SECOND EDITION

Liberia

OFFICIAL STANDARD NAMES

approved by the

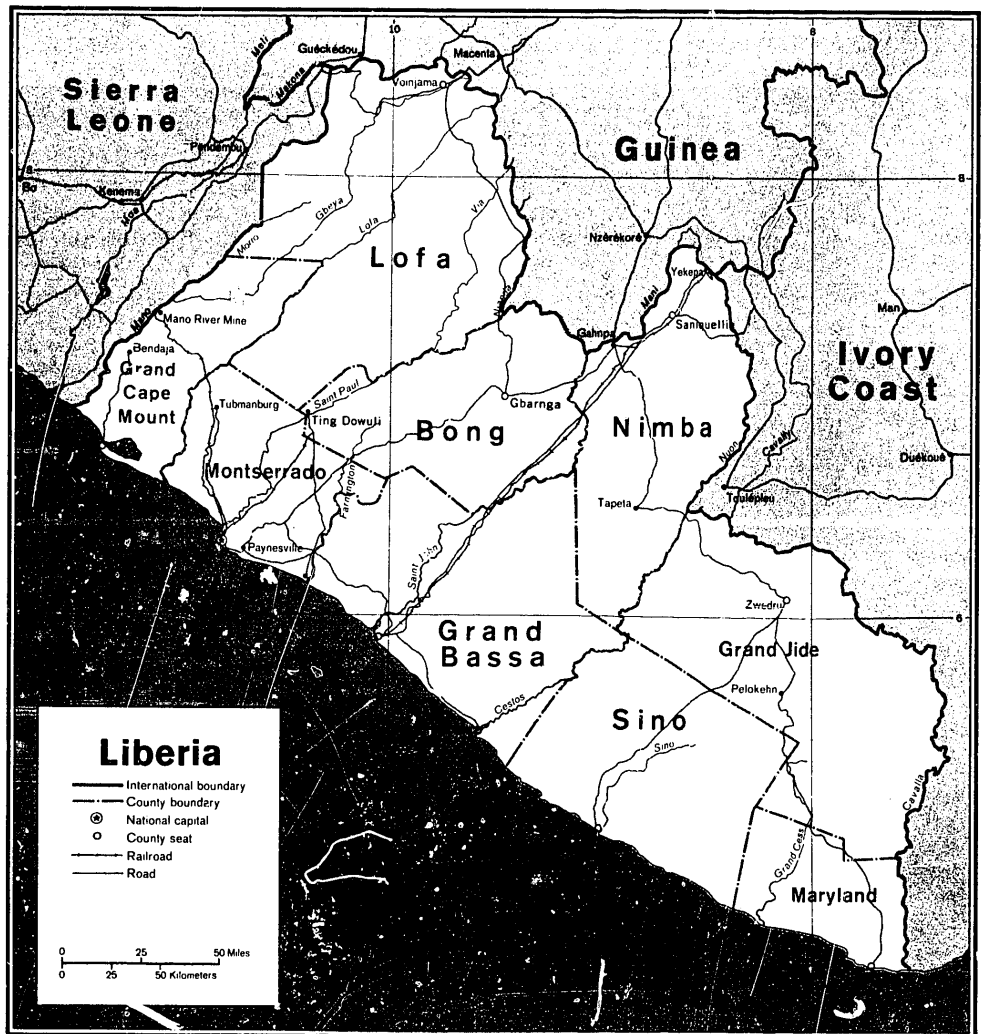

UNITED STATES BOARD ON GEOGRAPHIC NAMES

Prepared by the

Defense Mapping Agency Topographic Center

Washington, D. C. 20315, November 1976

APPROVED FOR RELEASE: 2007/02/09: CIA-RDP01-00707R000100160006-5

FOREWORD

This gazetteer contains about 10,600 entries for places and features in Liberia. The research for this publication was completed in March 1976.

The entries in this gazetteer include standard names approved by the U.S. Board on Geographic Names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The names in this gazetteer supersede those in all previous Board lists for the area concerned.

The basic name coverage corresponds generally to that of maps at the scale of 1:250,000 and, for selected areas, to maps at the scale of 1:50,000. Entries include the names of first-order administrative divisions, populated places, various other cultural entities, and a wide range of topographic and hydrographic features.

Most of the entities can be identified and located by the approved name or a recognizable variant of the approved name on one or more of the following sources:

1. *Republic of Liberia 1:250,000*, United States Geological Survey and Liberian Geological Survey, 1971-72. (Names approved by the Liberian Board of Geographic Names.)
2. *Joint Operations Graphic 1:250,000*, Directorate of Military Survey, Ministry of Defence, U.K. and U.S. Army Map Service/Defense Mapping Agency Topographic Center, 1966-74.
3. *Liberia 1:50,000*, Series G744, Defense Mapping Agency Topographic Center, 1972-73. (Names approved by the Liberian Board of Geographic Names.)

4. United States hydrographic charts, Defense Mapping Agency Hydrographic Center, various scales and dates.

Evaluation

The quality of names in this gazetteer is rated very good. The topographic maps used in its research were prepared and published by agencies of the U.S. Government with the cooperation of the Liberian Geological Survey and Liberian Board of Geographic Names. Based on aerial photography of the 1968-69 period, the maps were of such high quality as to permit definitive interpretation of the nature of features listed herein in almost all cases.

The contribution to this gazetteer by Dr. A.E. Nyema Jones, Minister of Lands and Mines, and the Liberian Board of Geographic Names, of which Dr. Jones is Chairman, is gratefully acknowledged. Their gracious and professional solutions of problems encountered in the research for this publication have significantly improved its accuracy and reliability.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see." Names containing generic elements preceding the specific term (except names of populated places) are alphabetized by the specific part; thus *Gulf of Guinea* is listed as *Guinea, Gulf of*. Where part of a name is underlined, the use of the part not underlined is optional. Where two or more

names are approved for a feature, each is identified in parentheses and any or all may be used. Local names of international features are identified by major-political-entity labels. Where only one country is identified parenthetically, no name is available for the feature in the other country or countries.

When written in both capital and lowercase letters, each name and each separate word within a name should begin with a capital letter, with the exception of non-initial articles, prepositions, and conjunctions.

Although the apostrophe (') appears as a tick mark (') in this gazetteer because of printing limitations, it should be printed as an apostrophe wherever possible.

Designation.—The second column contains designations or abbreviations of designations, as listed below. Since practically all geographic terms have varied meanings, the senses in which the designator terms are used and the range of features to which they are applied in *this gazetteer* are stated in the list to reduce ambiguity. The distinctions that can be made in a given gazetteer will vary with the quality of the maps of the area and with the nature of the entities that are named. In Liberia some of the features do not fit precisely into the categories used to designate them and others could be designated in two or more ways.

ADMD first-order administrative division (county or federal district); secondary administrative division (chiefdom [no generic term in the name])

ANCH anchorage (place within a harbor or roadstead where ships may anchor)

BAY bay (coastal indentation of a size intermediate between a gulf and a cove)

BCH beach (deposit of sand or other unconsolidated material along a shore)

CAPE cape (seaward end of a projection of land of such position and size as to affect the course of ships)

CH church

CHNM marine channel (channel between reefs and shoals)

CMP camp (undifferentiated; or as indicated in the name)

CMPM military camp

CNSF concession area (grant of land by the Liberian Government to a foreign company, for a specific time, to encourage economic development of forestry)

CNSM concession area (grant of land by the Liberian Government to a foreign company, for a specific time, to encourage economic development of mining)

CPL labor camp

CRKT tidal creek (watercourse tidal in all or most of its length; usually short, without extensive tributary drainage areas, and located in coastal marsh or other wetland)

DAM dam (barrier constructed across a stream to impound water)

ESTO oil palm plantation (large, commercialized agricultural land holding with associated dwellings and other facilities, having unified ownership and management but requiring more than a one-family labor force, and specializing in a single tropical or subtropical cash crop)

ESTR rubber plantation (as defined above)

FCL facility (unspecified, or as indicated by the name; e.g., center, institute, foundation)

FLLS waterfalls

FRM farm

FRST forest; national forest (identified as such by the name)

GULF gulf (large, broad water body indenting a coast)

HDLD headland (conspicuously high piece of land jutting out into or fronting the sea)

HLL	hill (landform of moderate relief, moderate elevation, and small summit area)	PT	point (relatively minor projection of land, or its extremity, into a water body)
HLLS	hills	RDGE	ridge (elongated, relatively narrow relief feature with a more or less continuous crest)
HLND	highlands (extensive landform region characterized by a combination of mountains, hills, plateaus, or similar features)	RF	reef(s) (offshore consolidated rock hazard to navigation with a least depth of 20 meters [or 10 fathoms] or less)
HSP	hospital	RGN	region (large area recognized as an entity by reason of the unity of its history, people, landscape, or other condition or a combination of conditions)
HSPC	clinic	RKSW	rocks in water (rocks of such character and importance as to be identified by name, situated either above or below the surface of a body of water; often associated with reefs but separately named)
HSPL	leprosarium	RKW	rock in water
ISL	island	SCH	school (type indicated in name for most entities)
LCTY	locality (minor area or place of unspecified or mixed character and indefinite boundaries)	SCHC	college
LGN	lagoon (water body along a coast, largely or wholly cut off from the sea by a barrier beach or fringe of islands)	SCHM	military school
LK	lake	SCHU	university
LT	lighthouse	STDM	stadium
MFG	factory	STM	stream (river or other running, fresh water body, perennial in all or a part of its course)
MLM	ore treatment plant	STMA	anabranch (lesser stream that leaves the main stream and rejoins it after following a separate course for a considerable distance)
MNFE	iron mine	STMD	tributary (secondary watercourse carrying part of the drainage of a larger stream into another water body; characteristic of deltas)
MNQ	abandoned mine	STMX	section of stream (separately named part of a continuous stream not necessarily delimited by significant confluences)
MSNQ	abandoned mission	TERR	territory (group of chiefdoms)
MSSN	mission	VAL	valley (area between and lower than ridges or other elevations, drained by one or more streams and tributaries)
MT	mountain (landform of conspicuous relief, moderate to high elevation, and small summit area)	WTRW	waterworks
MTS	mountains, mountain range		
OILR	oil refinery		
PCLI	independent political entity (republic)		
PK	peak (separately named summit on a more extensive elevation)		
PPL	populated place (city, town, village, settlement)		
PPLQ	abandoned populated place		
PPLX	section of populated place (part of a city or contiguous urbanized area named as an entity but having no known administrative status)		
PRT	port (place where waterborne cargo is transferred to and from ships, including facilities for berthing ships and handling cargo)		

Latitude and longitude.--The third and fourth columns indicate geographic coordinates, with longitude based on Greenwich. Coordinates were generally read to the nearest minute and are for finding purposes only.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouths or lower ends of streams, at the summits of mountains and hills, at the extremities of points, and near the centers or midpoints of other features.

Area number.--The number in the fifth column indicates the first-order administrative division in which the place or feature is located as listed below:

53500 Liberia (general)
53501 Grand Cape Mount County
53502 Lofa County
53503 Montserrado County (including the Commonwealth District of Monrovia)
53504 Bong County
53505 Grand Bassa County
53506 Nimba County
53507 Sino County

53508 Grand Jide County
53509 Maryland County

The general number (53500) is used for international features and for features in two or more first-order administrative units.

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors and name changes including, if possible, the source of the correct information to:

Executive Secretary
U.S. Board on Geographic Names
Department of the Interior
Washington, D.C. 20240

or

Defense Mapping Agency Topographic Center
ATTN: Geographic Names Division, Code 50400
Washington, D.C. 20315

Geographic names or their spellings do not necessarily reflect recognition of the political status of an area by the United States Government.
