## FOREWORD

This gazetteer contains about 33,700 entries for places and features in Bangladesh. Research for this publication was completed in July 1974.

The entries include standard names approved by the Board on Geographic Names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The names in this gazetteer supersede those in all previous Board lists for the area.

The basic name coverage corresponds generally to that of maps at the scale of 1:250,000. Entries include the names of first- and second-order administrative divisions, populated places of all sizes, various other cultural entities, and a variety of physical features.

Most of the entities can be identified and located by the approved name or a recognizable variant of the approved name on one or more of the following sources:

1. *Map of Bangladesh*, Army Educational Stores, New Delhi, India, 1972; scale 1:1,000,000.
2. *Bangladesh Political Divisions*, 1972; scale 1:500,000, Map I.
3. *Bangladesh Population*, 1972; scale 1:500,000, Map II.
4. *India and Pakistan 1:250,000*, Series U502, Army Map Service, 1955-63.
5. British Admiralty Charts, Hydrographic Department, Admiralty, London; various dates and scales.

### Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word “see.” Names containing generic elements preceding the specific term (except names of populated places) are alphabetized by the specific part; thus *Char Agasti*, the name of an island, is listed as *Agasti, Char*. Where part of a name is underlined, the use of the part not underlined is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Local names of international features are identified by major-political-entity labels. Where only one country is identified parenthetically, no name is available for the feature in the other country or countries.

The macron (ˉ) was retained in native names and native parts of names if supported by the evidence, except over word final *a*, *i*, *u*, *gaon*, and *pur*. It is to be used whether the names are written in capital or lowercase letters. The first letter of all separate or hyphenated words except non-initial articles, prepositions, and conjunctions should be capitalized.

Designation.—The second column contains designations or abbreviations of designations of the entities to which the names apply, as listed below. Since practically all geographic terms have varied meanings, the senses in which many of the designations are applied in *this gazetteer* are stated in the list to reduce ambiguity. It should be noted also that the differentiations of terms that can be made in any gazetteer will vary with the quality of the maps of the area and with the nature of the entities that are named. In Bangladesh some of the features do not fit precisely into categories used to designate them and others could be designated in two or more ways.

ADMD first-order administrative division (division);  
second-order administrative division (district)

CHNM	marine channel (channel between coastal islands, reefs, or shoals or between an offshore feature and the mainland)	PPLX	section of populated place (part of a city or contiguous urbanized area named as an entity but having no known administrative status)
CRKT	tidal creek (watercourse tidal in its entire length; usually short, without extensive tributary drainage areas and located in coastal marsh or other wetland)	PRT	port (place where waterborne cargo is transferred to and from ships, including facilities for berthing ships and handling cargo)
DAM	dam (barrier constructed across a stream to impound water)	PT	point (relatively minor projection of land, or its extremity, into a water body)
DLTA	delta (land formed by the deposition of alluvium at the mouth of a stream, commonly in the form of a triangle or Greek letter <i>delta</i> )	RDGE	ridge (elongated, relatively narrow relief feature with a more or less continuous crest)
EST	estate (tea garden; estate operated for commercial production of tea)	RF	reef (offshore consolidated rock hazard to navigation with a least depth of twenty meters [or ten fathoms] or less)
FLTT	tidal flat (coastal area alternately submerged and exposed by tide)	RGN	region (area recognized as an entity by reason of the unity of its history, people, landscape, or other condition)
FRST	forest reserve, jungle	RLG	temple
GASF	gasfield (area containing a subterranean store of natural gas of economic value)	RSTN	railroad station (building used for the transaction of railroad business, located beside a railroad track at a point where trains regularly stop to take on and discharge passengers or freight)
HLL	hill (landform with moderate relief, moderate to low elevation, and small summit area)	RSV	reservoir, tank (small impoundment of water; may be dry at times)
HLLS	hills	SEA	sea
ISL	island	SHOL	shoal (offshore hazard to navigation composed of unconsolidated material and having a least depth of twenty meters [or ten fathoms] or less)
ISLS	islands	SITE	archeological site (place of archeological activity or interest)
LK	lake	STM	stream (river or other running fresh water body, perennial in all or a part of its course)
MT	mountain (landform with conspicuous relief, moderate to high elevation, and small summit area)	STMD	distributary, section of distributary, deltaic watercourse (secondary watercourse carrying part of the drainage of a larger stream into another water body)
MTS	mountains, mountain range	STMM	stream mouths
PCLI	independent political entity (republic)	STMX	section of stream (separately named part of a
PEN	peninsula (area of land projecting into and largely, but not entirely, surrounded by water)		
PK	peak (separately-named summit on a more extensive elevation)		
PLN	plain(s) (landform of low relief, slope, and elevation)		
PPL	populated place (city, town, village, settlement; includes dispersed rural dwellings named as villages)		

WTLD stream, not delimited by significant confluences)  
 wetland (presence of trees or grasses not specified;  
 includes some permanent or intermittent water-  
 bodies surrounded by wetland but not sepa-  
 rately named)

Latitude and longitude.—The third and fourth columns indicate geographic coordinates, with longitude based on Greenwich. Coordinates were read generally to the nearest minute and are for finding purposes only.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouths or lower ends of streams, at the summits or mountains and hills, at the extremities of points, and near the centers or midpoints of other features.

Area number.—The number in the fifth column indicates the first-order administrative unit (*division*) in which the place or feature is located, as listed below:

45200	International features
45250	Bangladesh (general)
45251	Rājshāhi
45252	Dacca
45253	Chittagong
45254	Khulna

The number 45250 is used for features located in more than one division of Bangladesh.

Glossary of generic terms

The following terms occur as the generic parts of standard names in the gazetteer. The English term or terms which correspond to each local term were applied after objective study of cartographic and other source materials, and do not necessarily reflect dictionary or other normalized usages. The abbreviations (B), (Ch), and (Ur) designate Burmese, Chin, and Urdu terms respectively; the remainder are Bengali.

bil . . . . .	lake, wetland
char . . . . .	island, tidal flat
chara . . . . .	stream
daung (B) . . . . .	mountains
gāng . . . . .	stream, distributary, deltaic watercourse
gānga . . . . .	distributary
ghāt . . . . .	railroad station
hāor . . . . .	lake, wetland
khāl . . . . .	stream, distributary, deltaic watercourse, tidal creek
mual (Ch) . . . . .	mountain
mura . . . . .	hill
nadi . . . . .	stream
pahār . . . . .	hills, ridge
taung (B) . . . . .	hill(s), mountain, ridge, peak
tīla . . . . .	hill
tiāng (Ch) . . . . .	mountain, hill, ridge

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by errors and name changes including, if possible, the source of the correct information to:

Executive Secretary  
 U.S. Board on Geographic Names  
 Department of the Interior  
 Washington, D.C. 20240

or

Director  
 Defense Mapping Agency Topographic Center  
 ATTN: Geographic Names Division, Code 50400  
 Washington, D.C. 20315

Geographic names or their spellings do not necessarily reflect recognition of the political status of an area by the United States Government.
