## NIS GAZETTEER

# Burundi

This NIS Gazetteer on Burundi is issued under the NIS maintenance program. It supersedes the material on Burundi in the NIS Gazetteer on Belgian Congo, dated February 1955.

---

FOR OFFICIAL USE ONLY

CENTRAL INTELLIGENCE AGENCY

Washington, D.C.

November 1964

This Gazetteer is issued as a standard component of the National Intelligence Survey for Burundi and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. This Gazetteer also lists the variants of official standard names for reference purposes. These variants are not approved as standard names.

This Gazetteer will be adequately maintained by published revision.

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

APPROVED FOR RELEASE: 2007/02/09: CIA-RDP01-00707R000100130013-0

## FOREWORD

This gazetteer contains about 3,000 entries for places and features in the Kingdom of Burundi. The entries include standard names approved by the Board on Geographic Names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The basic name coverage corresponds approximately to that on maps at the scale of 1:500,000 with coverage at larger scale for selected areas. Entries include the names of first-order administrative divisions, populated places of various sizes, minor cultural entities, and a variety of physical features.

### Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

**Name.**—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see." Where part of a name is underlined, the use of the part not underlined is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names containing generic or other elements preceding the specific term (except names of populated places) are transposed and alphabetized by the specific part; thus Marais Cyongo is listed as Cyongo, Marais.

Both French and Kirundi, the indigenous language of the country, are official languages of Burundi. The diacritical marks used in approved names are the acute ('), the grave (`), and the circumflex (^) accents, the cedilla (,), and the dieresis (‘), which occur only in name elements of French provenience. All name elements except noninitial articles and prepositions should begin with a capital letter; eg., *le, la, les, de, du, des* (French), and *ya, y'i* (Kirundi).

**Designation.**—The second column contains designations or abbreviations of designations, as listed below. Since practically all geographic terms have varied meanings, the senses in which the designator terms are used and the range of features to which they are applied in this gazetteer are stated in the list to reduce ambiguity. The distinctions that can be made in a given gazetteer will vary with the quality of the maps of the area and with the nature of the entities that are named.

ADMD	first-order administrative division: <i>province</i> (French); <i>iprovense</i> (Kirundi)
FLLS	waterfalls
ISL	island
LCTY	locality (minor area of unspecified or mixed character; may have some scattered or isolated population)
LK	lake
MSSN	mission
MT	mountain (landform of conspicuous relief and small summit area)
PCLI	independent political entity (kingdom)
PND	pond
PPL	populated place (city, town, village, settlement)
PPLD	dispersed populated place (rural settlement occupying a hill ( <i>colline</i> ), mountain ( <i>mont</i> ), or plateau of the same name, the two being regarded as a single cultural-physical entity; may include some facilities other than dwellings. Occasionally two or more dispersed populated places of the same name occur in close proximity)
PT	point (relatively minor projection of land into a waterbody, or its extremity)
RHQ	former resthouse (former stopping place for Belgian officials, now converted to other uses)
RUIN	ruins

STM ..... stream  
 WTLD .... wetlands (marsh or swamp of mixed or unspecified vegetation)

Latitude and longitude.—The third and fourth columns indicate geographic coordinates, with longitude based on Greenwich. Coordinates were generally read to the nearest minute and are for finding purposes only.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouths or lower ends of streams, at the summits of mountains and hills, at the extremities of points, and near the centers or midpoints of other features.

Area number.—The number in the fifth column indicates the first-order administrative unit (*province, iprovense*) in which the place or feature is located, as listed below:

55900	Burundi (general)		55905	Muramvya
55901	Bujumbura		55906	Gitega
55902	Bubanza		55907	Ruyigi
55903	Ngozi		55908	Bururi
55904	Muyinga			

The general number for Burundi (55900) is used for international features and for features in two or more first-order administrative units.

Locational reference.—A number other than 00 in the last column indicates a map on which the feature may be located by its standard name or a recognizable variant of its standard name, as follows:

- 01 *Carte Routière Officielle or Territoire du Ruanda-Urundi*, Institut Géographique du Congo Belge, 1956-61; scale 1:500,000.
- 02 Maps of Burundi, Institut Géographique du Congo Belge, 1957-59; scale 1:100,000.
- 03 *Burundi*, Institut Murundi d'Information et de Documentation, 1963; scale 1:240,000.

The code 00 is used for cross-references and for standard names found only on references other than those listed above.

#### Glossary of generic terms

The following terms occur as the generic parts of standard names listed in the gazetteer. The meanings given include those supported by application to features named in the gazetteer, whether or not these meanings are given in dictionaries. All words are French except those identified as Kirundi by the letter K.

cap .....	point
chute .....	waterfalls
colline .....	hill (see PPLD in designation code list)
étang .....	pond
île .....	island
ingome .....	K .....
iprovense .....	K .....
lac .....	lake, wetlands
maraïs .....	wetlands
mont .....	mountain (see PPLD in designation code list)
plateau .....	plateau (see PPLD in designation code list)
province .....	first-order administrative division
royaume .....	kingdom
ruines .....	ruins

#### Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors to the Board on Geographic Names, Department of the Interior, Washington, D. C. 20240. A statement of the source of the correct information will be helpful.

**Geographic names or their spellings do not necessarily reflect recognition of the political status of an area by the United States Government.**
