RECORD COPY

NIS GAZETTEER

Congo

The NIS Gazetteer on Congo is issued under the NIS maintenance program. It supersedes the material on Congo in the Preliminary NIS Gazetteer on Equatorial Africa, dated November 1952.

FOR OFFICIAL USE ONLY

RECORD COPY

CENTRAL INTELLIGENCE AGENCY

Washington, D.C.

June 1962

This Gazetteer is issued as a standard component of the National Intelligence Survey for Congo and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. This Gazetteer also lists the variants of official standard names for reference purposes. These variants are not approved as standard names.

This Gazetteer will be adequately maintained by published revision.

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

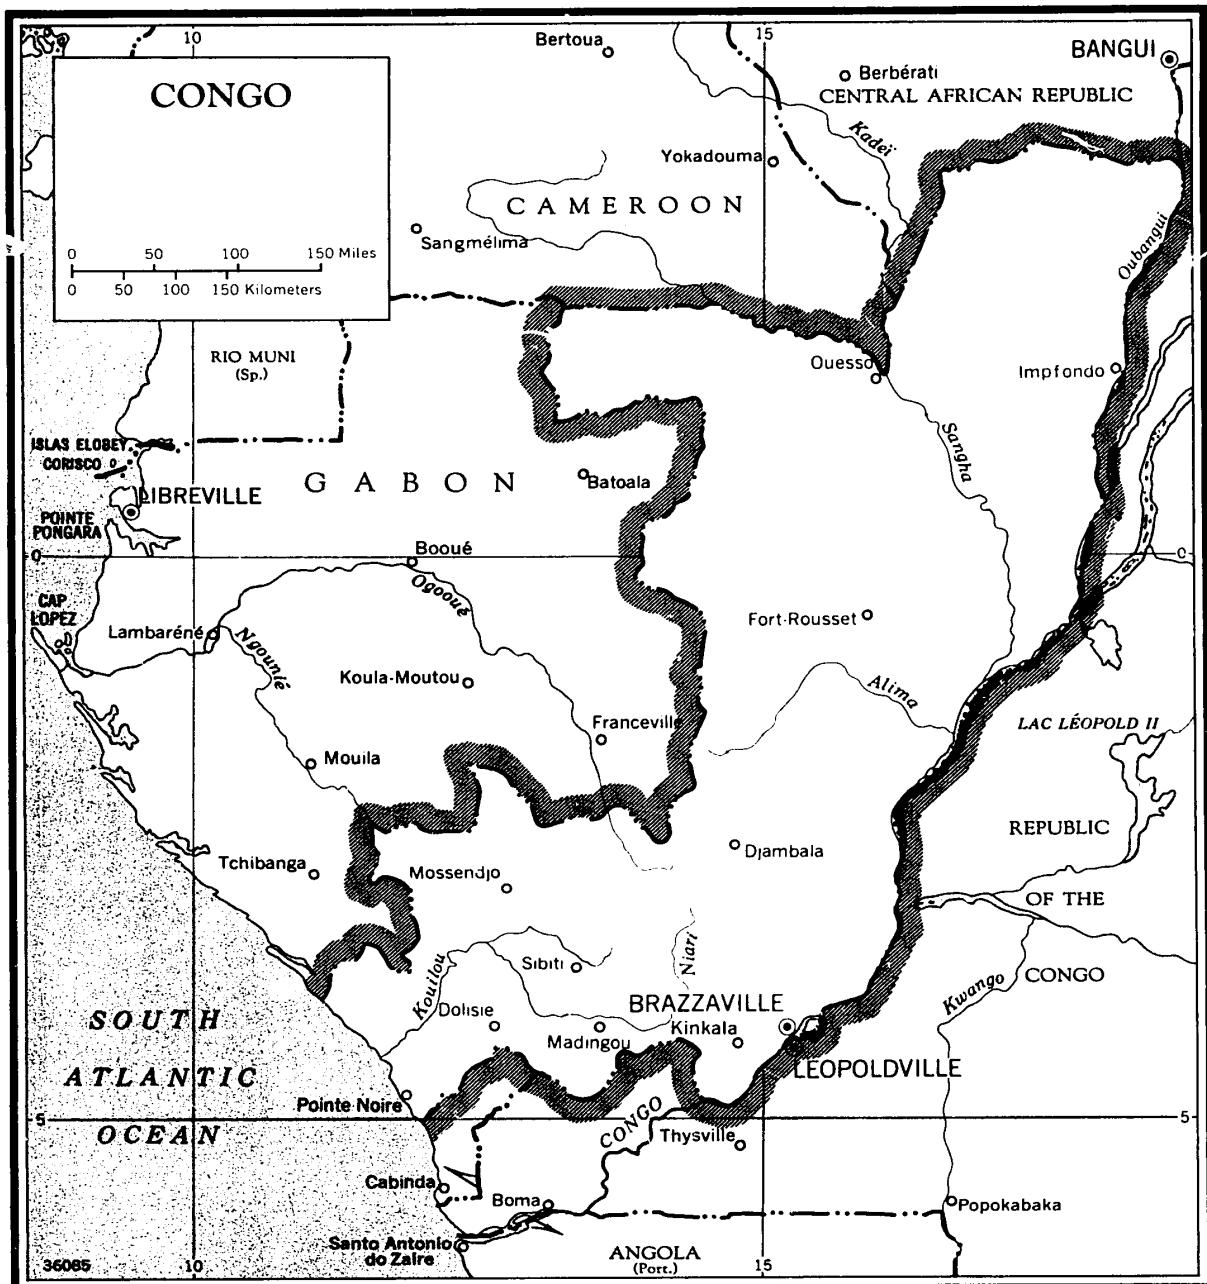

APPROVED FOR RELEASE: 2007/02/21: CIA-RDP01-00707R000100120002-3

NIS GAZETTEER

Congo

Official Standard Names Approved by the
U.S. Board on Geographic Names

Prepared in the Office of Geography, Department of the Interior
Coordinated by the Central Intelligence Agency
Washington, D.C. June 1962

FOREWORD

This gazetteer contains about 7,700 entries for places and features in the Republic of Congo (Brazzaville); the former Territoire du Moyen-Congo or Middle Congo of French Equatorial Africa. The entries include standard names approved by the Board on Geographic Names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The names in this gazetteer supersede those in all previous Board lists for the area.

The map scale of name coverage is approximately 1:200,000.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see." Where part of a name is underlined, the use of the part not underlined is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names that include specific and other elements (except names of populated places) are alphabetized by specific part; thus Mayo Lidi is listed as Lidi, Mayo. The diacritical marks used in the approved names are the acute ('), the grave ('), the circumflex (^), and the dieresis (") which is written under the letter c. They are to be used whether the names are written in capital or lowercase letters.

The first letter of all separate words except non-initial articles, prepositions, and conjunctions should be capitalized.

A characteristic of Congo nomenclature is the frequent occurrence of two or more small populated places, streams, or other features with identical names within short distances of each other. Some are identified by the use of numerals; e.g., Masangou I and Masangou II. Duplicate names are individually listed in the gazetteer as shown on the maps of the area.

Designation.—The second column contains designations or abbreviations of designations, as listed below. Since practically all geographic terms have varied meanings, the senses in which the designator terms are used and the range of features to which they are applied in this gazetteer are stated in the list to reduce ambiguity. The distinctions that can be made in a given gazetteer will vary with the quality of the maps of the area and with the nature of the entities that are named.

ADM'D	first-order administrative division
BAY	bay (includes coastal indentations of variable size, such as coves and inlets)
BCH	beach
CLF	cliff(s)
CMP	campsites
CRKT	tidal creek (watercourse tidal in its entire length; usually short, without extensive tributary drainage areas, and located in coastal marsh or other wetland)
FLLS	waterfall
FRST	forest, woods

HLL	hill (generally less than 300 meters elevation, small summit area, and moderate relief)	RGN	region (area recognized as an entity by reason of the unity of its history, people, landscape, or other condition)
HLLS	hills	RKL	rock on land
ISL	island	RKSW	rocks in water
LGN	lagoon (water body along a coast, wholly or largely cut off from the sea by a barrier beach or other depositional feature)	RPDS	rapids (may include some waterfalls not distinguished in sources from rapids)
LK	lake	RSTN	railroad station
LKI	intermittent lake	RSV	reservoir (large artificial impoundment of water)
LKS	lakes	SHOL	shoal(s) (offshore hazard to navigation generally composed of unconsolidated material; may be exposed in part at low tide)
MRSH	marsh (wetland characterized by grass or low bush vegetation, few if any trees)	SPNG	spring(s)
MT	mountain (generally over 300 meters elevation, small summit area, and conspicuous relief)	STM	stream (river or other running fresh water body, perennial in whole or in part)
MTS	mountains	STMI	intermittent stream
PASS	pass (a way over or through an area of mountains or other high land)	STMX	section of stream
PCLI	independent political entity (republic)	TNL	tunnel
PLAT	plateau (extensive elevated area of flat to rolling surface; may exhibit considerable local relief due to dissection or the presence of hills or mountains rising above the general surface level)	VAL	valley
PLN	plain	WTC	watercourse (channel connecting the lower parts of two streams)
PND	pond (small inland water body)	<i>Latitude and longitude.</i> — Coordinates, in the third and fourth columns, are for finding purposes only. They were generally read to the nearest minute. For precise location, large-scale maps should be used.	
PNDI	intermittent pond	Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouths or lower ends of streams, at the summits of mountains and hills, at the extremities of capes, near the centers of areas, and at the midpoints of most other features.	
POOL	pool (body of water in a watercourse; residual dry-season pool); intermittent pools	<i>Area number.</i> — The number in the fifth column indicates the administrative or geographic unit in which the place or feature is located, as listed below. Boundaries used in locating named entities are approximate only.	
PPL	populated place (city, town, village, settlement; includes some seasonal or temporary habitations)	55000 Congo (general)	55006 Pool
PPLX	section of populated place	55001 Kouilou	55007 Djoué
PRK	national park	55002 Louessé	55008 Alima-Léfini
PROM	promontory (projecting piece of the edge of a plateau or other upland surface, overlooking adjacent lower land)	55003 Louessé-Niari	55009 Likouala-Mossaka
PT	point (a relatively minor projection of land into a water body, or its extremity)	55014 Niari	55010 Likouala
RDGE	ridge	55015 Niari-Bouanza	55011 Sangha
RESH	hunting reserve		

The general number (55000) is used for international features and for features in more than one of the numbered subdivisions of the country.

Locational reference.—The number in the last column indicates a map or chart on which the feature may be located by its standard name or a recognizable variant of its standard name.

01 *Croquis Provisoire de l'A.E.F. et du Cameroun*, Service Géographique de l'A.E.F. et du Cameroun and Institut Géographique National, various dates; scale 1:200,000.

02 *Croquis Provisoire de l'A.E.F. et du Cameroun*, Service Géographique de l'A.E.F. et du Cameroun, various dates; scale 1:1,000,000.

03 French hydrographic charts, Service Hydrographique de la Marine, various dates and scales.

The code 00 is used for cross-references and for standard names found only on references other than those listed above.

Glossary of generic terms

The following terms occur in the standard names listed in the gazetteer. The meanings given include those supported by application to features named in the gazetteer, whether or not these meanings are given in dictionaries.

baie	bay
banc	shoal
bois	woods
campement	campsite
canal	watercourse
chutes	waterfalls
col	pass

colline(s)	hill(s)
côte	beach
étang(s)	pond, lake, pool, marsh
falaise(s)	cliff(s)
forêt	forest
gare	railroad station
hauteurs	plateau
île	island
lac(s)	lake(s), lagoon, pond, reservoir
lagune	lagoon
marais	marsh
mare(s)	pond, intermittent pond, pool, intermittent pools; lake, marsh
massif	mountain, hill
mont(s)	mountain(s), hill(s)
parc national	national park
pic	mountain
plaine	plain
plateau	plateau
pointe	point
rapides	rapids
république	republic
réserve de chasse	hunting reserve
réserve forestière	forest reserve
rocher(s)	rock(s), cliff
source	spring
tunnel	tunnel

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors to the Board on Geographic Names, Department of the Interior, Washington 25, D. C. A statement of the source of the correct information will be helpful.

Geographic names or their spellings do not necessarily reflect recognition of the political status of an area by the United States Government.
