CENTRAL INTELLIGENCE AGENCY

Washington, D. C.

September 1954

This Gazetteer is issued as a standard component of the National Intelligence Survey for Mozambique and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. This Gazetteer also lists the variants of official standard names for reference purposes. These variants are not approved as standard names.

This Gazetteer will be adequately maintained by published revision.

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

FOREWORD

This gazetteer contains about 27,800 entries for places and features in Mozambique. The entries include approved standard names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The scale of map coverage for most of the area is about 1:250,000.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.--Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the approved names by use of the word "see." Where part of a standard name is underlined, the use of the nonunderlined part is optional. Where two names are approved for a feature, each is identified in parentheses and either or both may be used. Names that consist of specific and other elements are alphabetized by specific part; thus Ponta Abril is listed as Abril, Ponta. Diacritical marks that occur on recommended names include the acute accent (as in Abúti), the grave accent (Alìtare), the circumflex (Adâmegi), the tilde (Botão), and the cedilla (Ambaça). These marks are used on both capital and lower-case letters.

Designation.--Designations, in the second column, are sometimes abbreviated and represent groups of features, as follows:

ADMD	administrative division	BCH	beach
AGR	agricultural station	BLDG	building
BAY	bay, inlet	CHAN	channel
CNAL	canal	MTS	mountains
DIST	district	POPL	populated place
GRGE	gorge	PROV	province
HBR	harbor, basin	PT	point
HILL	hill(s)	RCKS	rocks
ISL	island	RSTA	railroad station
ISLS	islands	SECS	section of stream
LAGN	lagoon	SHOL	shoal(s)
LAKS	lakes	STR	strait
MRSH	marsh, swamp	STRM	stream
MSSN	mission	UPLD	upland, plateau
MT	mountain	VAL	valley

Latitude and longitude.--Coordinates, in the third and fourth columns, are for finding purposes only. Where the scale of sources permitted, they were read to the nearest minute.

Administrative division.--The number in the fifth column, 579, is the area number assigned to Mozambique.

Locational reference.--The number in the last column indicates a map or chart where the feature may be located by its standard name or a recognizable variant of its standard name, as follows:

01 *Carta da Colónia de Moçambique,* Instituto Geográfico e Cadastral, 1941-50; scale 1:250,000.
02 *Colónia de Moçambique,* 1929; scale 1:1,000,000.
03 *World Aeronautical Chart,* Aeronautical Chart and Information Service, Department of the Air Force, Washington, latest editions to 1954; scale 1:1,000,000.
04 *Atlas de Portugal Ultramarino,* Ministério das Colónias, 1948; pages 73, 74, 75.
