NIS GAZETTEER

Laos

The NIS Gazetteer on Laos is issued under the NIS maintenance program. It supersedes the material on Laos in the Preliminary NIS Gazetteer on Indochina, dated November 1951.

RECORD COPY

FOR OFFICIAL USE ONLY

CENTRAL INTELLIGENCE AGENCY

Washington, D.C.

January 1963

This Gazetteer is issued as a standard component of the National Intelligence Survey for Laos and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. This Gazetteer also lists the variants of official standard names for reference purposes. These variants are not approved as standard names.

This Gazetteer will be adequately maintained by published revision.

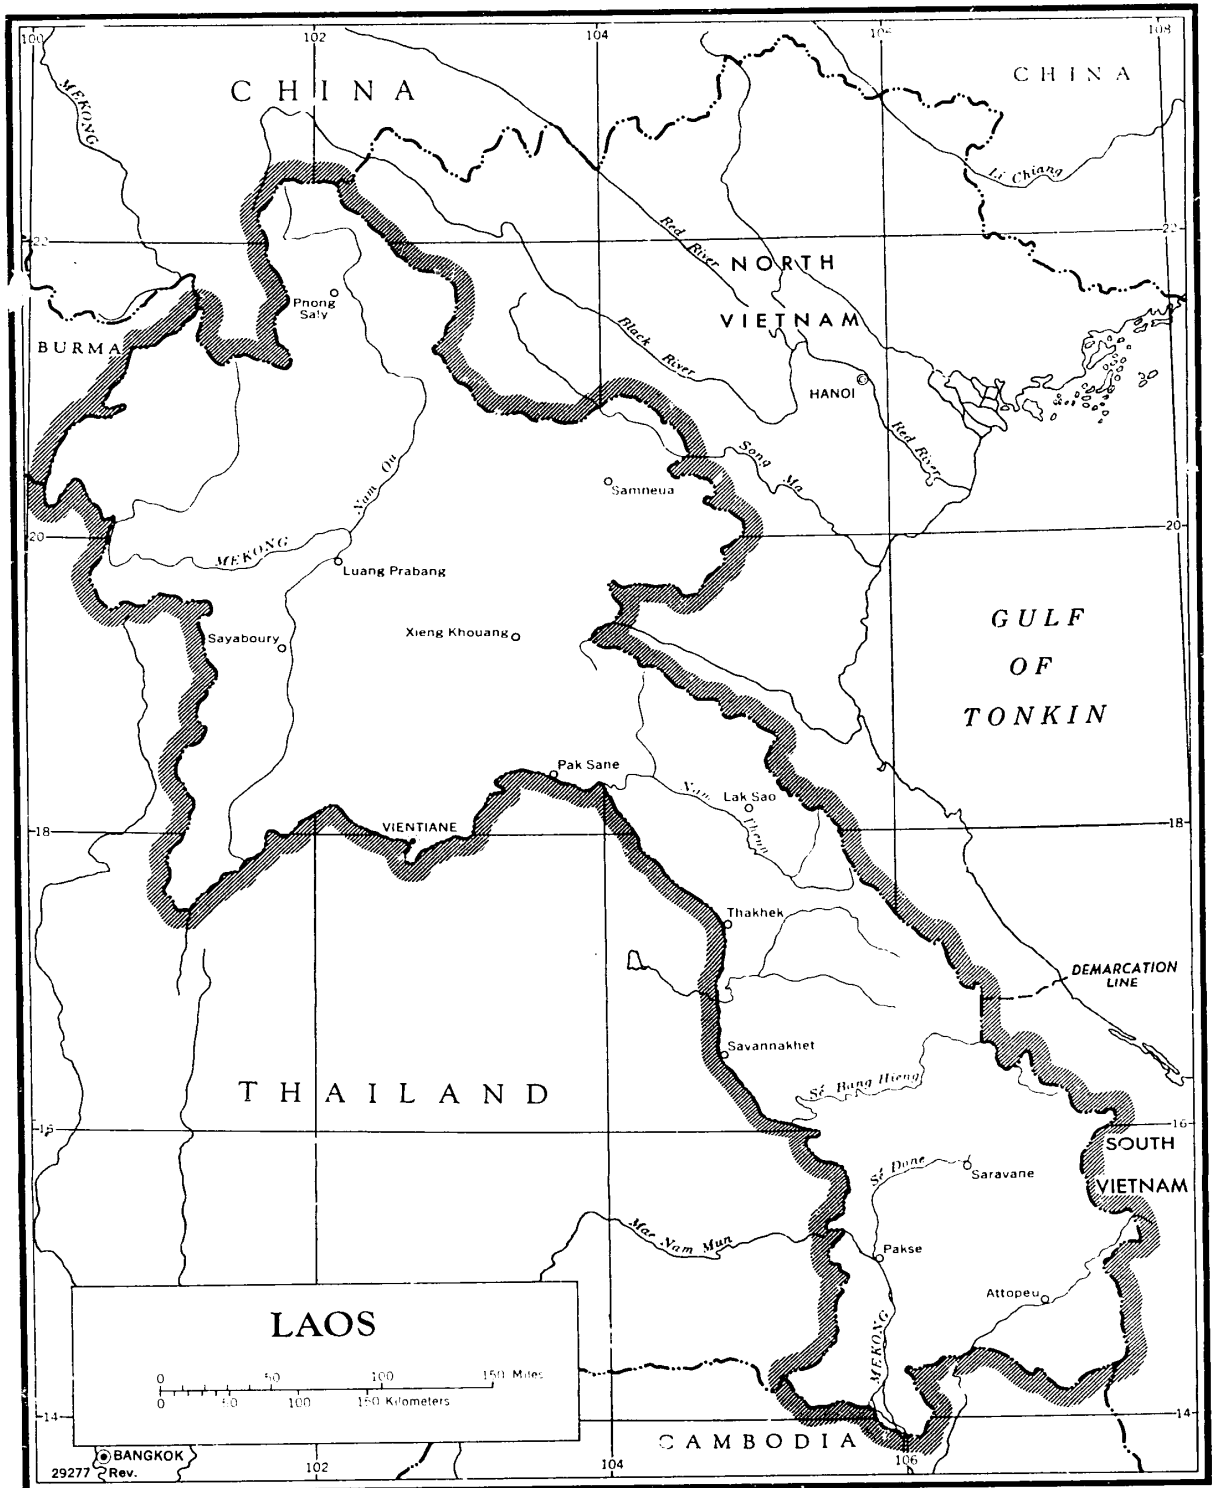

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

NIS GAZETTEER

Laos

Official Standard Names Approved by the
U.S. Board on Geographic Names

Prepared in the Office of Geography, Department of the Interior
Coordinated by the Central Intelligence Agency
Washington, D.C. January 1963

FOREWORD

This gazetteer contains about 15,300 entries for places and features in the Kingdom of Laos. The entries include standard names approved by the Board on Geographic Names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The names in this gazetteer supersede those in all previous Board lists for the area.

The name coverage corresponds approximately to that on maps at the scale of 1:250,000.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name. — Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see." Where part of a name is underlined, the use of the part not underlined is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names that include specific and other elements (except names of populated places) are alphabetized by specific part; thus the stream name Nam Ou is listed as Ou, Nam.

The diacritical marks used in approved names of Laos are the acute accent (´), the grave accent (`), the circumflex (^), the dieresis (¨), and the apostrophe ('); these marks are to be used whether the names are written in capital or lowercase letters.

In writing Laotian names in capital and lowercase letters, the initial letter of each word should be capitalized. The same applies to French names, except that noninitial articles, prepositions, and conjunctions are not capitalized.

Designation. — The second column contains designations or abbreviations of designations, as listed below.

Since practically all geographic terms have varied meanings, the senses in which the designator terms are used and the range of features to which they are applied in this gazetteer are stated in the list to reduce ambiguity. The distinctions that can be made in a given gazetteer will vary with the quality of the maps of the area and with the nature of the entities that are named.

- ADMD administrative division (first-order: province, *khoueng*)
- CAVE cave
- HLL hill (landform with elevation of less than 500 meters, moderate relief, and small summit area)
- HLLS hills
- ISL island
- LK lake
- MRSR marsh (wetland, generally with few or no trees)
- MT mountain (landform with more than 500 meters elevation, conspicuous relief, and small summit area)
- MTS mountains, mountain range
- PASS pass (way over, through, or between mountains or other high land)
- PCLI independent political entity (kingdom)
- PK peak (apex of a mountain; summit on a larger elevation)
- PLAT plateau (extensive elevated area of flat to rolling surface; may exhibit considerable local relief due to dissection or the presence of hills or mountains rising above the general surface level)
- PLN plain
- PND pond (small inland waterbody)
- PPL populated place (city, town, village, named locality)

PPLQ	abandoned village
RDGE	ridge (elongated elevation or series of elevations)
RGN	region (area recognized as an entity by reason of the unity of its history, people, landscape, or other condition)
RPDS	rapids
STM	stream (river or other running fresh waterbody, perennial in whole or in part)
STMI	intermittent stream (no part indicated as perennial)
STMX	section of stream (separately named part of a continuous stream not delimited by significant confluences)
SWMP	swamp (wetland with trees)

Latitude and longitude. — Coordinates, in the third and fourth columns, are for finding purposes only. They were generally read to the nearest minute. For precise location, large-scale maps should be used.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouths or lower ends of streams, at the summits of mountains and hills, near the centers of areas, and at the mid-points of most other features.

Area number. — The number in the fifth column indicates the first-order administrative unit (*khoueng*, province) in which the place or feature is located, as listed below:

46700 Laos (general)	46707 Xieng Khouang
46701 Houa Khong	46708 Khammouane
46702 Phong Saly	46709 Savannakhet
46703 Luang Prabang	46710 Saravane *
46704 Houa Phan	46711 Attapeu
46705 Sayaboury	46712 Champassak *
46706 Vientiane *	

* A new province of Khoueng Borikhane is reported to have been formed from a portion of Khoueng Vientiane in 1962; a province of Khoueng Vapikhamthong is reported to have been created from a portion of Khoueng Saravane in the same year. Khoueng Champassak is reported to have been

The general number (46700) is used for international features and for features in two or more provinces.

Locational reference. — The number in the last column indicates a map or chart on which the feature may be located by its standard name or a recognizable variant of its standard name.

- 01 *Carte de l'Indochine 1:100,000*, (AMS L605), Service Géographique de l'Indochine, various editions.
- 02 *Carte du Laos*, Service Géographique National, Vientiane, 1959; scale 1:100,000.
- 03 *Indochina and Thailand*, (AMS L509), Army Map Service, Washington; scale 1:250,000.

- 05 *Laos Administratif*, Service Géographique National, Vientiane, 1960; scale 1:2,000,000.

The code 00 is used for cross-references and for standard names found only on references other than those listed above.

Coordinates on some of the above maps are expressed in grads with longitude based on Paris, rather than on degrees and minutes with longitude based on Greenwich. A grad equals nine-tenths of a degree or fifty-four minutes. To convert degrees and minutes into approximate grads, change minutes to hundredths of degrees and multiply by 1.11. In the case of longitude based on Greenwich, first convert to the meridian of Paris by subtracting 2°20'. To convert grads into degrees and minutes, multiply by .9 and convert hundredths of degrees to minutes. Add 2°20' to convert Paris longitude to Greenwich longitude. Alternatively, one may obtain adequate approximations by using the tables of equivalents below.

divided into the provinces of Khoueng Champassak, Khoueng Sedone, and Khoueng Sithandone in 1961. These changes are not reflected in the area numbers, since information on the boundaries of the new provinces was not available when the gazetteer went to press.

Additional Name lists

The following publications contain names not included in this gazetteer and may be helpful as finding lists, though the additional names in them are not necessarily those that would be approved by the Board as standard names:

1. *Gazetteer to AMS 1:250,000 Maps of Indochina* (Series L 509), Army Map Service, Washington, 1958.
2. *Gazetteer of Indo-China*, Director of Survey (India), 1945.

3. *Gazetteer (No. 12), French Indochina and South China Sea*, Publication No. 892, Hydrographic Office, United States Navy Department, Washington, 1944.

4. *Indochina Place Name List*, National Security Agency, Washington, 1957. Two parts in 6 volumes.

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printing by reporting errors to the Board on Geographic Names, Department of the Interior, Washington 25, D. C. A statement of the source of the correct information will be helpful.

Geographic names or their spellings do not necessarily reflect recognition of the political status of an area by the United States Government.
