FOREWORD

This gazetteer contains about 27,295 entries: 1,225 for Hong Kong (pages 1-18), 70 for Macao (pages 19-20), 5,900 for Sinkiang (pages 21-108), 17,800 for Taiwan (pages 109-355), and 2,300 for Tibet (pages 357-90). The entries include approved standard names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.* The names in this gazetteer supersede those in all previous Board on Geographic Names lists for these areas.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the approved names by use of the word "see." Where part of a standard name is underlined, the use of the nonunderlined part is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names that consist of specific and other elements are regularly alphabetized by specific part; thus Pedra d'Areca is listed as Areca, Pedra d'. In writing names in capitals and lowercase letters, initial letters are to be lowercased in parts of names following hyphens and capitalized in parts that are separate words. Diacritical marks include the umlaut (as in Hsü), the acute accent (Baía), the macron (Raidā-iwa), and the sign of aspiration (Ch'i). These marks are to be used on both capital and lowercase letters. Where sources show related names but disagree as to the type of feature (e.g., well, halting place, or spring) at a given location, as in Sinkiang, only one name is approved and the other place names applied at this location, whatever they designate, are cross-referenced to the approved name.

Designation.—The second column contains designations or abbreviations of designations, as follows:

ADMD administrative division	MON monastery
ANCH anchorage	MRSH marsh
AREA area	MT mountain
BANK sandbank, banks	MTS mountains, range
BAR sandbar	OAS oasis
BAY bay, inlet	OUTP outpost
BLDG building, rest house	PASS pass
CAPE cape, headland	PEAK peak
CHAN channel	PEN peninsula
CLIF cliff, bluff	PLN plain, inland basin
CNAL canal	POPL populated place
COL colony	PORT port
COVE cove	PROV province
DEPR depression	PT point
DIST district	RCKS rocks
DSRT desert	RDGE ridge
FORT fort	REEF reef
GAP gap	REGN region
GLCR glacier	RMTH river mouth
GOLD gold pits	ROAD roadstead
GRGE gorge	ROCK rock
HALT halting place	RSTA railroad station
HBR harbor, basin	RSVR reservoir
HILL hill(s), sandhills	SAND sandy area
ISL island, islet	SCHN section of channel
ISLS islands	SEA sea
LAKE lake	SECP section of a populated place
LCTY locality	SECS section of a stream
LTER leased territory	SHOL shoal
MCTY municipality	

SHRN	shrine	STRM	stream
SITE	site, ruins, ruined fort	TMBS	tombs
SPIT	spit	UPLD	upland, plateau
SPRG	spring	WELL	well
STR	strait		

Latitude and longitude.—Coordinates (third and fourth columns) are for finding purposes only. They were read to the nearest minute, but on a given reference a feature may be some distance from the location stated. Locating places in Sinkiang and Tibet is generally difficult, and differences of 5 to 10 minutes in latitude and 10 to 20 minutes in longitude are common.

For streams, coordinates were taken at the mouth; for sections of streams, at the lower end. For districts (*hsien*) and municipalities (*shih*), coordinates were generally taken at the administrative center. The administrative center of a *hsien* has the same specific name as the *hsien*. When the administrative center is moved, the town at the new location is given the name of the *hsien* and the former location is given another name, such as a former name or the *hsien* name with a prefix or a suffix.

Administrative division.—The number in the fifth column is the code number assigned the area or subdivision in which the place or feature, or some part of it, is located, as follows: 435, Taiwan; 440, China (general); 44330, Hong Kong; 44340, Macao; 44840, Sinkiang; 44860, Tibet.

Locational reference.—The number in the last column indicates a map or chart where the feature may be located by its standard name or a name recognizable as a variant of its standard name. (The variation in Taiwan frequently is in such suffixes as -ts'un, -li, -chen, -chuang, -hsü, or -shih.) The numbers indicate the following references (for Chinese titles and publishing data, free translations are given):

#### Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors to the Board on Geographic Names, Interior Department Building, Washington 25, D. C. A statement of the source of the correct information will be helpful.

#### Other gazetteers

The following publications may be useful as finding lists, though the names in them are not necessarily those approved by the Board as standard names:

1. U. S. Board on Geographical Names, *Gazetteer of Chinese Place Names Based on the Index to the V. K. Ting Atlas*, Army Map Service, Washington, 1944; about 34,000 entries.
2. *Index to Map of China*, National Geographic Society, Washington, 1945; 7,986 entries.
3. *China Coast*, Gazetteer No. 15, H. O. Publication No. 895, Hydrographic Office, Navy Department, Washington, 1945; about 21,250 entries, including cross-references and variants.
4. Sir Aurel Stein, *Memoir on Maps of Chinese Turkistan and Kansu*, Dehra Dun, 1923; index of about 5,600 entries, pp. 155-98.
