NIS GAZETTEER

South Korea

The NIS Gazetteer on South Korea is issued under the NIS maintenance program. It supersedes the material on South Korea, in the Preliminary NIS Gazetteer on Korea, dated June 1950, copies of which should be destroyed.

FOR OFFICIAL USE ONLY

RECORD COPY

CENTRAL INTELLIGENCE AGENCY

Washington, D.C.

February 1966

This Gazetteer is issued as a standard component of the National Intelligence Survey for South Korea and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. This Gazetteer also lists the variants of official standard names for reference purposes. These variants are not approved as standard names.

This Gazetteer will be adequately maintained by published revision.

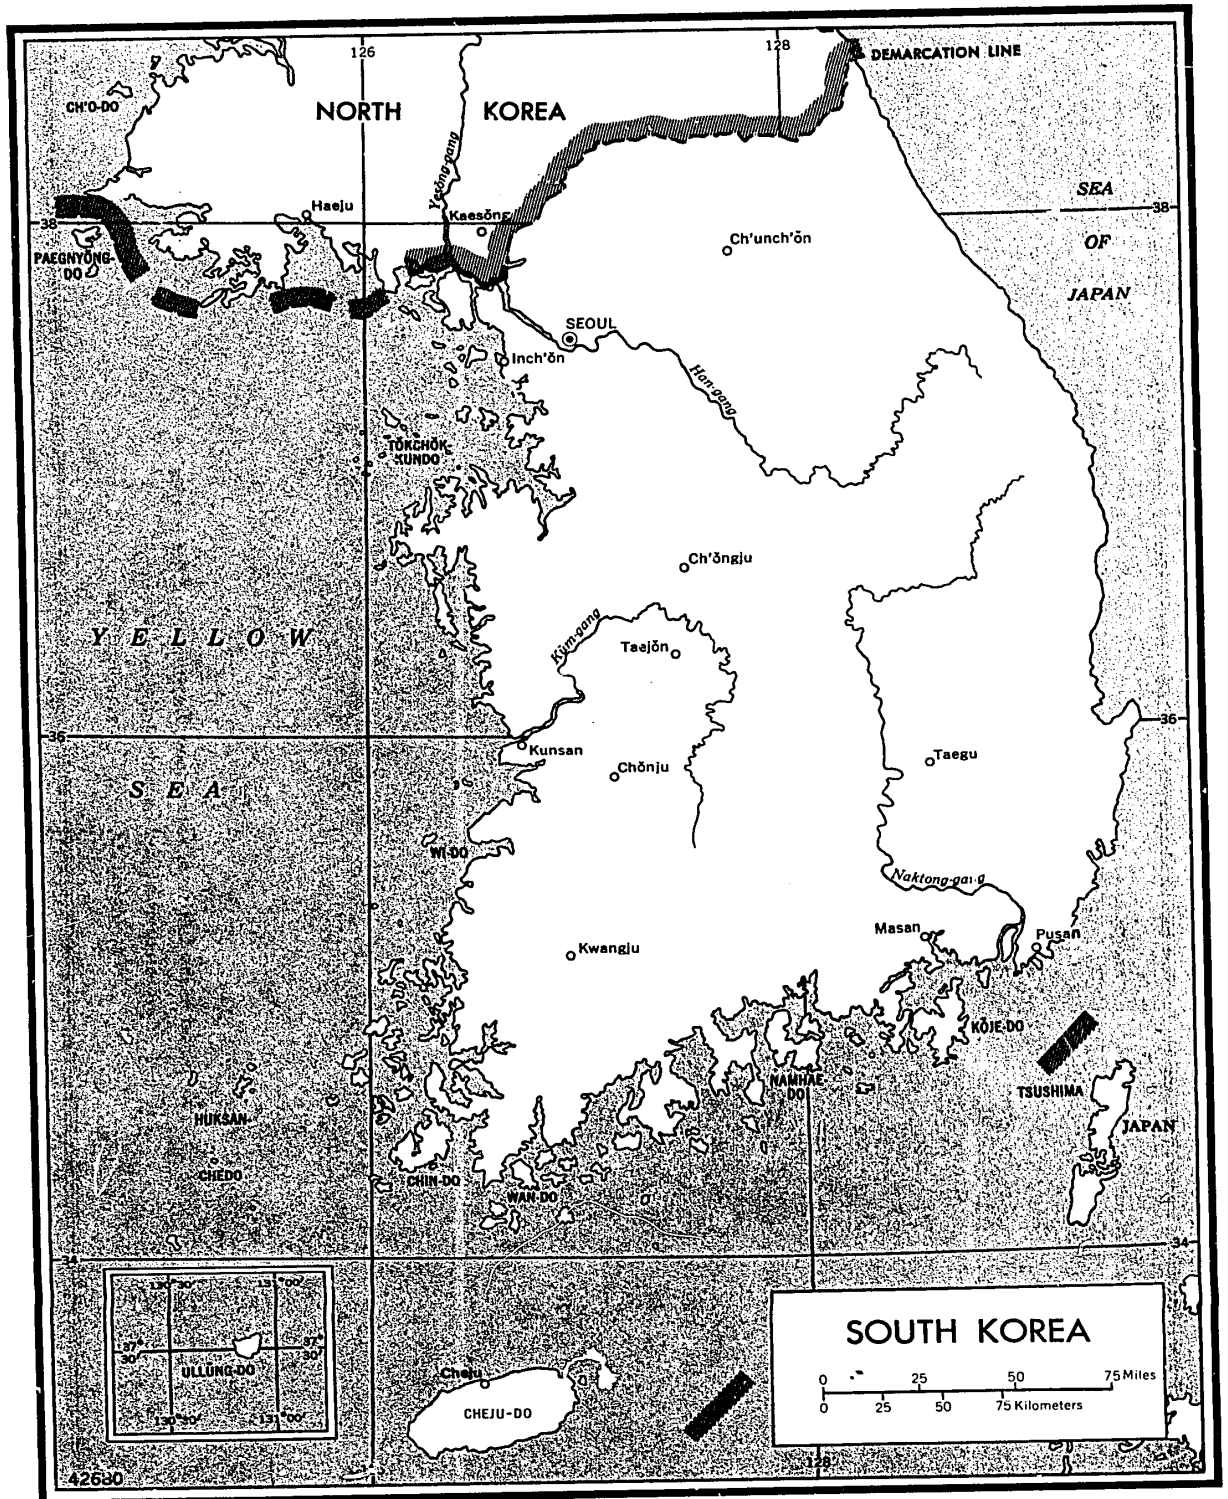

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

NIS GAZETTEER

South Korea

Official Standard Names Approved by the
U.S. Board on Geographic Names

Prepared in the Office of Geography, Department of the Interior
Coordinated by the Central Intelligence Agency
Washington, D.C. February 1966

FOREWORD

This gazetteer contains about 26,500 entries for places and features in South Korea. The entries include standard names approved by the Board on Geographic Names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The name coverage corresponds to that of maps at the scale of 1:250,000. Entries include the names of first-, second-, and third-order administrative divisions, populated places of all sizes, various other cultural entities, and a variety of physical features.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see." Where part of a name is underlined, the use of the part not underlined is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. All names are listed alphabetically beginning with the specific element, which is the normal word order for Korean nomenclature. The few conventional names beginning with a generic term have been transposed in the listing, thus: Japan, Sea of.

Approved Korean names have been transliterated from the *han'gŭl* using the system officially approved by the Board on Geographic Names, which is the same as the McCune-Reischauer System as set forth in *Romanization of the Korean Language* by G. M. McCune and E. O. Reischauer (reprinted from the Transactions of the Korea Branch of the Royal Asiatic Society, Seoul, 1939). For a brief statement of the system see the *Romanization Guide*, Department of State and Department of the Interior, July 1964.

Korean names contain the breve (˘) as in *hyŏn, kŭn*, and the apostrophe (') as in *ch'i*. In writing Korean names in capital and lowercase letters each separate word should be capitalized. Generic name elements are joined to specific elements by hyphens and are not capitalized; e.g., Chinhae-man.

Designation.—The second column contains designations or abbreviations of designations, as listed below. Since practically all geographic terms have varied meanings, the senses in which the designator terms are used and the range of features to which they are applied in *this gazetteer* are stated in the list to reduce ambiguity. The distinctions that can be made in a given gazetteer will vary with the quality of the maps of the area and with the nature of the entities that are named. In Korea some of the features do not fit precisely into the categories used to designate them and others could be designated in two or more ways.

ADMD	administrative division (first-order, <i>-do, -namdo, -pukto, -si, -t'ŭkpyŏlsi</i> ; second-order, <i>-gu, -gun, -ku, -kŭn, -si</i> ; third-order, <i>-myŏn, -ŭp</i>)
ANCH	anchorage (place within a harbor or roadstead where ships anchor)
BAY	bay
CAPE	cape (seaward end of a projection of land of such position and size as to affect the course of ships)
CHNM	marine channel (channel between coastal islands, reefs, or shoals; between an offshore feature and the mainland; or through a shallow marine waterbody)
CNTM	marine current
COVE	cove
ENTR	entrance (opening from the sea into a lagoon, bay, or harbor)

HBR	harbor (body of water providing shelter for ships)		ferred to and from ships, including facilities for berthing ships and handling cargo)
HDL	headland (conspicuously high piece of land jutting out into or fronting the sea)	PT	point (relatively minor projection of land into a waterbody, or its extremity)
HLL	hill (landform of moderate relief, moderate elevation, and small summit area)	RDGE	ridge (elongated, relatively narrow relief feature with a more or less continuous crest)
INLT	inlet (small, narrow indentation in a coast)	RF	reef (offshore, consolidated-rock hazard to navigation with a least depth of ten fathoms or less)
ISL	island	RKL	rock on land
ISLS	islands	RKSW	rocks in water
ISLX	section of island	RKW	rock in water
LCTY	locality (minor area of unspecified boundaries and function within a third-order administrative division; frequently symbolized as populated places on small-scale maps)	RSTN	railroad station
LGN	lagoon (waterbody along a coast, largely or wholly cut off from the sea by a barrier beach or other depositional feature)	RSV	reservoir (large artificially impounded body of water)
LK	lake	SD	sound (broad, open body of marine water more or less circumscribed by islands, rocks, shoals, and the mainland)
MT	mountain (landform of conspicuous relief, moderate to high elevation, and small summit area; includes volcanic cones)	SEA	sea
MTS	mountains	SHOL	shoal(s) (offshore hazard to navigation composed of unconsolidated material and having a least depth of ten fathoms or less)
PASS	pass (way over, through, or between mountains or other high land)	SPIT	spit (projecting tongue of beach material deposited by a coastal current)
PCLI	independent political entity (republic)	STM	stream (river or other running fresh waterbody, perennial in all or a part of its course)
PEN	peninsula	STMX	section of stream (separately named part of a stream, not delimited by significant confluences)
PK	peak (separately named summit on a more extensive elevation)	STRT	strait (relatively narrow water passage connecting large bodies of water)
PLN	plain (landform of low relief, slope, and elevation; usually associated with streams)		
PND	pond		
PPL	populated place (city, town, village, settlement)		
PPLX	section of populated place (part of a city or contiguous urbanized area named as an entity but having no known administrative status)		
PRT	port (place where water-borne cargo is trans-		

Latitude and longitude.—The third and fourth columns indicate geographic coordinates, with longitude based on Greenwich. Coordinates were generally read to the nearest minute and are for finding purposes only.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouths or lower ends of streams, at the summits of mountains and hills, at the extremities of capes and points, and near the centers or midpoints of other features.

Area number.—The number in the fifth column indicates the first-order administrative unit of Korea in which the place or feature is located, as listed below:

43300 Korean (general)	43356 Kyöngsang-pukto
43351 Söul-t'ükpyölsi	43357 Kyöngsang-namdo
43352 Kyönggi-do	43358 Chölla-pukto
43353 Kangwön-do	43359 Chölla-namdo
43354 Ch'ungch'öng-namdo	43360 Cheju-do
43355 Ch'ungch'öng-pukto	43361 Pusan-si

The general number (43300) is used for international features and for features in two or more first-order administrative units.

Locational reference.—A number other than 00 in the last column indicates a map on which the feature may be located by its standard name or a recognizable variant of its standard name, as follows:

- 01 Korea 1:250,000, AMS L552, Army Map Service, Washington, 1954-55.
- 02 Korea 1:50,000, AMS L751, Army Map Service, Washington.
- 03 ROKAMS 1:50,000, Republic of Korea, Army Map Service, Seoul. (Names written in Sino-Korean or *han'gül* or both)
- 04 ROKAMS 1:250,000, Republic of Korea, Army Map Service, Seoul. (Names written in Sino-Korean or *han'gül* or both)

The code 00 is used for cross-references and for standard names found only on references other than those listed above.

Glossary of generic terms

The following terms occur as the generic parts of standard names listed in the gazetteer. The meanings given include those supported by application to features named in the gazetteer, whether or not these meanings are given in dictionaries.

am	rock(s) in water, point
ap	cape
.bi	point

bong	hill, mountain, peak
chae	pass
che	reservoir
chedo	islands
chi	lake
ch'i	pass, hill
ch'o	point
ch'o	rock in water, reef
ch'ön	stream
chösuji	reservoir
ch'wi	point
dae	point
dae	hill, mountain
dam	reservoir
dan	point, cape
do	island(s), rock(s) in water
do	first-order administrative division
do	spit
düng	point
gak	point, cape
gang	inlet, stream, marine channel, harbor, bay
gap	point
g'i	point, peninsula
gi	reef
got	point
gu	second-order administrative division
gu	entrance
gun	second-order administrative division
gut	point, cape
gwön	point
ha	stream
hae	marine channel, gulf, bay, sound
haehyöp	strait
haeman	bay
hang	harbor, inlet
ho	lake, lagoon, pond, reservoir
hyön	pass
jae	pass
je	reservoir
ji	lake

ji pass
 kang inlet, stream, marine channel, harbor, bay
 kküt point
 kogae pass
 kot point
 ku second-order administrative division
 kun second-order administrative division
 kundo islands
 lyöng pass, peak
 mal point, cape, headland
 man bay
 möri point
 mul stream
 myoji anchorage
 myön third-order administrative division
 nae stream
 namdo first-order administrative division
 nyöng pass, peak
 ol peak
 orüm mountain, hill, peak
 pakchi anchorage
 pando peninsula
 pau rock in water
 pawi rock in water
 p'o inlet, harbor, sound, bay, lake, cove
 pong hill, mountain, peak
 pukto first-order administrative division
 p'yöngya plain
 san mountain, hill, peak, ridge
 sanmaek mountains

sa'oe shoal
 si first- or second-order administrative division
 sö island, reef, rock(s) in water
 sök rocks in water
 söm island
 sudo marine channel
 suro marine channel
 tae hill, mountain
 to island(s), rock(s) in water
 t'oe reef, shoal(s)
 t'ükyölsi first-order administrative division
 üp third-order administrative division
 yang sea, sound
 yö island, rock(s) in water
 yök railroad station
 yölto islands

Additional name list

The following publication contains names not included in this gazetteer and may be helpful as a finding list:

Gazetteer to Maps of Korea, Army Map Service, Washington, 1950. In three volumes; volumes I and II list names of South Korea.

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors to the Board on Geographic Names, Department of the Interior, Washington, D.C. 20240. A statement of the source of the correct information will be helpful.

Geographic names or their spellings do not necessarily reflect recognition of the political status of an area by the United States Government.
