CENTRAL INTELLIGENCE AGENCY

Washington, D. C.

May 1954

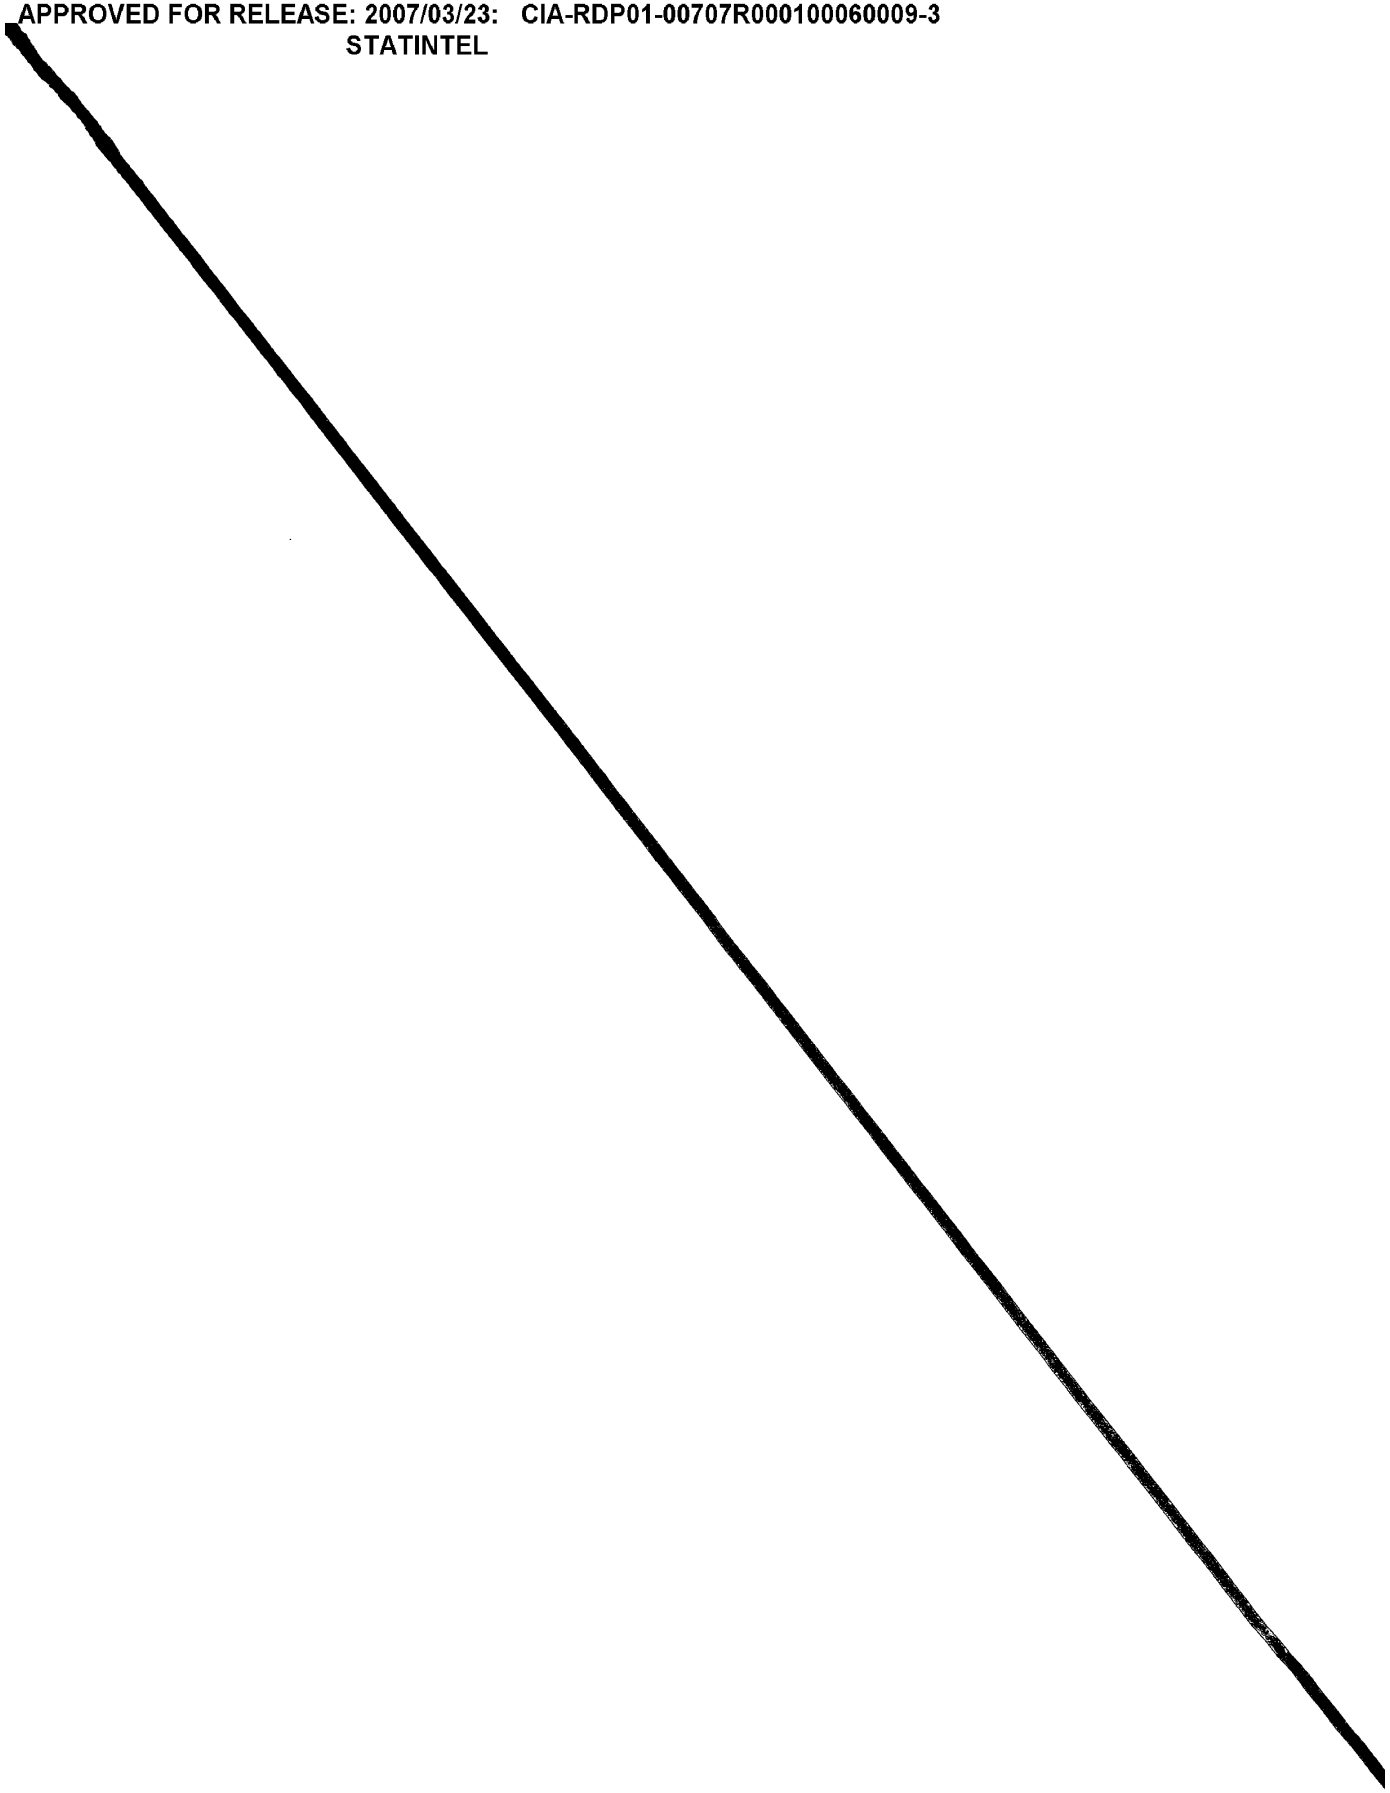

This Preliminary Gazetteer for New Zealand is issued in one volume as part of the National Intelligence Survey program and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area.

This Gazetteer is issued on a preliminary basis to expedite availability of this work material for use in the preparation of the National Intelligence Surveys. It is contemplated that major additions and revisions will be published in supplemental volumes and that subsequently the material will be consolidated and published as a standard component of the National Intelligence Survey for New Zealand.

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

FOREWORD

This gazetteer contains about 18,500 entries for places and features in New Zealand, including the Antipodes, Auckland, Bounty, Chatham, and Kermadec Islands and Campbell Island. The scale of map coverage is about 1:250,000.

Glossary of generic terms

The following glossary contains non-English generic terms occurring in the standard names listed in the gazetteer. Each of the meanings given applies in the case of one or more of the names. The terms not otherwise identified are Maori.

awa	channel, stream, valley	maunga	peak
ben (Scottish)	hill, peak	motu	rock, island
brae (Scottish)	mountain	puke	mountain
col (French)	mountain pass	pukenui	mountain
hiwi	mountain	puna	lake
inch (Scottish)	island	roto	lake
loch (Scottish)	lake	taumata	mountain
manga	stream	toka	point
		wai	stream

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.–Standard names and cross-references from variant names appear in the first column. Where part of a name is underlined, the use of the nonunderlined part is optional. Names that consist of specific and other elements are alphabetized by specific part; thus Mount Abrupt is listed as Abrupt, Mount.

Designation.–Designations, in the second column, are sometimes abbreviated and represent groups of features, as follows:

ANCH	anchorage	MT	mountain
BAY	bay, inlet	MTS	mountains, mountain range
BCH	beach	PARK	park, national park
BRGH	borough	PASS	pass, saddle
CAPE	cape, headland	PDIS	provincial district
CHAN	channel	PEAK	peak(s)
CLIF	cliff(s), bluff(s)	PEN	peninsula
CNAL	canal	PLN	plain

Latitude and longitude.--Coordinates, in the third and fourth columns, are for finding purposes only. Where the scale of sources permitted, they were read to the nearest minute.

Administrative division.--The number in the fifth column indicates the area in which the place is located: 830, New Zealand except the Kermadec Islands; 949, Kermadec Islands.

Locational reference.--The number in the last column indicates a map or chart on which the feature may be located by its standard name or a recognizable variant of its standard name, as follows:

01 *New Zealand Four-Mile Series,* Lands and Survey Department, Wellington, 1942; scale 1:253,440.
02 *New Zealand Topographical Map,* Surveyor General, Wellington, 1940-44; scale 1:63,360.
03 *South Island New Zealand,* Lands and Survey Department, Wellington, 1930; scale 1:633,600.
04 *North Island New Zealand,* Lands and Survey Department, Wellington, 1929; scale 1:633,600.
05 British Admiralty charts.

The code 00 is used for cross-references and for names to be found only on references not listed above.

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors to the Board on Geographic Names, Interior Department Building, Washington 25, D. C. A statement of the source of the correct information will be helpful.
