NIS GAZETTEER

Mali

The NIS Gazetteer on Mali is issued under the NIS maintenance program. It supersedes the material on Mali, in the Preliminary NIS Gazetteer on West Africa, dated August 1954.

SECRET

FOR OFFICIAL USE ONLY

CENTRAL INTELLIGENCE AGENCY

Washington, D.C.

January 1966

This Gazetteer is issued as a standard component of the National Intelligence Survey for Mali and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. This Gazetteer also lists the variants of official standard names for reference purposes. These variants are not approved as standard names.

This Gazetteer will be adequately maintained by published revision.

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

FOREWORD

This gazetteer contains about 17,800 entries for places and features in the Republic of Mali. The entries include standard names approved by the Board on Geographic Names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The name coverage corresponds to that of maps at the scale of 1:500,000, with coverage of selected areas at 1:200,000. Entries include the names of first-order administrative divisions, populated places of all sizes, various other cultural entities, and a variety of physical features.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see." Where part of a name is underlined, the use of the part not underlined is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names containing generic or other elements preceding the specific term (except names of populated places) are transposed and alphabetized by the specific part; thus Lac Korarou is listed as Korarou, Lac.

The diacritical marks used in approved names of Mali are the acute (´), grave (`), and circumflex (^) accents, the cedilla (¸), and the dieresis (¨). In addition, the apostrophe (') is used to indicate contraction in French name elements and to represent the consonant 'ayn in Arabic and Berber words. The hyphen is used to connect both French and Berber compound name elements.

In writing names of Mali in capital and lowercase letters, the Arabic articles *ech, ed, el, en, er, es, et, ez*, the Berber particles *i, oua, ta, ti, -n-*, and all French articles, prepositions, and conjunctions are written in lowercase except when in initial position in a name.

Designation.—The second column contains designations or abbreviations of designations, as listed below. Since practically all geographic terms have varied meanings, the senses in which the designator terms are used and the range of features to which they are applied in *this gazetteer* are stated in the list to reduce ambiguity. The distinctions that can be made in a given gazetteer will vary with the quality of the maps of the area and with the nature of the entities that are named. In Mali some of the features do not fit precisely into the categories used to designate them and others could be designated in two or more ways.

ADMD	first-order administrative division (<i>région</i>)
BUTE	butte(s) (small, isolated, usually flat-topped hill with steep sides)
CMP	nomadic campsite
CNLD	drainage canal
DPR	depression (lower area wholly or largely surrounded by higher land; ordinarily has interior drainage and does not conform to the valley of a single stream)
DSRT	desert
DUNE	dune(s) (hill or ridge of sand formed by the action of wind)
ERG	erg (desert area of shifting sand)
FLL	waterfall
FLT	salt flat (place of salt accumulation due to evaporation)
FT	military post
GRGE	gorge (relatively narrow, steep-sided segment of a streamcourse)

HLL	hill (landform of moderate relief, moderate elevation, and small summit area)	PPL	populated place (city, town, village, settlement; may include some seasonal and shifting agricultural settlements and some single habitations not specifically identified)
HLLS	hills	PPLX	section of populated place (named part of Bamako)
HMDA	hamada (upland desert area characterized by exposed bedrock)	PRK	national park
ISL	island	RDGE	ridge(s) (elongated, relatively narrow relief feature with a more or less continuous crest)
LCTY	locality (minor area or place of unspecified or mixed character)	REG	reg (desert area with a surface of loose stones or coarse gravel)
LK	lake (includes lakes in streambeds)	RESF	forest reserve (area under public management and controlled use, generally with sparse tree or bush vegetation)
MESA	mesa (flat or nearly flat landform less extensive than a plateau and separated from lower surrounding land by abrupt slopes)	RESW	wildlife reserve
MN	salt mine	RGN	region (large area recognized as an entity by reason of the unity of its history, people, landscape, or other condition or a combination of conditions)
MRSH	marsh (wetland characterized by grasses or bush vegetation and few or no trees; usually seasonal)	RUIN	ruin
MSSF	massif (elevated, generally mountainous block of the earth's crust)	SCRP	escarpment (more or less continuous line of cliffs or steep slopes facing in one direction, caused by differential erosion or faulting or both)
MT	mountain (landform of conspicuous relief, moderate to high elevation, and small summit area)	SLP	slope (gradient on the side of an elevated relief feature)
MTS	mountains	SPNG	spring
PASS	pass (way over or between dunes or hills)	STM	stream (river or other running fresh waterbody, perennial in all or a part of its course)
PCLI	independent political entity (republic)	STMA	anabranh (stream that leaves the main stream and rejoins it after a separate course for a considerable distance)
PLAT	plateau (extensive elevated area of flat to rolling surface; may exhibit considerable local relief due to dissection or the presence of hills or mountains rising above the general surface level)	STMI	intermittent stream (stream, no part of which is indicated as perennial)
PLN	plain (landform of low relief, slope, and elevation)	TRGD	interdune trough (elongated corridor between parallel dunes)
PND	pond (small standing waterbody)	WAD	wadi (watercourse or drainageway that carries only occasional flows of water)
POOL	pools (more or less permanent bodies of water in the beds of intermittent streams, or enlargements in perennial streams)	WLL	well (dug or drilled source of water)

WTRH waterhole(s) (place, where potable water is obtained by shallow digging)

Latitude and longitude.—The third and fourth columns indicate geographic coordinates, with longitude based on Greenwich. Coordinates were generally read to the nearest minute and are for finding purposes only.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouths or lower ends of streams, at the summits of mountains and hills, and near the centers or midpoints of other features.

Area number.—The number in the fifth column indicates the first-order administrative unit (*région*) of Mali in which the place or feature is located, as listed below:

54100 Mali (general)	54104 Ségou
54101 Kayes	54105 Mopti
54102 Bamako	54106 Gao
54103 Sikasso	

The general number (54100) is used for international features and for features in two or more first-order administrative units.

Locational reference.—A number other than 00 in the last column indicates a map on which the feature may be located by its standard name or a recognizable variant of its standard name, as follows:

- 01 *Afrique Occidentale Française* or *Carte de l'Afrique de l'Ouest* au 1:200,000 or *Carte de l'A.O.F. au 1:200,000*, Service Géographique de l'A.O.F. or Service Géographique à Dakar or Service Géographique de l'A.O.F. à Dakar, various dates.
- 02 *Carte de l'A.O.F. au 500,000*, Service Géographique de l'A.O.F. à Dakar or Service Géographique de l'A.O.F. or Service Géographique à Dakar, various dates.
- 03 *Carte Aéronautique du Monde au 1:1,000,000*, O.A.C.I., Institut Géographique National, various dates.
- 04 *République du Mali*, Institut Géographique National, 1962; scale 1:2,500,000.

The code 00 is used for cross-references and for standard names found only on references other than those listed above.

Glossary of generic terms

The following terms occur as the generic parts of standard names listed in the gazetteer. The meanings given include those supported by application to features named in the gazetteer, whether or not these meanings are given in dictionaries. The words designated Afr, Ar, B, and F are of African, Arabic, Berber, and French provenience, respectively.
