NIS GAZETTEER

North Korea

The NIS Gazetteer on North Korea is issued under the NIS maintenance program. It supersedes the material on North Korea, in the Preliminary NIS Gazetteer on Korea, dated June 1950.

FOR OFFICIAL USE ONLY

CENTRAL INTELLIGENCE AGENCY

Washington, D.C.

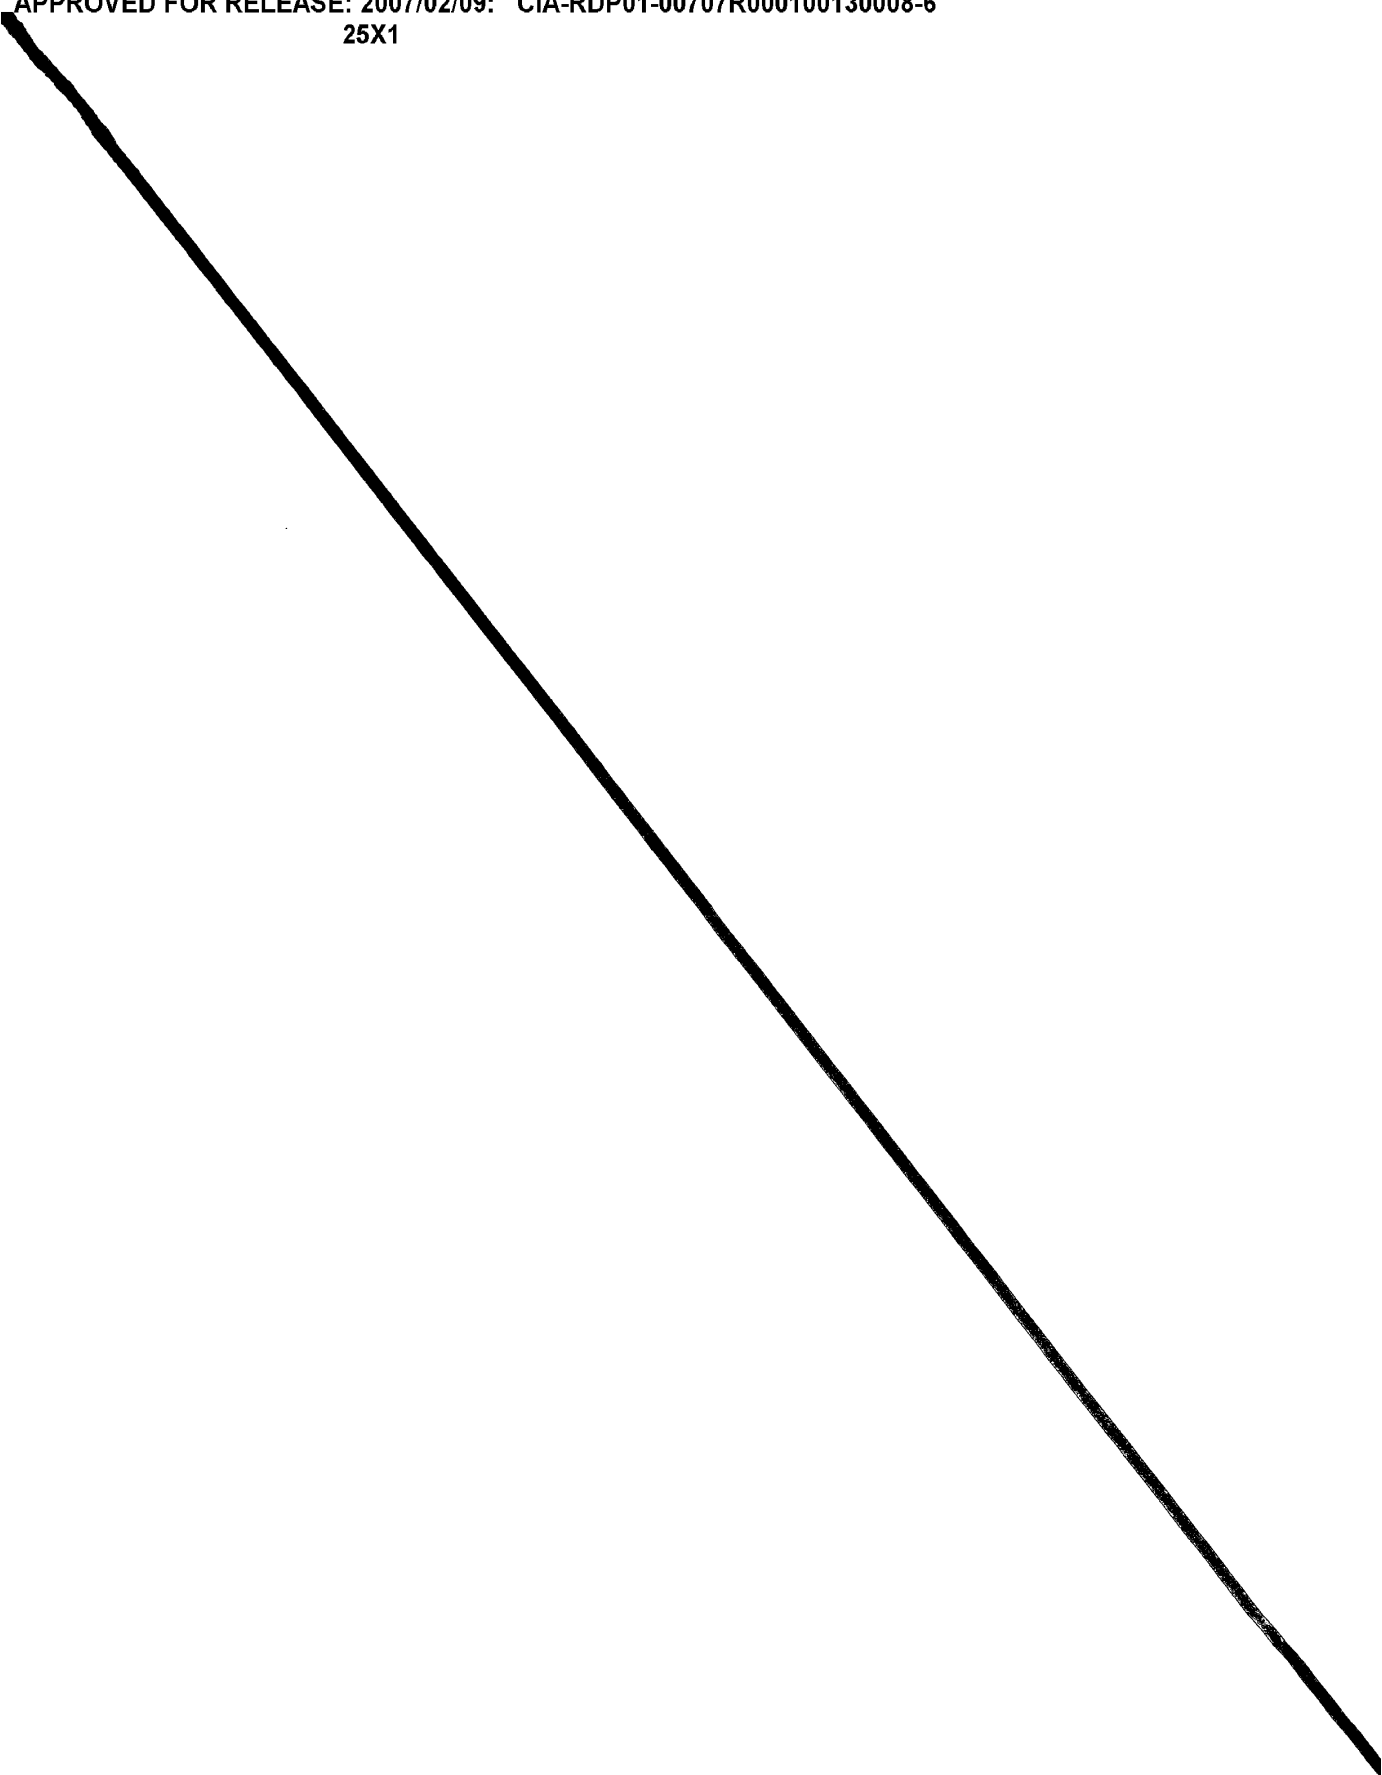

September 1963

This Gazetteer is issued as a standard component of the National Intelligence Survey for North Korea and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. This Gazetteer also lists the variants of official standard names for reference purposes. These variants are not approved as standard names.

This Gazetteer will be adequately maintained by published revision.

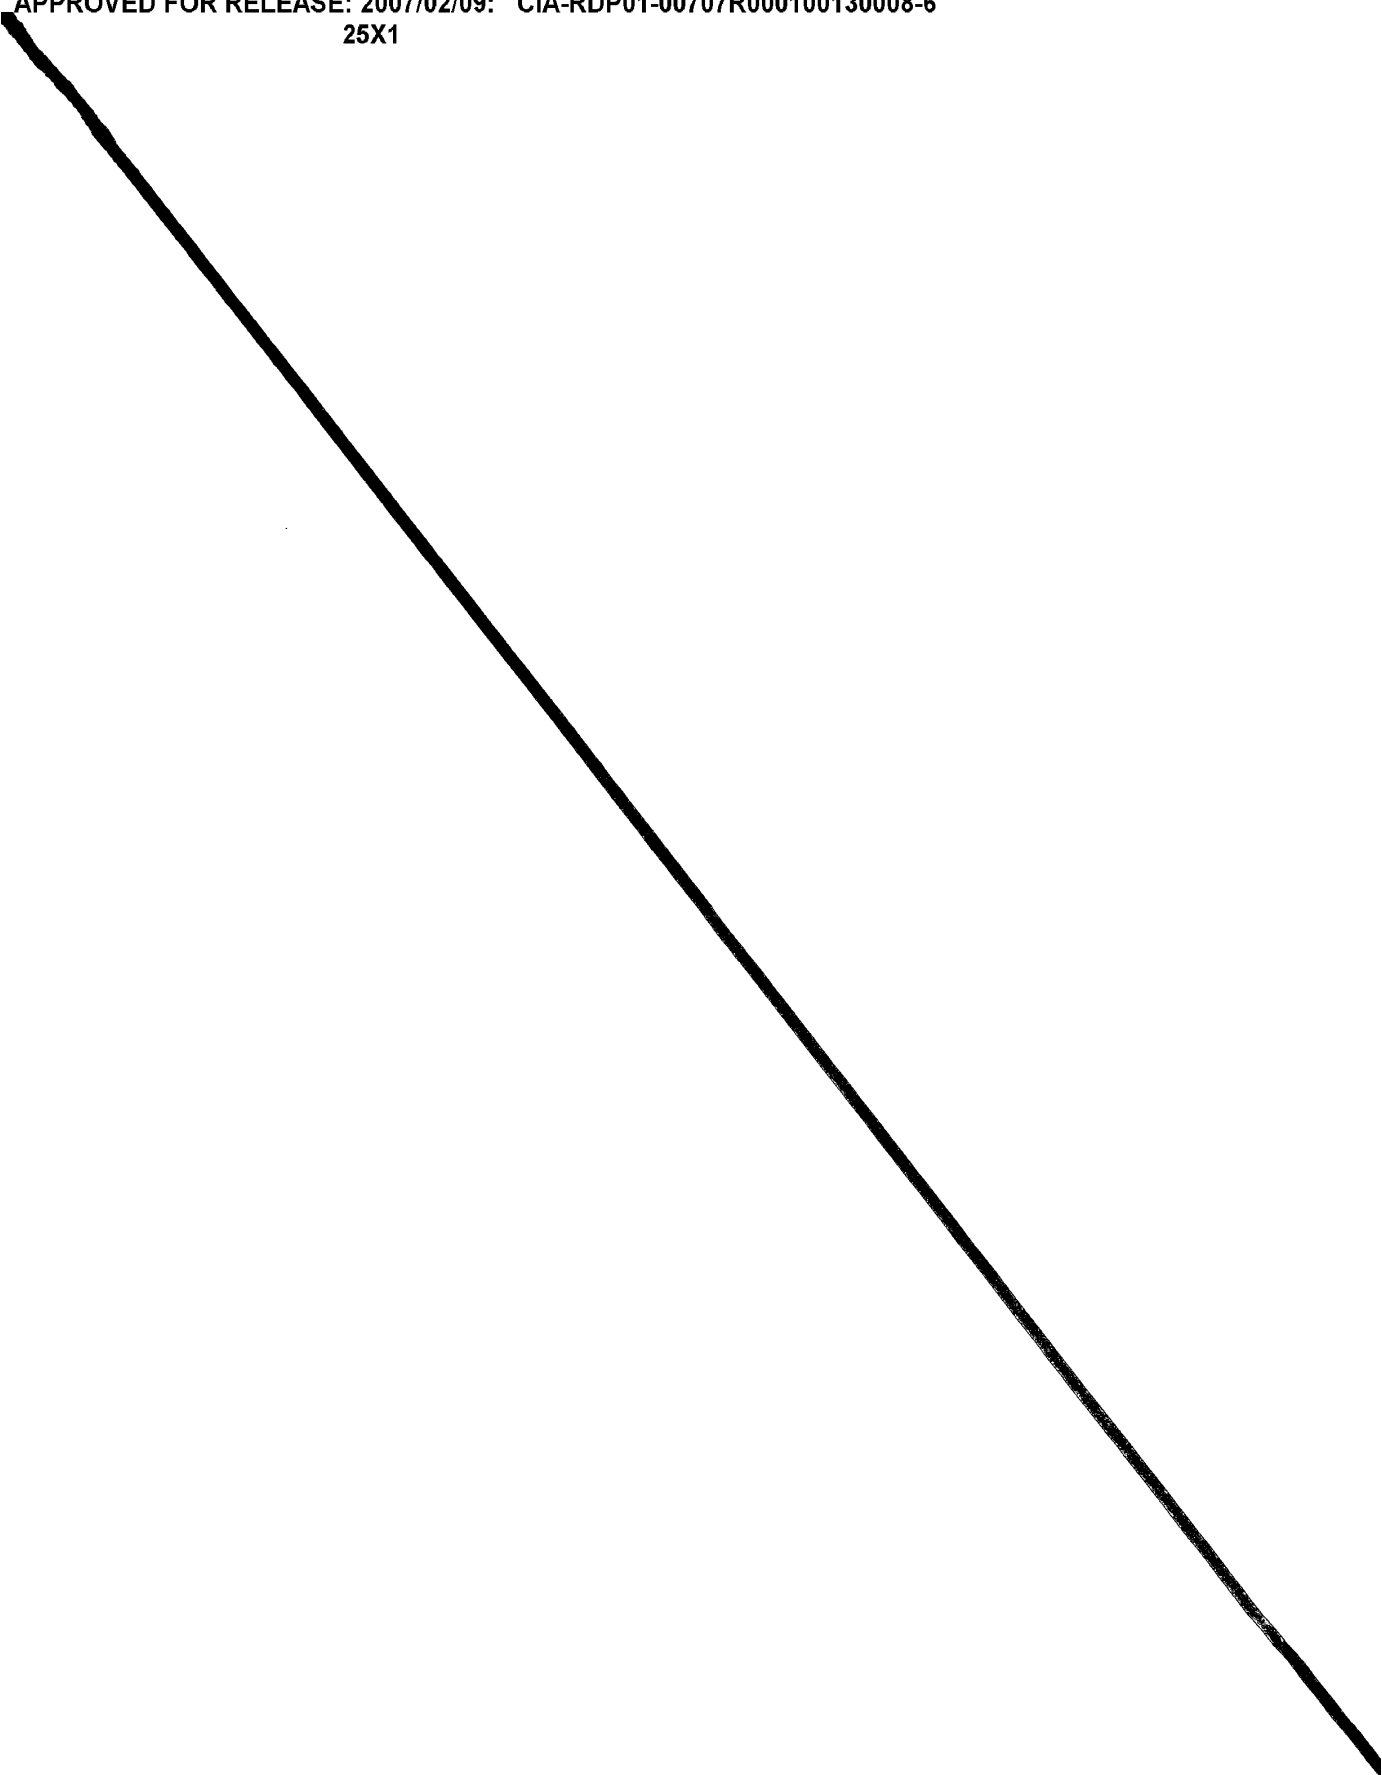

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

NIS GAZETTEER

North Korea

Official Standard Names Approved by the
U.S. Board on Geographic Names

Prepared in the Office of Geography, Department of the Interior
Coordinated by the Central Intelligence Agency
Washington, D.C. September 1963

APPROVED FOR RELEASE: 2007/02/09: CIA-RDP01-00707R000100130008-6

FOREWORD

This gazetteer contains about 27,000 entries for places and features in North Korea. The entries include standard names approved by the Board on Geographic Names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The names in this gazetteer supersede those in all previous Board lists for the area.

The name coverage corresponds approximately to that on maps at the scale of 1:250,000. Entries include the names of first-, second-, and third-order administrative divisions, populated places of all sizes, and a variety of physical features.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name. — Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see." Where part of a name is underlined, the use of the part not underlined is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. All names are listed alphabetically beginning with the specific element, which is the normal word order for Korean nomenclature. The few conventional names beginning with a generic term have been transposed in the listing, thus: Japan, Sea of.

Approved Korean names have been transliterated from the *han'gŭl* using the system officially approved by the Board on Geographic Names, which is the same as the McCune-Reischauer System as set forth in *Romanization*

of the Korean Language by G. M. McCune and E. O. Reischauer (reprinted from the Transactions of the Korea Branch of the Royal Asiatic Society, Seoul, 1939). For a brief statement of the system see the *Transliteration Guide*, Department of State, Washington, August 1961.

Korean names contain the breve (˘) as in *hyŏn*, *kŭn*, and the apostrophe (') as in *ch'i*. In writing Korean names in capital and lowercase letters each separate word should be capitalized. Generic name elements are joined to specific elements by hyphens and are not capitalized; e.g., Changadae-*kkŭt*.

Designation. — The second column contains designations or abbreviations of designations, as listed below. Since practically all geographic terms have varied meanings, the senses in which the designator terms are used and the range of features to which they are applied in *this gazetteer* are stated in the list to reduce ambiguity. The distinctions that can be made in a given gazetteer will vary with the quality of the maps of the area and with the nature of the entities that are named.

ADMD	administrative division (first-order, <i>-si</i> , <i>-do</i> , <i>-pukto</i> , <i>-namdo</i> ; second-order, <i>-si</i> , <i>-gun</i> , <i>-kun</i> , <i>-kuyŏk</i> ; third-order, <i>-kuyŏk</i>)
BAY	bay
CAPE	cape (seaward end of a projection of land of such position and size as to cause offshore coastwise shipping to change course)
COVE	cove
FLTT	tidal flat (coastal area alternately submerged and exposed by tide)
HBR	harbor (body of water providing shelter for ships)
HLL	hill (landform of moderate relief and small summit area)

HLND	highland (extensive maturely dissected area of moderate to high elevation)	RSV	reservoir (large artificially impounded body of water)
INLT	inlet (small narrow indentation in a coast)	SEA	sea
ISL	island	SPNG	hot springs
ISLP	land-tied island (joined to mainland by natural processes of coastal deposition)	STM	stream (includes perennial watercourses of all sizes)
ISLS	islands		
LGN	lagoon (waterbody along a coast, largely or wholly cut off from the sea by a barrier beach or other depositional feature)		
LK	lake		
MT	mountain (landform of conspicuous relief and small summit area)		
MTS	mountains, mountain range		
PASS	pass (way over, through, or between mountains or other high land)		
PCLI	independent political entity (republic)		
PEN	peninsula		
PK	peak (separately named summit on a larger elevation)		
PND	pond (small inland waterbody)		
PNDS	ponds		
PPL	populated place (city, town, village, settlement; includes named places with scattered rural population)		
PPLA	administrative town (seat of a second-order administrative division, <i>-gun</i> or <i>-kun</i>); administrative village (populated place with minor administrative status)		
PPLX	section of populated place (part of a city or town named as an entity but having indefinite or unknown administrative functions and boundaries)		
PT	point (relatively minor projection of land into a waterbody, or its extremity)		
RH	mountain resthouse		
RKL	rock on land		
RKSW	rocks in water		
RKW	rock in water		
RSTN	railroad station		

Latitude and longitude.—The third and fourth columns indicate geographic coordinates, with longitude based on Greenwich. Coordinates were generally read to the nearest minute and are for finding purposes only. For precise location, large-scale maps should be used.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouths or lower ends of streams, at the summits of mountains and hills, at the extremities of capes and points, and near the centers or midpoints of most other features.

Area number.—The number in the fifth column indicates the first-order administrative unit in which the place or feature is located, as listed below:

43300 Korea (general)	43306 Hamgyŏng-pukto
43301 P'yŏngan-pukto	43307 Hamgyŏng-namdo
43302 P'yŏngan-namdo	43308 Hwanghae-namdo
43303 P'yŏngyang-si	43309 Hwanghae-pukto
43304 Chagang-do	43310 Kangwŏn-do
43305 Yanggang-do	43311 Kaesŏng-chigu

The general number (43300) is used for international features and for features in two or more provinces.

Locational reference.—A number other than 00 in the last column indicates a map on which the feature may be located by its standard name or a recognizable variant of its standard name.

01 Korea 1:50,000, AMS L751, Army Map Service, various dates.

02 Korea 1:250,000, AMS L552, Army Map Service, various dates.

03 Chosŏn Chidoch'ŏp (Korean Atlas), Kyoyuk Tosŏ Ch'ulp'ansa (Educational Books Publishing House), P'yŏngyang, 1958. (Names written in *han'gŭl*)

04 Korea 1:250,000, Republic of Korea Army Map Service, various dates. (Names written in Sino-Korean and *han'gŭl*)

05 Korea 1:50,000, Chosŏn Inmin'gun Ch'ong Ch'am-mobu (North Korean Peoples Army, General Staff Headquarters Maps), 1949. (Names written in Sino-Korean and *han'gŭl*)

The code 00 is used for cross-references and for standard names found only on references other than those listed above.

Glossary of generic terms

The following terms occur in the standard names listed in the gazetteer. The meanings given include those supported by application to features named in the gazetteer, whether or not these meanings are given in dictionaries.

am mountain, peak, rock(s)
 ap point
 bau mountain, rock
 bong hill, mountain, peak
 chae pass, peak, hill, mountain
 chi pond, lake
 ch'i pass, mountain, point
 chigu first-order administrative division
 ch'on populated place
 ch'ŏn stream
 chŏsuji reservoir
 ch'wi point
 dae mountain, peak
 dan point
 do first-order administrative division
 do island(s), rock(s)
 dong populated place
 du point, hill
 gae inlet, bay

gak point, cape
 gang stream
 gap point
 gi point
 gok stream
 gol valley, stream
 gol populated place
 got point, cape
 gun second-order administrative division
 gwan pass
 hae bay
 hang harbor
 ho lake
 hwang harbor
 hyŏn pass, hill
 jae pass, peak, hill, mountain
 ji pond, lake
 jin cove
 jŏng hill
 kae inlet, bay
 kang stream
 kkut cape
 kkŭt point
 k'o point
 kogae pass
 kok stream
 kol populated place
 kot point, cape
 kotch'wi point
 kowŏn highland
 kun second-order administrative division
 kŭn rock
 kuyŏk urban administrative division, ward
 li populated place
 lyŏng mountain, hill, peak, pass
 mal populated place
 man bay
 maül populated place
 mi point
 mol populated place
 mŏri cape, point

mot pond
 mul stream
 nae stream
 namdo first-order administrative division
 ni populated place
 nodongjagu populated place
 nŭp lake
 nyŏng mountain, hill, peak, pass
 onch'ŏn hot springs
 pando peninsula
 pau mountain, rock
 pawŭ rock(s)
 p'o inlet, cove, bay, lagoon, lake, stream
 pong hill, mountain, peak
 pukto first-order administrative division
 ri populated place
 ryŏng pass, mountain, hill, peak
 san hill, mountain, peak
 sanjang mountain resthouse
 sanmaek mountain range
 si administrative city, special city
 so pond
 sŏk rock
 sŏm island(s), rock
 su stream
 t'ae hill

tan point
 to island(s), rock, reef
 tong populated place
 t'ŭkpyŏlsi independent administrative city
 ŭp populated place
 yŏm island
 yŏn pond(s), lake
 yŏng mountain, hill, peak, pass

Additional name list

The following publication contains names not included in this gazetteer and may be helpful as a finding list, though the additional names in it are not necessarily those that would be approved by the Board as standard names:

Gazetteer to Maps of Korea, Army Map Service, Washington, 1950. In three volumes; volumes II and III list names of North Korea.

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors to the Board on Geographic Names, Department of the Interior, Washington 25, D.C. A statement of the source of the correct information will be helpful.

Geographic names or their spellings do not necessarily reflect recognition of the political status of an area by the United States Government.
