

January 1953

This Preliminary Gazetteer for Cyprus, Malta, and Gibraltar is issued in one volume as part of the National Intelligence Survey program and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. For features lying within adjacent areas, refer to appropriate Gazetteer.

This Gazetteer is issued on a preliminary basis to expedite availability of this work material for use in the preparation of the National Intelligence Surveys. It is contemplated that major additions and revisions will be published in supplemental volumes and that subsequently the material will be consolidated and published as a standard component of the National Intelligence Survey for Cyprus, Malta, and Gibraltar.

Distribution of this publication is made by the Central Intelligence Agency. This document carries a RESTRICTED classification but individual names thereof are unclassified.

## FOREWORD

This gazetteer contains about 2,735 entries: 1,470 for places and features in Cyprus (pages 1 to 41), 1,180 for Malta (pages 43 to 78), and 85 for Gibraltar (pages 79 to 82). The scale of map coverage is about 1:250,000 for Cyprus, 1:30,000 for Malta, and 1:5,000 for Gibraltar.

Glossary of generic terms

The following glossary contains Maltese generic terms occurring in the standard names listed for Malta. (Approved names for Cyprus and Gibraltar contain only English generic terms.) Each of the meanings applies in the case of one or more of the standard names.

blata	rocks, rocky coast	kalanka	cove, inlet
cala	cove, inlet	kolla	hill
cap	cape	ponta	point
daħlet	inlet	ramla	bay, inlet
fort	fort	ras	point, cape, headland
ġebel	rock, hill	rdum	beach, shoal
ġhajn	spring	skol	shoal, rock
għar	bay, cove; cave	torri	tower
haġra	rock	wied	wadi, inlet

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information regarding places and features listed in the gazetteer in order to accommodate it to the machine method of tabulation.

Names.--Standard names and cross-references from variant names appear in the first column. Where two names are approved for a feature, each is identified in parentheses and either or both may be used. Where part of a name is underlined, the use of the nonunderlined part is optional. Names of physical features that include both specific and

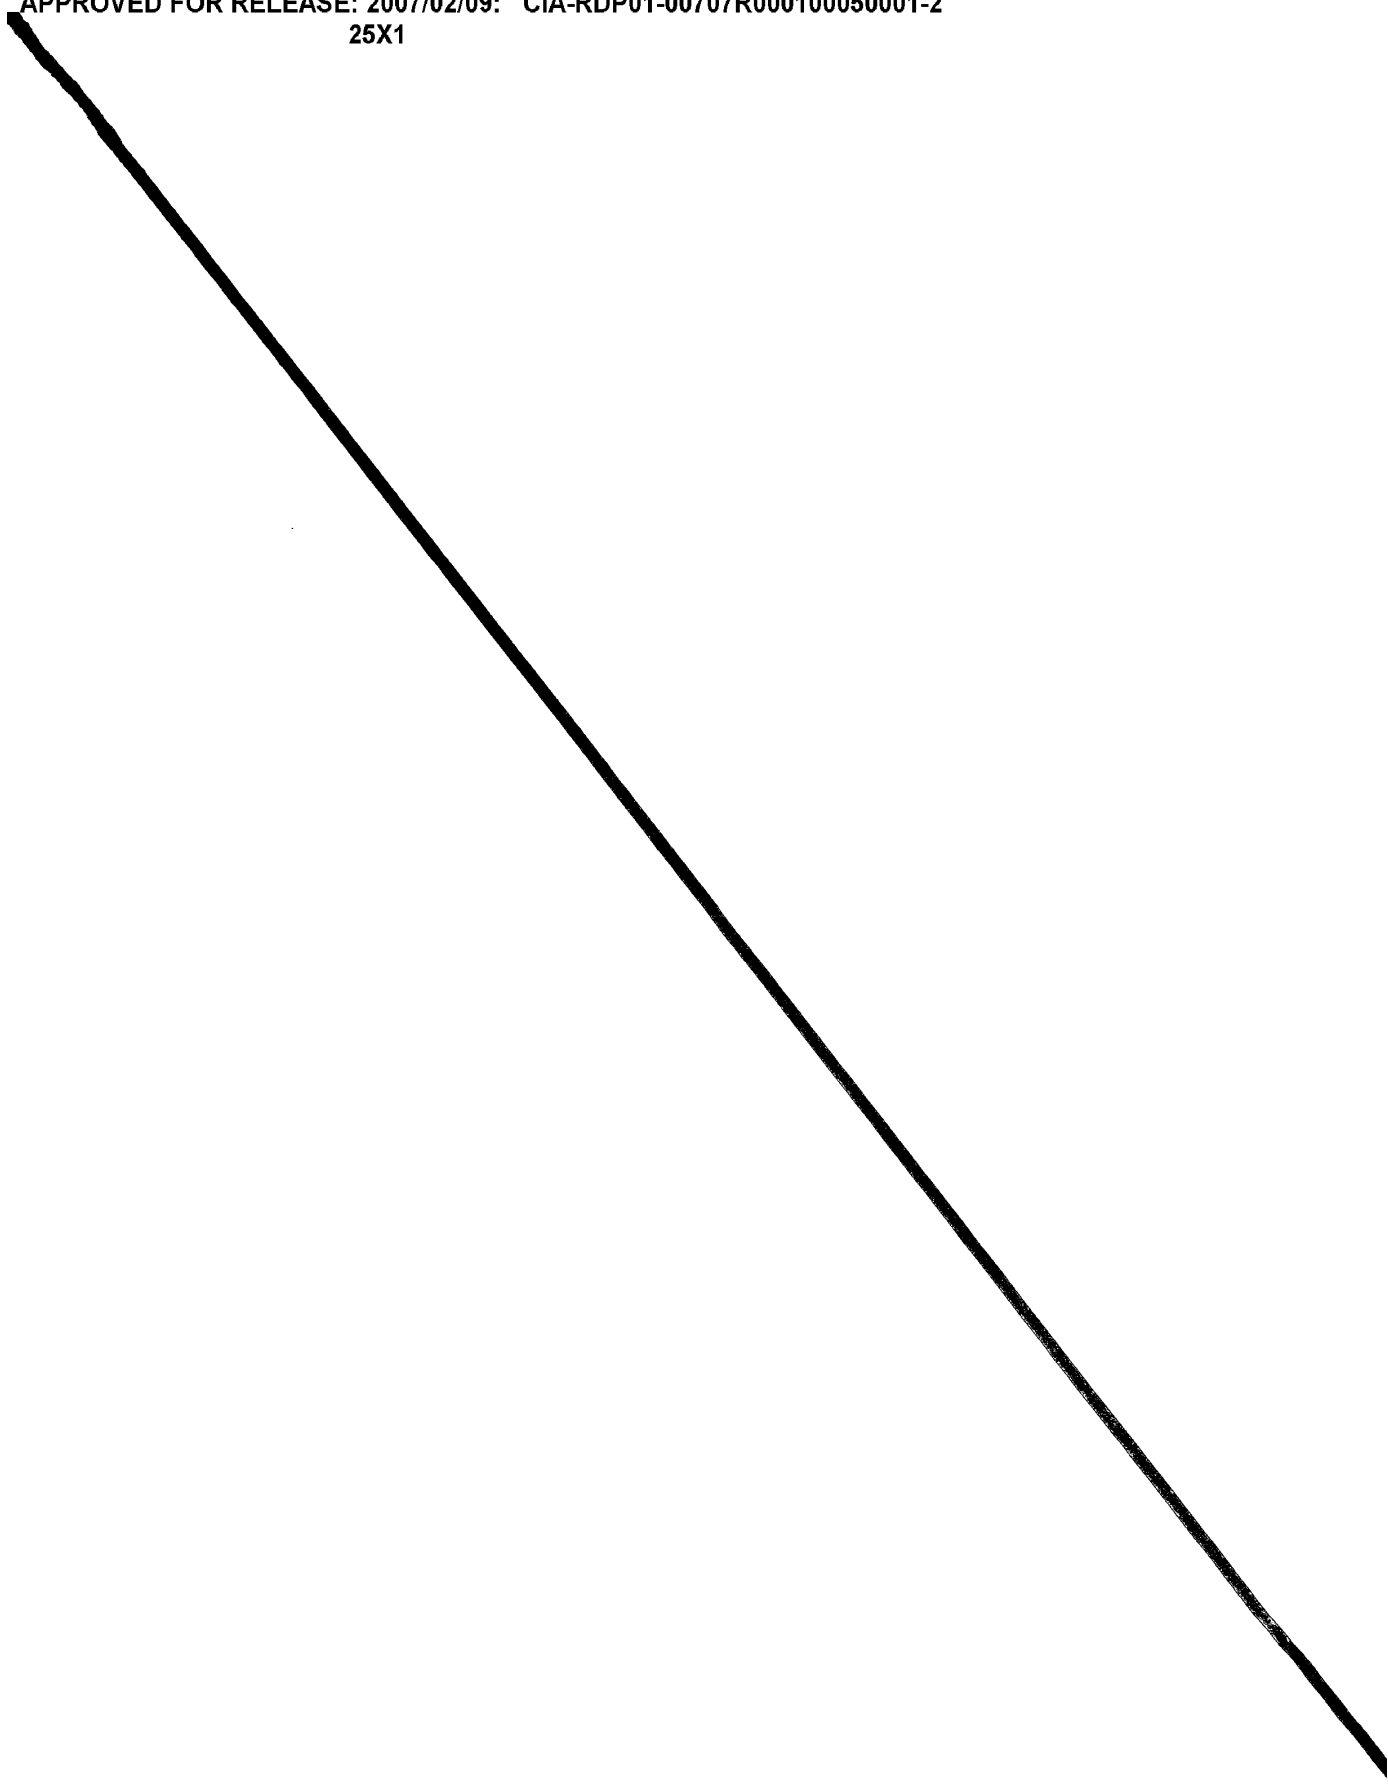

generic elements are alphabetized by specific part; thus Cape Arnauti is listed as Arnauti, Cape. The ligatures Æ and Œ are indicated by the tie: Ǣ, Œ̄. In Malta, there are four modified letters: Ħ, Ċ, Ġ, Ż. The Ħ should appear as ħ, when lower-case is required. In names that include English generic terms, these marks are omitted.

Designation.--Designations, in the second column, are sometimes abbreviated and represent groups of features, as follows:

AREA	area, former territory	MTS	mountains
BAY	bay, inlet	POPL	populated place
BCH	beach	POST	trading post
CAPE	cape, headland	PT	point
CAVE	cave(s)	RCKS	rocks
CHAN	channel	RDGE	ridge
CLIF	cliff, bluff	REGN	region
COL	colony	RSVR	reservoir
CST	coast	SECI	section of an island
DIST	district	SECP	section of a populated place
FLAT	flat(s)	SHOL	shoal(s)
FORT	fort, fortress	SITE	ancient site, ruins
HBR	harbor	SPIT	sandspit
HILL	hill(s)	SPRG	spring(s)
ISL	island, islet	STR	strait, water passage
ISLS	islands, islets	STRM	stream
LCTY	locality	TWR	tower
MON	monastery	UPLD	upland, highland
MT	mountain		

Latitude and longitude.--Coordinates, in the third and fourth columns, are for finding purposes only. They were generally read to the nearest minute.
