This Gazetteer is issued as a standard component of the National Intelligence Survey for Jordan and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. This Gazetteer also lists the variants of official standard names for reference purposes. These variants are not approved as standard names.

This Gazetteer will be adequately maintained by published revision.

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

FOREWORD

This gazetteer contains about 11,000 entries for places and features in Jordan. The entries include approved standard names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.* The names in this gazetteer, which supersede those in any previous Board on Geographic Names gazetteer of the area, are spelled in accordance with the system for the transliteration of Arabic used by the Board on Geographic Names.

The scale of map coverage is about 1:250,000 for most of the area.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.--Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the approved names by use of the word "see." Where part of a standard name is underlined, the use of the nonunderlined part is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names that consist of specific and other elements are regularly alphabetized by specific part; thus the spring 'Ayn al 'Abbāsah is listed as 'Abbāsah, 'Ayn al. Diacritical marks are illustrated in the following words: marsā', ābār, 'ayn, baḥr, bi'ī. Whether names are in all capitals or capitals and lower case, the same marks are to be used.

Designation.--The second column contains designations or abbreviations of designations, as follows:

ADMD administrative division	BLDG building, dwelling
AREA area	CAPE cape, promontory

CAVE cave	PEAK mountain peak
CLIF cliff, bluff, escarpment	PEN peninsula
CNAL canal	PLN plain
CNVT convent	POLC police station or post
COVE cove	POOL pool

DEPR depression	PROV province
DIST district	PT point
DSRT desert	RDGE ridge
FLAT mud flat	REGN region
FORD ford	RSTA railway station
FORT fort	RSVR reservoir
GRAZ grazing area	SALT salt plain
GRVE grave(s)	SECP section of a populated place
GULF gulf	SHRN shrine
HILL hill(s)	SITE ancient site, ruined dwelling, ruin(s)
INN inn	SLPE mountain slope, hillside
KGDM kingdom	SPRG (hot) spring(s)
LAKE lake	SPUR mountain spur, salient
LAVA lava area	STRM stream
LCTY locality	TANK tank
MCTY municipality	TOMB tomb
MND mound	UPLD upland, plateau
MON monastery	VAL valley
MOSQ mosque	WADI wadi(es)
MRSR marsh	WELL well(s), cistern
MT mountain	WTRH waterhole
MTS mountains, range	
PASS mountain pass	

Latitude and longitude.--Coordinates, in the third and fourth columns, are for finding purposes only. Where the scale of sources permitted, they were read to the nearest minute.

Locational reference.--The number in the last column indicates a map where the feature may be located by its Arabic name, its standard name, or a recognizable variant of its standard name, as follows:

- 01 *Trans-Jordan Track Map*, Department of Lands and Surveys, 1945; scale 1:500,000. Arabic and English.
