Geographic names or their spellings do not necessarily
reflect recognition of the political status of an area by the
United States Government.

APPROVED FOR RELEASE: 2007/03/23: CIA-RDP01-00707R000100090007-2

FOREWORD

This publication is issued as a supplement to the NIS Gazetteer, *China*, Volumes I and II (March 1952) and Volume III (September 1955). Its purpose is to provide Communist names for Chinese populated places that are Communist administrative centers or were Nationalist administrative centers and to identify these names with those in the NIS Gazetteer.

The names listed in the NIS Gazetteer for China are the Nationalist names that are recommended for official Government use. However, to meet the needs of those requiring names appearing in Communist Chinese materials, the listed Communist names are supplied, romanized by the Wade-Giles system. The latter are identified in parallel columns with approved names listed in the NIS Gazetteer. They represent the results of research through December 1956.

COMMUNIST NAMES ARE APPROVED BY THE BOARD ON GEOGRAPHIC NAMES AS PROVISIONAL ALTERNATE NAMES FOR USE WITH DISCLAIMERS TO THE EFFECT THAT THE NAMES DO NOT REFLECT POLITICAL RECOGNITION BY THE UNITED STATES GOVERNMENT.

In China, the centers of municipalities (*shih*), districts (*hsien*), and banners (*ch'i*) have the same specific names as the areas. Accordingly, when a different town is designated as the administrative center of a *hsien*, the town at the new location is given the name of the *hsien*, while the former location is given another name, such as a former name or the *hsien* name with a prefix or a suffix. Thus the relocation of a *hsien* seat results in name changes for two populated places. Under the

Communist regime many Nationalist *hsien* seats have been relocated and many populated places have been renamed for other reasons.

This supplement consists of two parts, as follows:

Part I: Column one is an alphabetical list of Nationalist names of populated places approved by the Board on Geographic Names.

Column two provides the corresponding Communist name for each entry in Column one.

Part II: Column one is an alphabetical list of Communist names of the same populated places contained in Part I, Column two.

Column two provides the corresponding Nationalist name for each entry in Column one.

Cross-references are provided for conventional names in both Part I and Part II.

The abbreviations "CH" for "Chinese" and "CONV" for "conventional" have been used for identification.

Additional variant names for most of the places listed may be found in the NIS Gazetteer. A few of the names published in this supplement were not included in the NIS Gazetteer.
