CENTRAL INTELLIGENCE AGENCY

Washington, D. C.

May 1953

This volume of the Preliminary Gazetteer for Indonesia is issued as part of the National Intelligence Survey program and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. For features lying within adjacent areas, refer to appropriate Gazetteer.

The Preliminary NIS Gazetteer for Indonesia comprises the following 2 volumes:

Volume I A-N

Volume II Indonesia O-Z, Netherlands New Guinea, and Portuguese Timor

This Gazetteer is issued on a preliminary basis to expedite availability of this work material for use in the preparation of the National Intelligence Surveys. It is contemplated that major additions and revisions will be published in supplemental volumes and that subsequently the material will be consolidated and published as a standard component of the National Intelligence Survey for Indonesia.

Distribution of this publication is made by the Central Intelligence Agency. This document carries a RESTRICTED classification but individual names thereof are unclassified.

FOREWORD

This gazetteer contains about 50,000 entries: about 45,000 for the Republic of Indonesia, 4,350 for Netherlands New Guinea, and 650 for Portuguese Timor. The first volume contains Indonesia, A-N; the second volume, Indonesia O-Z, Netherlands New Guinea, and Portuguese Timor. The scale of map coverage is generally about 1:500,000, but some areas are covered at much larger scales.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to adapt it to the machine method of tabulation.

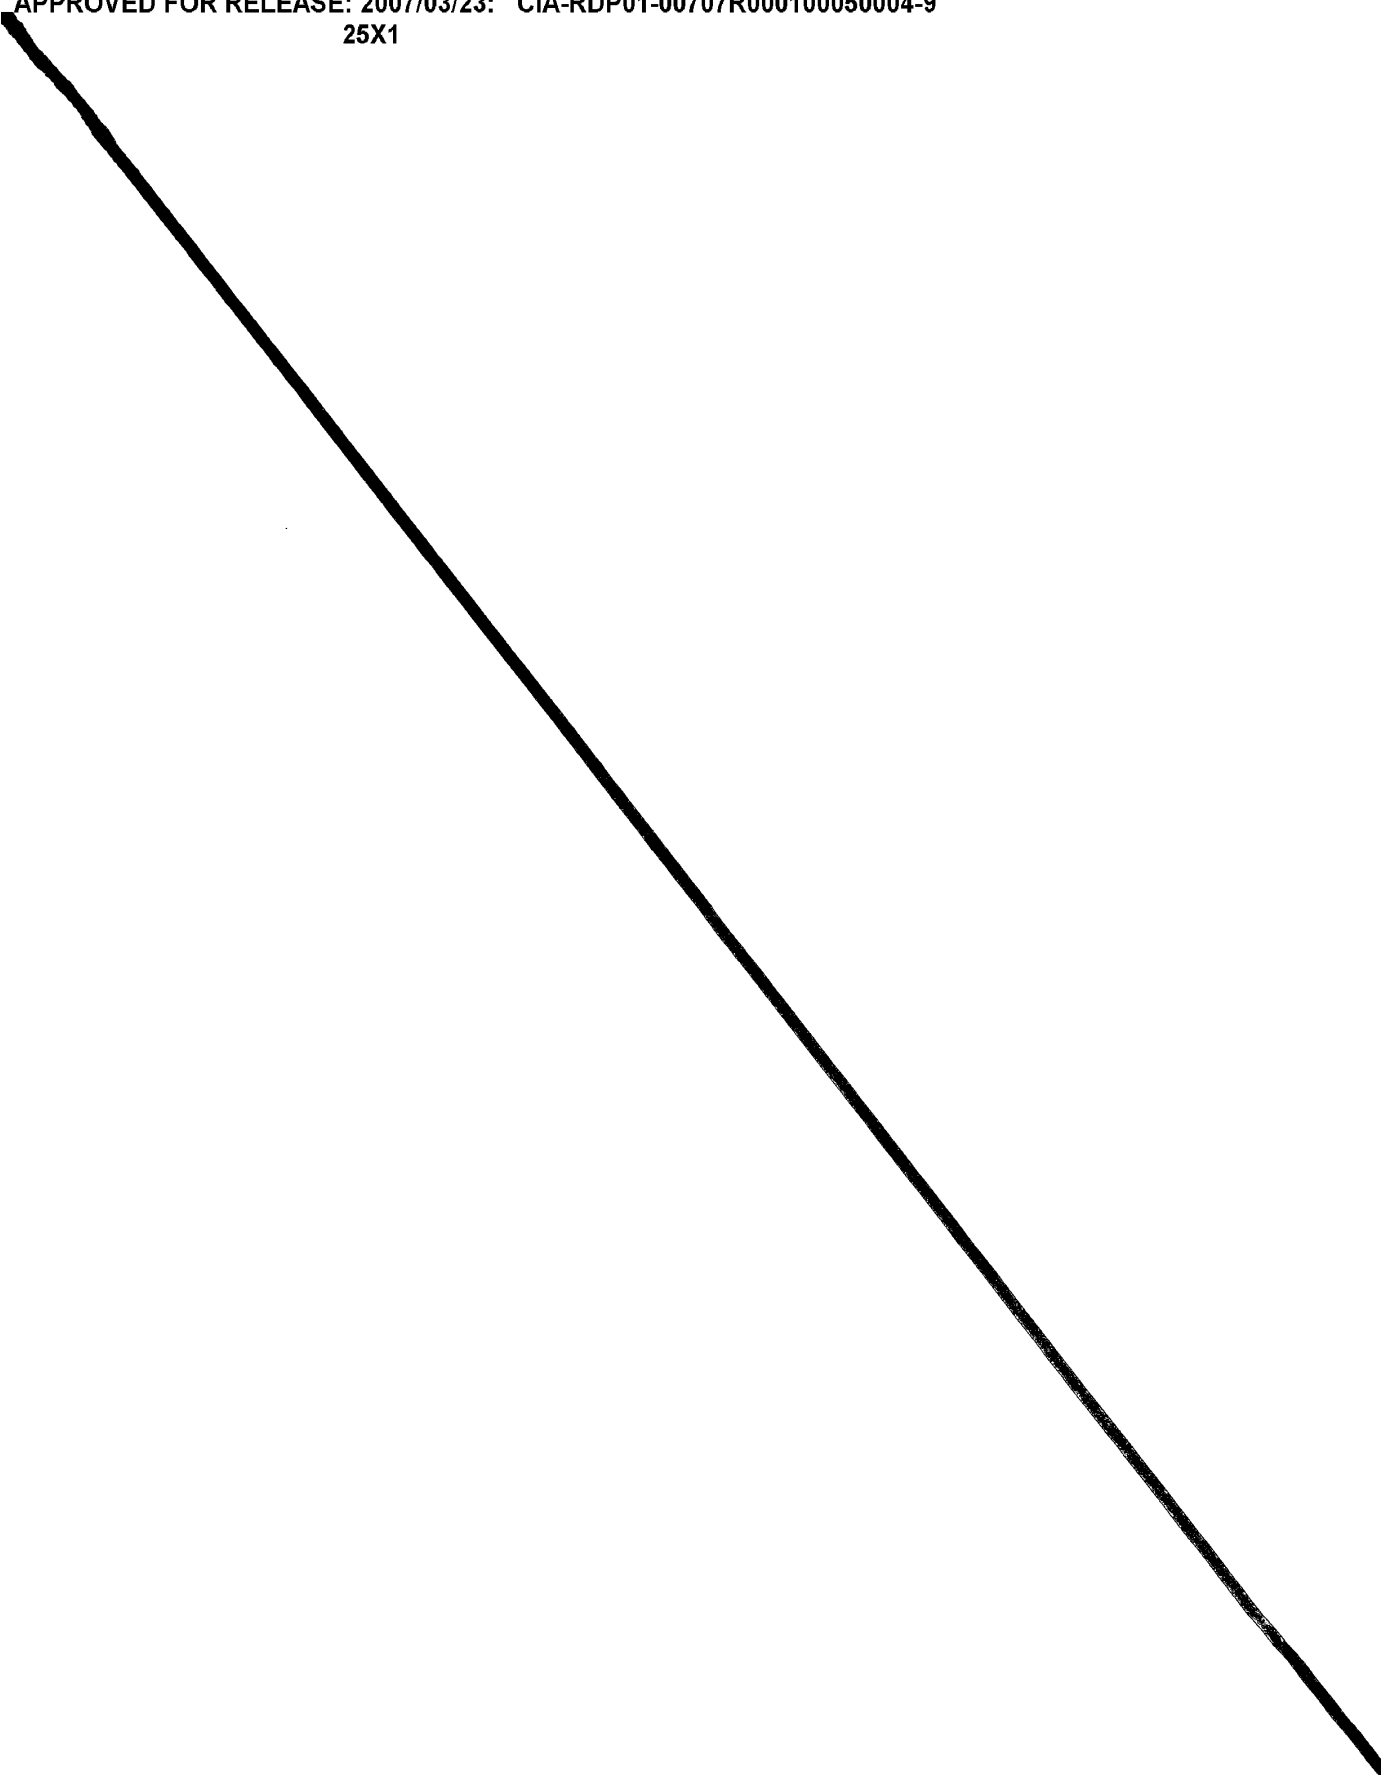

Name--Standard names and cross-references from variant names are listed in the first column. To reduce the bulk of the gazetteer, cross-references have been omitted for variants that differ from standard names only in having "oe" for "u" in the generic term, as "Goenoeng" for "Gunung." Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Where part of a name is underlined, the use of the nonunderlined part is optional. Names that consist of generic and specific elements are alphabetized by specific part; thus the cape Tandjung Abah is listed as Abah, Tandjung.
