NIS GAZETTEER

Sweden

This revised NIS Gazetteer on Sweden is issued under the NIS maintenance program. It supersedes the NIS Preliminary Gazetteer on Sweden, dated June 1950, copies of which should be destroyed.

FOR OFFICIAL USE ONLY

RECORD COPY

APPROVED FOR RELEASE: 2007/02/09: CIA-RDP01-00707R000100130006-8

CENTRAL INTELLIGENCE AGENCY

Washington, D.C.

August 1963

This Gazetteer is issued as a standard component of the National Intelligence Survey for Sweden and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. This Gazetteer also lists the variants of official standard names for reference purposes. These variants are not approved as standard names.

This Gazetteer will be adequately maintained by published revision.

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

APPROVED FOR RELEASE: 2007/02/09: CIA-RDP01-00707R000100130006-8

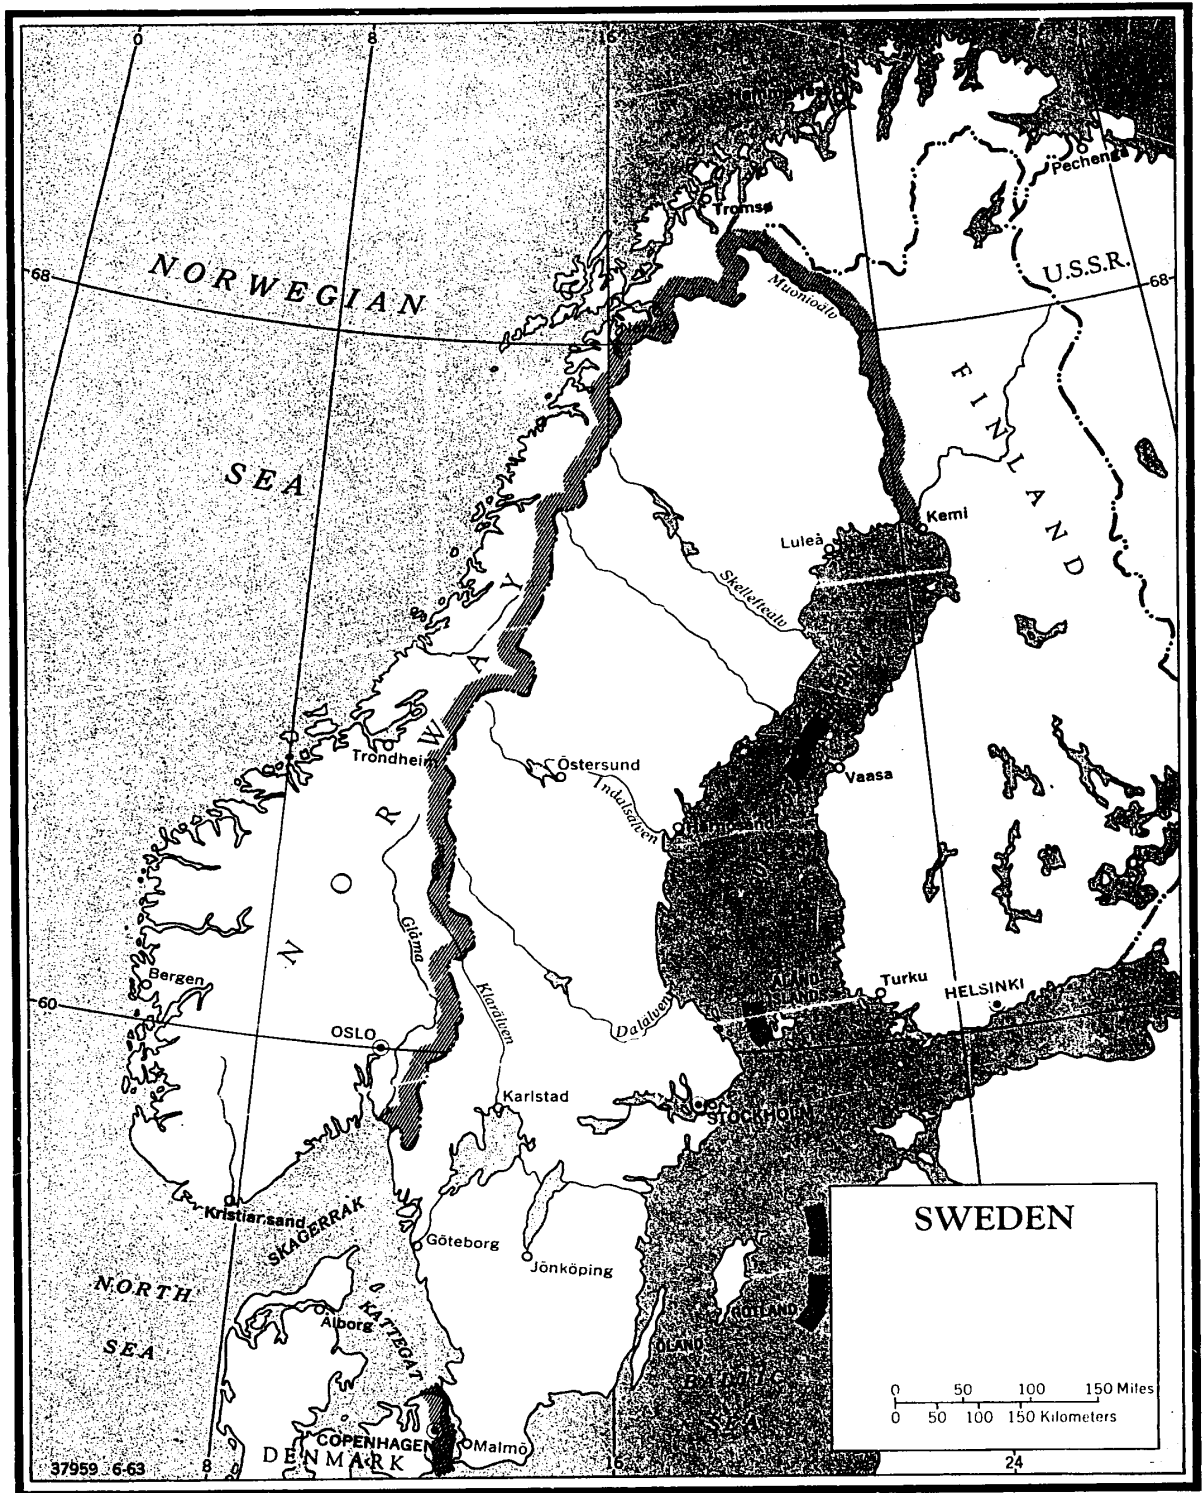

NIS GAZETTEER

Sweden

Official Standard Names Approved by the
U.S. Board on Geographic Names

Prepared in the Office of Geography, Department of the Interior
Coordinated by the Central Intelligence Agency
Washington, D.C. August 1963

APPROVED FOR RELEASE: 2007/02/09: CIA-RDP01-00707R000100130006-8

FOREWORD

This gazetteer contains about 74,200 entries for places and features in Sweden. The entries include standard names approved by the Board on Geographic Names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The names in this gazetteer supersede those in all previous Board lists for the area.

The name coverage corresponds approximately to that on maps at the scale of 1:100,000 in areas south of 61° 30' N., and 1:200,000 in areas north of 61° 30' N.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see." Where part of a name is underlined, the use of the part not underlined is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names that include specific and other elements (except names of populated places) are alphabetized by specific part; thus Gulf of Bothnia is listed as Bothnia, Gulf of.

The diacritical marks used in approved names of Sweden are the umlaut (¨) as in *älv* and *ström*, and the bolle (°) as in *dser*; these marks are to be used on both capital and lowercase letters.

In writing Swedish names in capital and lowercase letters, the initial letter of each word except conjunctions should be capitalized.

Designation.—The second column contains designations or abbreviations of designations, as listed below. Since practically all geographic terms have varied meanings, the senses in which the designator terms are used and the range of features to which they are applied in this gazetteer are stated in the list to reduce ambiguity. The distinctions that can be made in a given gazetteer will vary with the quality of the maps of the area and with the nature of the entities that are named.

- ADMD administrative division (first-order, *län*; second-order, *domsaga*; third-order, *landkommun*, *stadkommun*. The names of third-order divisions ordinarily do not contain generic terms.)
- APLG archipelago
- BAY bay
- BNKM marine bank (offshore area of relatively shallow water, but of sufficient depth for safe navigation)
- BOG bog(s) (wetland containing organic sediments; peatland)
- CAPE cape (seaward end of a projection of land of such position and size as to cause offshore coastwise shipping to change course)
- CAVE sea cave (cavity eroded in a cliff by waves, at or near water level)
- CH church
- CHNL lake channel(s) (channel through a lake, or connecting parts of a lake, or other body of fresh water)
- CHNM marine channel (channel between coastal islands, reefs, or shoals or between an offshore feature and the mainland)
- CLF cliff (high, steep rock face)
- CMP Lapp camp (place where Lappish reindeer herders camp at intervals)

CMPL	logging camp	LDNG	landing
CNLN	navigation canal	LK	lake
CNLQ	abandoned canal	LKS	lakes
COVE	cove	LKX	section of lake (separately named part of a larger lake)
CSTL	castle (generally now used for public or quasi-public purposes)	MN	mine
DCKB	docking basin (part of a harbor where ships dock)	MNS	mines
DPRM	submarine depression	MT	mountain (landform of conspicuous relief and small summit area)
DUNE	dune (hill or ridge of sand formed by the action of wind)	MTS	mountains, mountain range
DWL	rural dwelling(s)	NRWS	narrows (constricted part of a waterbody or connection between two waterbodies; smaller than a strait)
EST	estate (entailed landholding)	PASS	gap (low place in the relatively even crestline of a ridge or other elongated relief feature)
FJD	fjord (deep, narrow, steep-sided, drowned part of a valley; formed by glacial erosion and submergence)	PCLI	independent political entity (kingdom)
FLLS	waterfall (may include some rapids not distinguished from waterfalls)	PEN	peninsula
FORD	ford	PK	peak (separately named summit on a larger elevation)
FRM	farm	PKS	peaks
FRMS	farms	PLN	plain
FRST	woods	PPL	populated place (city, town, village, settlement)
FT	fort (historical fortification)	PPLX	section of populated place
GLCR	glacier	PRK	national park
GULF	gulf	PT	point (relatively minor projection of land into a waterbody, or its extremity)
HBR	harbor (body of water providing shelter for ships)	QUAY	quay (stretch of artificially improved shoreline of a navigable waterbody where vessels are loaded and unloaded)
HDLD	headland (conspicuously high piece of land jutting out into or fronting the sea)	RDGE	ridge
HLL	hill (landform of moderate relief and small summit area)	RDST	roadstead (place, less protected than a harbor, where ships may ride at anchor)
HLLS	hills	RF	reef (offshore hazard to navigation, usually characterized by submerged rocks)
HTH	heath (area with heather or other low, scrubby vegetation)	RGN	region (area recognized as an entity by reason of the unity of its history, people, landscape, or other condition)
INLT	inlet (small elongated indentation in a coast)	RKSW	rocks in water
ISL	island	RKW	rock in water
ISLP	land-tied island (joined to mainland by natural processes of coastal deposition)		
ISLS	islands		
ISLX	section of island		

RPDS	rapids (may include some waterfalls not distinguished from rapids)	22700 Sweden (general)	22713 Göteborgs och Bohus Län
RSRT	resort	22701 Norrbottens Län	22714 Älvsborgs Län
RSTN	railroad station	22702 Västerbottens Län	22715 Skaraborgs Län
RSTP	railroad stop	22703 Jämtlands Län	22716 Östergötlands Län
RUIN	ruin	22704 Västernorrlands Län	22717 Södermanlands Län
SD	sound (broad, open body of marine water more or less circumscribed by islands, rocks, shoals, and the mainland)	22705 Kopparbergs Län	22718 Hallands Län
SEA	sea	22706 Gävleborgs Län	22719 Jönköpings Län
SHOL	shoal(s) (offshore hazard to navigation, generally composed of unconsolidated material)	22707 Värmlands Län	22720 Kalmar Län
SPA	spa (health resort, usually associated with mineral springs)	22708 Örebro Län	22721 Kronobergs Län
STM	stream	22709 Västmanlands Län	22722 Kristianstads Län
STMM	stream mouth	22710 Uppsala Län	22723 Blekinge Län
STMX	section of stream (separately named part of a continuous stream not necessarily delimited by significant confluences)	22711 Stockholms Län	22724 Malmöhus Län
STRT	strait (water passage connecting larger bodies of water; larger than a narrows)	22712 Stockholms Stad	22725 Gotlands Län
SWMP	swamp (wetland, generally with trees)		
UPLD	upland (broad elevated area with low to moderate surface relief)		
VAL	valley		

Latitude and longitude. — Coordinates, in the third and fourth columns, are for findings purposes only. They were generally read to the nearest minute. For precise location, large-scale maps should be used.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouths or lower ends of streams, at the summits of mountains and hills, at the extremities of capes and points, near the centers of areas, and at the midpoints of most other features.

Area number. — The number in the fifth column indicates the first-order administrative unit in which the place or feature is located, as listed below:

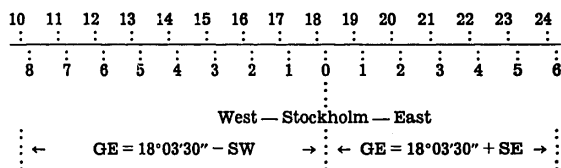

The general number (22700) is used for international features and for features in two or more first-order administrative units.

Locational reference. — The number in the last column indicates a map or chart on which the feature may be located by its standard name or a recognizable variant of its standard name.

- 01 *Generalstabens karta över Sverige*, Rikets Allmänna Kartverk, various dates; scale 1:100,000.
- 02 *Generalstabens karta över Norra Sverige*, Rikets Allmänna Kartverk, various dates; scale 1:200,000.
- 03 *Turist Karten*, Generalstabens Litografiska Anstalt, Stockholm, 1951-60; scale 1:300,000.
- 04 *Generalstabens Översiktskarta över Sverige*, Rikets Allmänna Kartverk, Stockholm, various dates; scale 1:400,000.

The code 00 is used for cross-references and for standard names found only on references other than those listed above.

The above sources have longitude based on Stockholm, which is 18°03'30" East of Greenwich. Greenwich longitude can be converted to Stockholm longitude, and vice versa, by use of the following diagram:

Glossary of generic terms

The following terms occur in the standard names listed in the gazetteer. The meanings given include those supported by application to features named in the gazetteer, whether or not these meanings are given in dictionaries. For example, *dal* ordinarily means valley, but the word occurs as a generic term in some stream names and is therefore defined as meaning both valley and stream in the glossary. Likewise, *ds*, meaning hill, is occasionally found in names applied to more than one hill, and *dsar*, meaning hills, is sometimes applied to a single hill. Therefore each of these words is defined as meaning both hill and hills.

Singular and plural forms of the same generic term are listed on separate lines in their normal alphabetical order. Where the glossary lists two or more words on the same line, the form or forms without the definite article are given first, followed by the form or forms containing the definite article. The post-positive definite article is, in the singular: *-n*, *-en*, *-t*, *-et*, and in the plural: *-na*, *-ne*, *-a*, *-n*, and *-en*.

All of the terms listed are Swedish except as otherwise identified by the letters F for Finnish and L for Lappish.

å, ån	stream
åive	L hill, mountain, peak
älv, älven	stream
ape	L bog
ås, åsen	hill, hills
åsar, åsarna	hill, hills
asse	L hill, mountain
ätno	L stream
aure	L lake

back, backe, backen	hill
backar, backarna	hills
bäck, bäcken	stream
bakte	L hill, mountain, peak
bank, banken	marine bank, shoal
berg, berget	hill, hills
berg, bergen	hill, hills
bo	estate, farm, farms
brink, brinken	shoal
bukt, bukten	bay
buona	L hill
dal, dalen	valley, stream
damm, dammen	lake
dike, diket	stream
djup, djupet	marine channel, sound
domsaga	second-order administrative division
durre	L gap
eno	L stream
fäbod, fäboden	rural dwelling
fäbodar, fäbodarna	rural dwellings
fall, fallet	waterfall
fall, fallen	waterfall, rapids
fästning, fästningen	fort
fjäll, fjället	hill, hills, mountain, mountains, ridge
fjällar, fjällen	mountains
fjärd, fjärden	fjord, bay, cove, inlet, lake, marine channel, section of lake, sound, strait
fjärdar, fjärdarna	lake
fjord, fjorden	bay, cove, lake, section of lake, sound
fors, forsen	rapids, waterfall
forsar, forsarna	rapids
gaise	L mountain, peak
gård, gården	estate, farm
gårdar, gårdarna, gårda	farms
gatt, gattet	marine channel, strait
glaciär, glaciären	glacier

göl, gölen	lake	jokk	L	stream
grav, graven	navigation canal, saddle	jokko	L	stream
grotta, grottan	sea cave	jokkots	L	stream
grund, grunden, grundet	island, reef, rock in water, shoal, shoals	kåbbá	L	hill
gruva, gruvan	mine	kåbbats	L	hill
hake, haken	point	kåbbo	L	hill, mountain
hál, hálet	sound	kaise	L	mountain
hála, hálan	cave	kaisse	L	mountain
häll, hällen	hill, islet, peak, rock in water	kaite	L	hill, mountain
hällar, hällarna, hällan	cliff, hill, islet, rock in water	kanal, kanalen		canal, navigation canal, stream
halvö, halvön	peninsula	kanalled, kanalleden		canal
hamn, hamnen	harbor, anchorage, bay, cove, docking basin, quay	kape	L	bog
hamnbassäng,	docking basin	kapell, kapellet		church
hamnbassängen		kärr, kärret		lake
hav, havet	bay, lake	kártje	L	waterfall
havsbad, havsbadet	resort	káta, kátan		rural dwelling
hed, hezen	heath	kiälas	L	hill
hög, högen	hill, peak	kielas	L	heath, hill
högar, högarna	hill, hills, mountain	klack, klacken		hill, island
höjd, höjden	hill, peak, ridge	klint, klinten		cliff, hill
holm, holme, holmen	island	klintar, klinten, klintarna		hills
holmar, holmarna,	islands	klippa, klippan		island, rock in water
holmarne		klippor, klipporna		rocks in water
huvud, huvudet	cape, headland, hill, point	klitt, klitten		hill, hills
jägna	L glacier	klittar, klittarna		hills
jänkkä	F bog	klump, klumpen		hill, mountain
järv	F lake	knall, knallen		hill, shoal
järvet	F lakes	knallar, knallarna		hills
järvi	F lake	knöl, knölen		hill
jaur	L stream	kobb, kobbe, kobben		island
jauratjeh	L lake	kobbar, kobbarna		islands
jaurats	L lake, lakes	kobbo	L	hill
jaure	L lake	konungaríke, konungariket		kingdom
jegge	L bog	koski	F	rapids
jekna	L glacier	kull, kulle, kullen		hill, hills, rock in water, shoal
jökkel, jökeln	glacier	kullar, kullarna, kullarne		hill, hills
joki	F stream	kuoika	L	rapids
jokinen	F stream	lahti	F	bay
		laki	F	hill

lambi	F	lake	pakte	L	cliff, hill, mountain, peak
lampi	F	lake	puoda	L	mountain
iän		first-order administrative di- vision	puolta	L	mountain
lappläger		Lapp camp	puouda	L	hill, mountain
led, leden		marine channel, sound	puouta	L	hill, mountain
ljung, ljungen		heath	puro	F	stream
lund, lunden		woods	ränna, rännan		marine channel
luobal	L	lake	redd, reddén		roadstead, anchorage
luobbal	L	section of stream	rev, revet		reef, marine bank, shoal
luobbat	L	lakes	rev, reven		reef
luokt	L	bay	saari	F	island
luokta	L	bay	sakara	F	mountain
luokte	L	bay	saltsjöbad, saltsjöbadet		resort
luoppal	L	lake	säter, sätern		farm, farms
mäki	F	hill	selkä	F	hill
mo, mon		heath	sjö, sjön		lake, section of lake, bay
mosse, mossen		bog	sjöar, sjöarna		lakes
mossar, mossarna		bogs	skär, skäret		island, hill, rock, rock in wa- ter, rocks in water, shoal
myr, myren		bog, swamp	skär, skären		islands, shoal
myra, myran		bog	skärgård, skärgården		archipelago, islands
myror, myrorna		bogs	skog, skogen		woods
nabb, nabben		island, point	slottsruin, slottsruinen		ruined castle
näs, näset		point, land-tied island, pen- insula	stad, staden		landing
nationalpark		national park	sten, stenen		rock in water, hill, island
niemi	F	hill	strand, strandén		quay
nipa, nipan		hill, mountain	ström, strömmen		stream
njarka	L	hill, peninsula	stuga, stugan		rural dwelling
njonnje	L	spur	sund, sundet		sound, estuary, inlet, lake, lake channel, marine chan- nel, narrows, strait
njuona	L	mountain	sund, sunden		inlet, marine channel
njuonje	L	heath, hill, mountain, peak	suolo	L	island
njurka	L	peninsula	suvanto	F	lake
noppi	F	hill	takko	L	mountain
ö, ön		island, land-tied island, pen- insula, rock in water	tjahke	L	mountain, peak
öar, öarna		islands	tjakk	L	peak
oja	F	stream	tjakken	L	peak

vuopio	F	bay, lake	

Additional name list

The following publication contains names not included in this gazetteer and may be helpful as a finding list, though the additional names in it are not necessarily those that would be approved by the Board as standard names:

Svensk Ortförteckning 1960, Kungl. Generalpoststyrelsen, Kungl. Telestyrelsen and Kungl. Järnvägsstyrelsen, Örebro, 1960. 882 pages.

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors to the Board on Geographic Names, Department of the Interior, Washington 25, D. C. A statement of the source of the correct information will be helpful.

Geographic names or their spellings do not necessarily reflect recognition of the political status of an area by the United States Government.
