CENTRAL INTELLIGENCE AGENCY

Washington, D. C.

November 1951

This Preliminary Gazetteer for Indochina is issued in one volume as part of the National Intelligence Survey program and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. For features lying within adjacent areas, refer to appropriate Gazetteer.

This Gazetteer is issued on a preliminary basis to expedite availability of this work material for use in the preparation of the National Intelligence Surveys. It is contemplated that major additions and revisions will be published in supplemental volume and that subsequently the material will be consolidated and published as a standard component of the National Intelligence Survey for Indochina.

Distribution of this publication is made by the Central Intelligence Agency. This document carries a RESTRICTED classification but individual names thereof are unclassified.

FOREWORD

This gazetteer contains about 23,350 entries for places and features in Indochina, which is composed of the republic of Vietnam and the kingdoms of Cambodia and Laos. The scale of map coverage is about 1:500,000. French sources were generally used in standardizing the names.

Glossary

The following glossary contains generic terms occurring in the standard names listed in the gazetteer and other terms often found abbreviated (frequently without periods) on maps of Indochina. Each of the meanings given applies in the case of one or more of the standard names.

The majority of the terms in this list are from one of the three principal languages spoken in Indochina: Vietnamese or Annamese, spoken principally in Vietnam, here identified by V; Cambodian or Khmer, spoken principally in Cambodia, here identified by C; and Laotian Thai, spoken principally in Laos, here identified by L. Many of the generic terms in the list are French, here identified by F. The remaining terms are from the various Mon-Khmer and Malayo-Polynesian languages spoken in Indochina, from Siamese Thai, from Chinese, or from Portuguese.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information regarding places and features listed in the gazetteer in order to accommodate it to the machine method of tabulation.

Name--Standard names and cross-references from variant names appear in the first column. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names that include both specific and generic elements (except those of populated places) are alphabetized by specific part; for example, Col
