NIS GAZETTEER

Egypt

RECORD COPY

This revised NIS Gazetteer on Egypt is issued under the NIS maintenance program. It supersedes the NIS Preliminary Gazetteer on Egypt, dated February 1950, copies of which should be destroyed.

FOR OFFICIAL USE ONLY

CENTRAL INTELLIGENCE AGENCY

Washington, D.C.

July 1959

This Gazetteer is issued as a standard component of the National Intelligence Survey for Egypt and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. This Gazetteer also lists the variants of official standard names for reference purposes. These variants are not approved as standard names.

This Gazetteer will be adequately maintained by published revision.

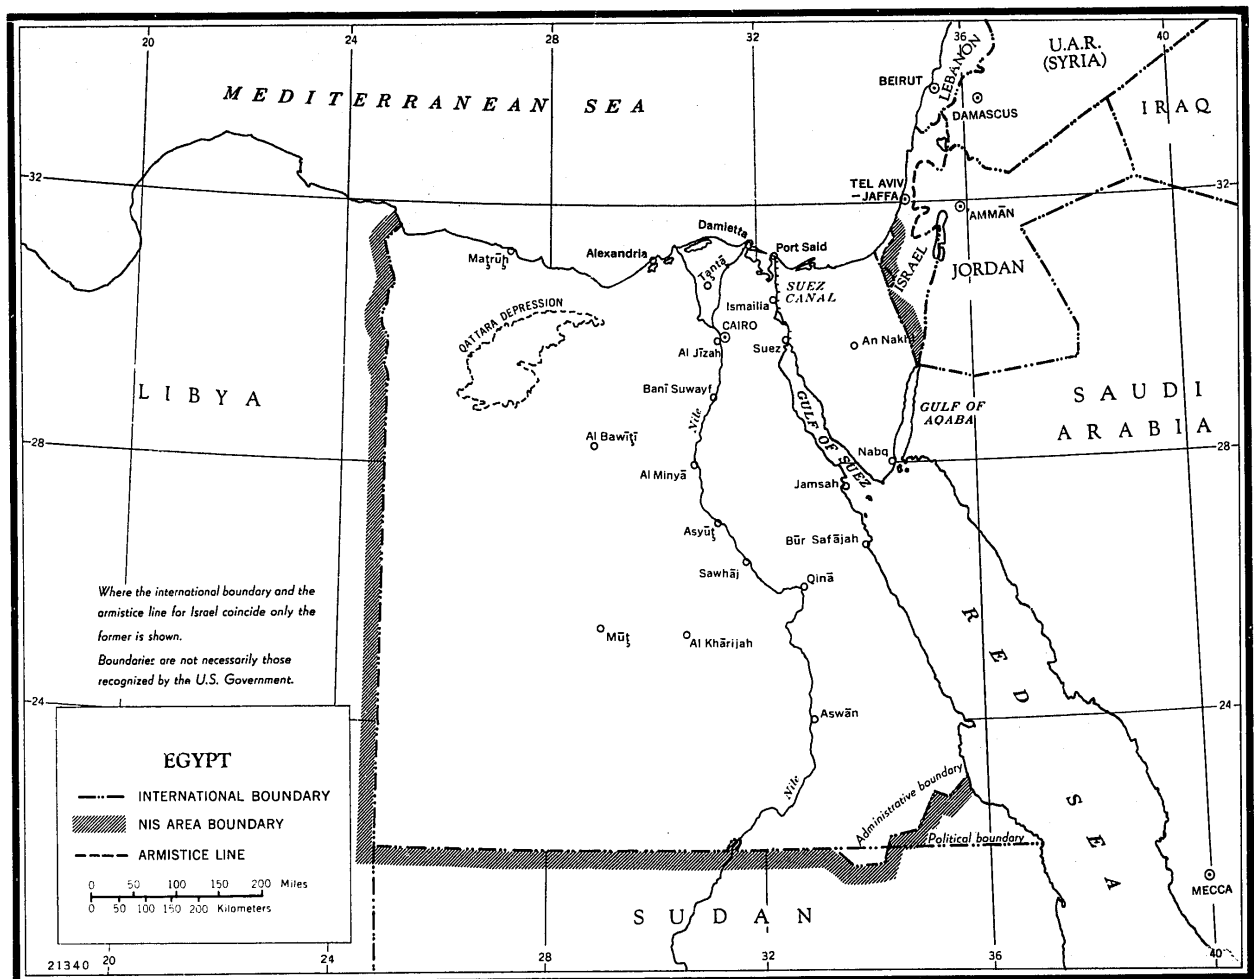

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

NIS GAZETTEER

Egypt

Official Standard Names Approved by the
U.S. Board on Geographic Names

Prepared in the Office of Geography, Department of the Interior
Published by the Central Intelligence Agency
Washington, D.C. July 1959

FOREWORD

This gazetteer contains about 27,800 entries for places and features in Egypt and about 200 for places and features in the Gaza Strip. The entries include approved standard names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The names in this gazetteer supersede those in all previous Board lists for the areas.

The scale of map coverage is about 1:100,000 for the coastal areas, the Nile valley and delta, and the Gaza Strip and about 1:500,000 for the rest of the area.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by the use of the word “see.” Where part of a name is underlined, the use of the nonunderlined part is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names that include specific and other elements (except names of populated places) are alphabetized by specific part; thus Wādī ash Shubrām is listed as Shubrām, Wādī ash. Diacritical marks and special letters in approved names are illustrated in the following words: Bi'r, Abār, 'Alam, Baṭn, Mūsá. The same marks are to be used whether the names are written in capitals or lowercase letters. Other diacritical marks, notably the circumflex accent, appear in cross-references.

Designation.—The second column contains designations or abbreviations of designations, as follows:

ADMR	administrative region	FISC	fiscal village (fiscal area, with specific boundaries, established for tax-collection purposes. It may or may not include a populated place by the same name within its boundaries.)
