CENTRAL INTELLIGENCE AGENCY

Washington, D.C.

August 1964

This Gazetteer is issued as a standard component of the National Intelligence Survey for the Republic of the Congo and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. This Gazetteer also lists the variants of official standard names for reference purposes. These variants are not approved as standard names.

This Gazetteer will be adequately maintained by published revision.

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

FOREWORD

This gazetteer contains about 30,400 entries for places and features in the Republic of the Congo (Léopoldville), the former Belgian Congo. The entries include standard names approved by the Board on Geographic Names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The basic name coverage corresponds approximately to that on maps at the scale of 1:1,000,000. Entries include the names of first-order administrative divisions, populated places of all sizes, and a variety of physical features.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name. — Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see." Where part of a name is underlined, the use of the part not underlined is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names containing generic or other elements preceding the specific term (except names of populated places) are transposed and alphabetized by the specific part; thus Crique de Banana is listed as Banana, Crique de.

In the Republic of the Congo roman numerals are used to differentiate two or more nearby villages the names of which are otherwise the same; e.g., Kintumba I, Kintumba II, and Kintumba III.

The diacritical marks used in approved names are the acute (´), the grave (`), and the circumflex (^) accents, the cedilla (¸), and the dieresis (¨), which occur only in name elements of French provenience.

All names elements should begin with a capital letter, except noninitial articles and prepositions in either French (*le, la, les, de, du, des*) or an African language (*a, da, di, dia, ea, ia, kya, na, wa, ya*).

Designation. — The second column contains designations or abbreviations of designations, as listed below. Since practically all geographic terms have varied meanings, the senses in which the designator terms are used and the range of features to which they are applied *in this gazetteer* are stated in the list to reduce ambiguity. The distinctions that can be made in a given gazetteer will vary with the quality of the maps of the area and with the nature of the entities that are named.

ADMD	first-order administrative division (*province*)
BAY	bay
CAVE	caves
CHNS	stream channel (separately named lesser channel around an island, bar, or shoal in a stream)
CMP	camp (maintained in conjunction with a national park)
CONE	volcanic cone (cone-shaped elevation formed by volcanic eruption, usually with a crater or breached crater at the top)
CRKT	tidal creek (watercourse tidal in all or most of its length; usually short, without extensive tributary drainage areas, and located in coastal marsh or other wetland)

APPROVED FOR RELEASE: 2007/02/09: CIA-RDP01-00707R000100130010-3

APPROVED FOR RELEASE: 2007/02/09: CIA-RDP01-00707R000100130010-3

ESTA	plantation (commercialized agricultural landholding with associated buildings and other facilities, operated by a corporation or company)
FLLS	waterfalls
FRST	forest, woods
HLL	hill (landform of moderate relief and small summit area)
ISL	island
ISLS	islands
LK	lake (includes enlarged sections of streams)
LKS	lakes
MN	mine
MNS	mines
MSSN	mission
MT	mountain (landform of conspicuous relief and small summit area)
MTS	mountains
PASS	pass (way over, through, or between mountains or other high land)
PCLI	independent political entity (republic)
PK	peak (separately named summit on a more extensive elevation)
PLAT	plateau (extensive elevated area of flat to rolling surface; may exhibit considerable local relief due to dissection or the presence of hills rising above the general surface level)
PLN	plain (landform of low relief, slope, and elevation)
POOL	pool (enlarged part of a stream)
PPL	populated place (city, town, village, settlement; includes habitations associated with agricultural research stations, industrial plants, mines, and other establishments)
PPLQ	abandoned populated place
PPLX	section of populated place
PRK	national park
PT	point (relatively minor projection of land into a waterbody or its extremity)
RGN	region (area recognized as an entity by reason of the unity of its history, people, landscape, or other condition)
RH	resthouse
RPDS	rapids
RSTN	railroad station (may include some railroad stops)
RSV	reservoir
RVN	ravine (short, steep V-shaped watercourse)
SHOL	shoal (offshore hazard to navigation with a least depth of ten fathoms or less, composed of unconsolidated material)
SPIT	spit (beach material deposited by a coastal current)
SPNG	hot springs
STM	stream (includes perennial watercourses of all sizes)
STMA	anabranch (stream channel that leaves the main stream and rejoins it after a separate course for a considerable distance); section of anabranch
WHRL	whirlpool (turbulent, rotating movement of water in a stream)
WTLD	wetland (marsh or swamp of mixed or unspecified vegetation)

Latitude and longitude. — The third and fourth columns indicate geographic coordinates, with longitude based on Greenwich. Coordinates were generally read to the nearest minute and are for finding purposes only.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouths or lower ends of streams, at the summits of mountains and hills, at the extremities of points, and near the centers or midpoints of other features.

Area number. — The number in the fifth column indicates the first-order administrative unit (*province*) in which the place or feature is located, as listed below:

APPROVED FOR RELEASE: 2007/02/09: CIA-RDP01-00707R000100130010-3

APPROVED FOR RELEASE: 2007/02/09: CIA-RDP01-00707R000100130010-3

55500	Republic of the Congo (general)
55501	Ubangi
55502	Uele
55503	Moyen-Congo
55504	Cuvette-Centrale
55505	Haut-Congo
55506	Kibali-Ituri
55507	Nord-Kivu
55508	Mai-Ndombe
55509	Sankuru
55510	Maniema
55511	Kivu-Central
55512	Kongo-Central
55513	Kwango
55514	Kwilu
55515	Unité-Kasaienne
55516	Luluabourg
55517	Lomami
55518	Sud-Kasai
55519	Lualaba
55520	Nord-Katanga
55521	Katanga-Oriental

The general number (55500) is used for international features and for features in two or more first-order administrative units, including fifteen areas in dispute.

Locational reference. — A number other than 00 in the last column indicates a map on which the feature may be located by its standard name or a recognizable variant of its standard name, as follows:

01 *République du Congo*, Institut Géographique du Congo, 1959–61; scale 1:1,000,000.

02 *Carte Routière Officielle*, Institut Géographique du Congo Belge, 1958–59; scale 1:1,000,000.

03 Maps of territories, Institut Géographique du Congo Belge or Institut Géographique du Congo, various dates; scale 1:200,000.

The code 00 is used for cross-references and for standard names found only on references other than those listed above.

Glossary of generic term

The following terms occur in the standard names listed in the gazetteer. The meanings given include those supported by application to features named in the gazetteer, whether or not these meanings are given in dictionaries. All words are French, except as indicated.

archipel	islands
baie	bay
banc	shoal
cap	point
charbonnages	coal mines
chenal	stream channel, stream
chute(s)	waterfall(s)
colline	hill
crique	tidal creek, anabranch, lake
étang	lake, wetland
forêt	forest, woods
grottes	caves
île(s)	island(s)
lac(s)	lake(s), wetland
lac de retenue	reservoir
mai (African)	stream, springs
marais	marsh, wetland
massif	mountains
mine	mine
mont(s)	mountain(s), hill(s)
parc national	national park
pic	peak
plaine	plain
plantation	plantation
plateau	plateau
pointe	point
presqu'île	spit
province	province (first-order administrative division)
rapides	rapids
ravin	ravine
république	republic
station	railroad station
volcan	volcanic cone

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors to the Board on Geographic Names, Department of the Interior, Washington, D. C. 20240. A statement of the source of the correct information will be helpful.
