## FOREWORD

This gazetteer contains name decisions of the Board on Geographic Names, concurred in by the Secretary of the Interior, for features in Antarctica and the area northward to the Antarctic Convergence. Off-lying islands within this geographic region are the South Shetland Islands, the South Orkney Islands, the South Sandwich Islands, South Georgia, Bouvet Island, the Balleny Islands and Heard Island. This volume supersedes all previous Board gazetteers or lists for the area. It incorporates all decisions up to the end of June 1969.

All of the decisions on Antarctic names have been approved upon the recommendation of the Board's Advisory Committee on Antarctic Names. Members of the Committee are Kenneth J. Bertrand, Professor of Geography of the Catholic University of America (Chairman); Albert P. Crary, Deputy Director of the Division of Environmental Sciences, National Science Foundation; Henry M. Dater, Chief of the History and Research Division, U.S. Naval Support Force, Antarctica; and Herman R. Friis, Director of the Center for Polar Archives, National Archives. Meredith F. Burrill, Executive Secretary of the Board on Geographic Names, is a member ex officio. Fred G. Alberts, a Senior Geographer in the Geographic Names Division, U.S. Army Topographic Command, serves the Committee as geographer and secretary.

Entries in the gazetteer include 10,000 name decisions and 3,100 unapproved variant names, the latter cross-referenced to the decisions. *Users of the gazetteer should always refer to main entries for approved names.*

The gazetteer is the most comprehensive listing of Antarctic names to date. It includes all of the important feature names and nearly all others for which adequate information is available. A considerable effort has been made to arrive at international agreement on these names, with notable success.

The basic name coverage corresponds to that of maps at the scale of 1:250,000 for areas along the coast and exposed groups of mountains, and 1:5,000,000 for the nearly featureless interior

ice plateau. Except for a few whaling stations, all entries are for mountains, peaks, glaciers, peninsulas, capes, bays, islands or other physical features.

### Interpretation of entries

**Name.**—Approved names and unapproved variant names are listed in alphabetical order in the first column. The variant names are cross-referenced to the approved names by use of the word "see." Names containing generic or other elements preceding the specific term are transposed and alphabetized by the specific part; thus Mount Siple is listed as Siple, Mount.

The various diacritical marks used in Antarctic names reflect the multi-national origin of the nomenclature. They include the acute accent (´), the grave accent (`), the dieresis (¨) and the circumflex accent (ˆ), all of which occur over vowels. Others are the cedilla (¸) which is written under the letter c, the bolle (°) written over the letter a, the tilde (˜) written over the letter n, the slash o (ø), and the apostrophe (´) indicating contraction in names of French origin and representing the soft sign (ʹ) in transliterations of Russian names. The æ digraph should be so written whenever possible, or in special situations as ǣ, but never as two separate letters. The diacritical marks and digraph are to be used whether the names are written in capital or lowercase letters.

The first letter of all separate words except noninitial articles, prepositions and conjunctions should be capitalized.

**Designation.**—The second column contains designations. These may coincide with the generic term of the approved name or provide a more definitive description of the feature.

**Latitude and longitude.**—The third and fourth columns indicate geographic coordinates, with the longitude based on Greenwich. Coordinates were generally read to the nearest minute and are for finding purposes only.

Coordinates were read at the summit of mountains and hills, at the extremities of capes and points, at the mouths or lower ends of glaciers and meltwater streams, and near the center or midpoint of other features.

#### Map references

Most of the names found in this gazetteer may be located by the approved name or a recognizable variant on one or more of the maps, charts or series listed below and indexed on the map immediately following this foreword.

List of maps.—Maps and charts have been grouped according to the country in which they were published.

#### United States

1. U.S. Geological Survey, Washington, D.C.
  - A. 1:250,000 *Antarctica Reconnaissance Series*, 1960-69
  - B. 1:500,000 *Antarctica Sketch Map Series*, 1968-69.
2. American Geographical Society, *Antarctica*, scale 1:5,000,000, New York, 1965. Complete coverage in 1 sheet.
3. U.S. Naval Oceanographic Office, Suitland, Maryland. Navy hydrographic charts. Complete coverage of coastal Antarctica; various dates and scales.

#### United Kingdom

4. Directorate of Overseas Surveys, *British Antarctic Territory* (maps from 1954-1963 titled *Falkland Islands Dependencies Survey*), 1:200,000, Surbiton, Surrey, England, 1954-68.
5. Hydrographic Department, Admiralty, London. British hydrographic charts. Complete coverage of coastal Antarctica; various dates and scales.

#### New Zealand

6. Department of Lands and Survey, *Ross Dependency*, 1:250,000, Wellington, 1961-68.

#### Australia

7. Division of National Mapping, Department of National Development, Canberra.
  - A. 1:500,000 *Australian Antarctic Territory*, 1959-64.
  - B. 1:250,000 *Australian Antarctic Territory*, 1962-67.

#### Union of Soviet Socialist Republics

8. Ministerstvo Morskogo Flota SSSR (Ministry of Merchant Fleet of the U.S.S.R.), Moscow.
  - A. 1:3,000,000 *Karta Antarktity*; full coverage of Antarctica in 9 sheets, 1968.
  - B. 1:1,000,000 *Antarktida*, 1959.
  - C. 1:200,000 *Antarktida*, 1962-63.

#### Norway

9. Norsk Polarinstitut, Oslo.
  - A. 1:250,000 *Dronning Maud Land*, 1961-66.
  - B. 1:1,000,000 *Dronning Maud Land*, 1962.
10. H. E. Hansen, *Atlas of Parts of the Antarctic Coastal Lands*, 1:250,000, Oslo, 1946.

#### France

11. Expéditions Polaires Françaises, *Carte de la Terre Adélie au 1:100,000*, Institut Géographique National, Paris, 1954.

#### Argentina

12. Servicio de Hidrografía Naval del Ministerio de Marina, Buenos Aires. Argentine hydrographic charts. Coverage of coastal areas between 25°W. and 74°W.; various dates and scales.

#### Chile

13. Departamento de Navegación e Hidrografía, Valparaiso. Chilean hydrographic charts. Coverage of coastal areas between 53°W. and 90°W.; various dates and scales.

#### Japan

14. Geographical Survey Institute, Japan. 1:250,000 *Lützow-Holm Bay and Prince Olav Coast*, 1963.

Other gazetteers

The following gazetteers are useful as finding lists, provide information on the history of individual names, or include Antarctic name policies. The names in them, however, are not necessarily those approved by the Board.

U.S. Board on Geographic Names, *Gazetteer No. 14, Geographic Names of Antarctica*, Washington, D.C., 1956.

[United Kingdom] Antarctic Place-names Committee, *Gazetteer of the British Antarctic Territory, South Georgia and the South Sandwich Islands*, London, 1962.

Australian National Antarctic Research Expeditions, ANARE Interim Reports, Pub. No. 75, *Gazetteer of the Australian Antarctic Territory*, Melbourne, 1965.

New Zealand Geographic Board, *Provisional Gazetteer of the Ross Dependency*, Wellington, 1958; also First Supplement (1960), Second Supplement (1963), Third Supplement (1963) and Fourth Supplement (1965).

Sovetskaya Antarkticheskaya Ekspeditsiya, 1955-58, *Perechen' Geograficheskikh Nazvaniy Vostochnoy Antarktity* (List of Geographical Names of the Eastern Antarctic), Morskoy Transport, Leningrad, 1959.

Expéditions Polaires Françaises, *Toponymie de la Terre Adélie*, Paris, 1959.

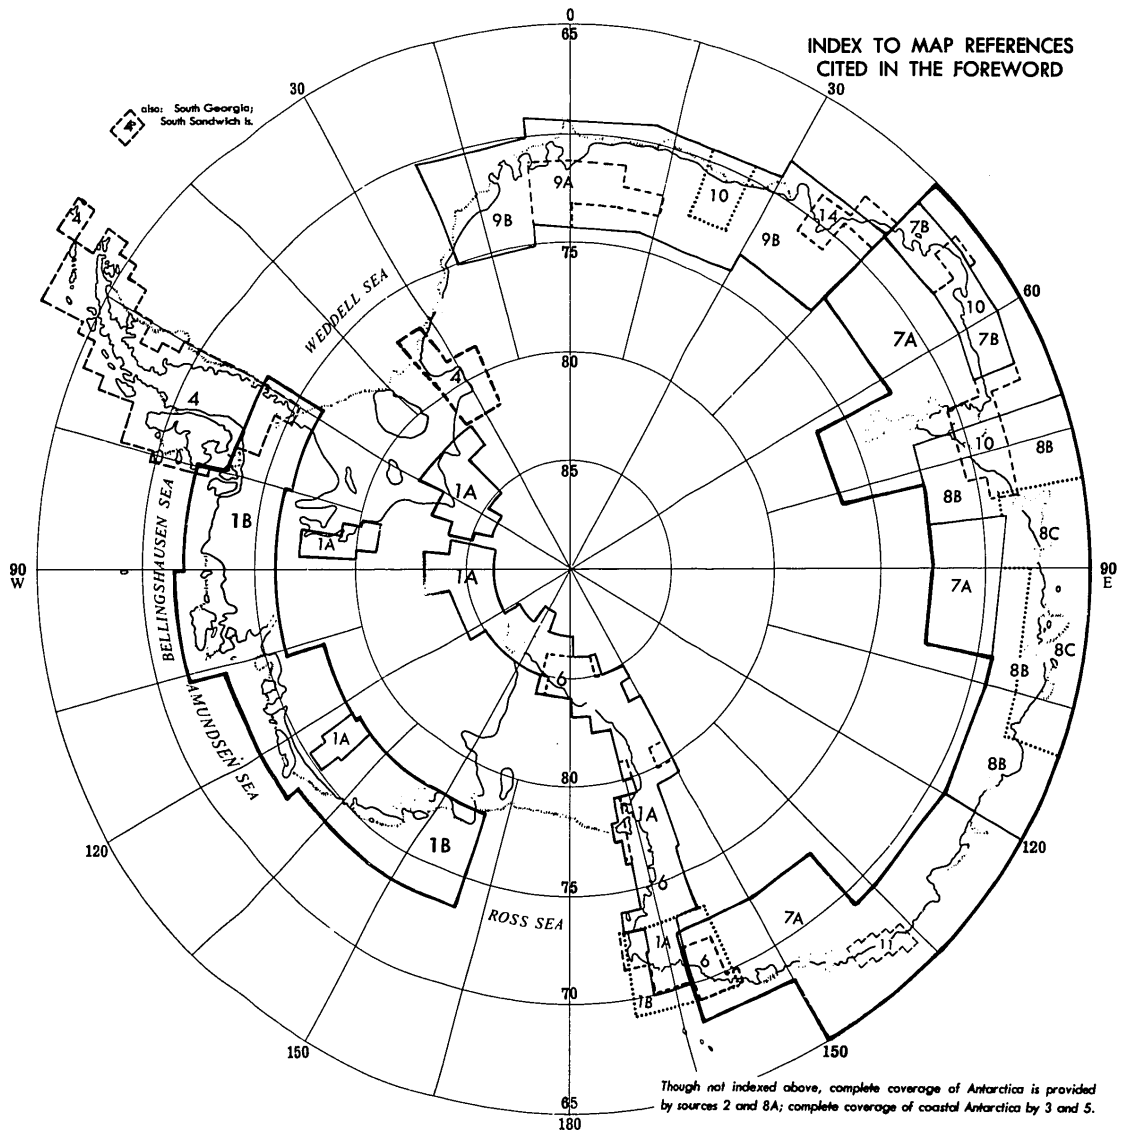

Reporting of errors

It is requested that all who use this gazetteer aid in its correction by reporting errors to the Board on Geographic Names, Department of the Interior, Washington, D.C. 20240. A statement of the source of the correct information will be helpful.

Geographic names or their spellings do not necessarily reflect recognition of the political status of an area by the United States Government.
