## INTRODUCTION

This gazetteer, which was prepared cooperatively with the Survey of Kenya and Kenya's Standing Committee on Geographical Names, contains about 30,000 entries for places and features in Kenya. It supersedes all previous U.S. Board on Geographic Names (BGN) publications for the country.

The standard names (main entries) are approved by the BGN and by Kenya's Standing Committee on Geographical Names. Also included are unapproved variant names, which are cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The basic name coverage corresponds approximately to that on maps at the scale of 1:50,000 in the southern and southwestern parts of the country and of 1:100,000 in the northern and eastern parts. Entries include the names of first-, second-, third-, and fourth-order administrative divisions, populated places of all sizes, many minor cultural entities, and a variety of physical features.

Most of the entities can be identified and located by the approved name or a recognizable variant of the approved name on one or more of the maps at scales of 1:50,000, 1:100,000, and 1:250,000 produced by the Survey of Kenya in the 1948-75 period.

### Evaluation

The general quality of names in this gazetteer is rated *very good*. The Survey of Kenya has made major contributions to the comprehensiveness of the information included, to its conformity with contemporary local usage, and to the resolution of the very difficult problem of standardizing place names which derive from languages which lack established orthographies.

Much of the comprehensiveness, contemporaneity, accuracy, and consistency of the information in this volume is directly attributable to the effective collaboration between the Survey of Kenya and the Board on Geographic Names throughout the processing period. The research for this publication was completed in June 1977.

### Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to machine tabulation.

Name.—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see." Where part of a name is underlined, the use of the part not underlined is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names that include specific and other elements (except names of populated places) are alphabetized by the specific part; thus *Emuru Etuku* is listed *Etuku, Emuru*.

Language labels are used to identify alternate local names of noninternational features. Local names of international features are identified by country labels. A single name followed by a country label indicates that no name is available for the feature in the adjacent country or countries. The apostrophe and the hyphen occur in the approved names.

Designation.—The second column contains designations or abbreviations of designations, as listed below. Since practically all geographic terms have varied meanings, the senses in which the designator terms are used and the range of features

to which they are applied in *this gazetteer* are stated in the list to reduce ambiguity. The distinctions that can be made in a given gazetteer will vary with the quality of the maps of the area and with the nature of the entities that are named. In all cases involving some question, designations and definitions were supplied or approved by the Survey of Kenya.

ADMD	administrative division (first-order, province and area; second-order, district; third-order, location and section; fourth-order, sub-location and subsection)	CLG	clearing
ADMF	administrative facility (office, house, or camp under the administration of a district commissioner or chief)	CMP	camp, campsite (permanent or semipermanent camping place without identified function; see also ADMF, CMPR)
AGRF	agricultural facility (agricultural office, agricultural research station, experimental farm, demonstration farm, or farm institute)	CMPR	restcamp (camp maintained for the use of government officials on tour)
AREA	area (tract of country identified by a name, but without established boundaries; usually in the sparsely inhabited northern or northeastern parts of Kenya; not to be confused with Nairobi Area, a first-order administrative division)	CMTY	cemetery
BAY	bay	CONE	volcanic cone (cone-shaped elevation formed by volcanic eruption, usually with a crater or breached crater at the top)
BCH	beach	CRKT	tidal creek (watercourse tidal in a major part of its length; usually short, without extensive tributary drainage areas, and located in coastal marsh or other wetland)
BDG	bridge	CRTR	crater (generally circular central depression in a volcanic cone)
BND	stream bend (conspicuously curved or bent portion of a stream; may in some cases include the area enclosed by the bend)	CSWY	causeway (raised roadway across wet ground or shallow water; may include low bridges in part)
CAVE	cave	CTHS	courthouse
CH	church	CTRF	facility center (named place or locality with a combination of two or three types of facilities from among the following: administrative facility (ADMF), agricultural facility (AGRF), church (CH), restcamp (CMPR), courthouse (CTHS), convent (CVNT), hospital (HSP), factory (MFG), market (MKT), mission (MSSN), post office (PO), police post (PP), prison (PRN), recreational facility (RECF), resthouse (RH), school (SCH), storehouse (SHSE), social facility (SOCF), and veterinary facility (VETF). Combinations of four or more such types have been designated as populated places (PPL). When they occur singly they have been designated individually. Facility centers are usually located within extensive areas of dispersed rural population which are not themselves identified by name. Their names may apply to the place or locality or to the facilities, or both).
CHNL	lake channel (channel connecting parts of a lake)		
CHNM	marine channel (channel between coastal islands, reefs, or shoals or between an offshore feature and the mainland)		
CHNS	stream channels (collectively named channels around and between islands in a stream)		
CLF	cliff(s) (high, steep rock face of an escarpment or other rock outcrop)		

CVNT	convent	HSP	hospital (includes medical facilities)
DAM	damsite	HSPL	leper settlement
DAMU	subsurface dam (dam put down to bedrock in a sand river)	HTL	hotel
DARY	dairy, creamery	HUT	hut
DLTA	delta	INN	inn
DPR	depression (lower area wholly or in part surrounded by higher land; ordinarily has interior drainage and does not conform to the valley of a single stream)	ISL	island
DSRT	desert	ISLS	islands
DTCH	ditch (usually used for drainage)	JTY	jetty
ENTR	entrance (opening from the sea into a lagoon or bay)	LBED	lakebed (dried up or drained area of a former lake, marsh or other standing water body)
EST	estate(s), plantation(s), sisal estate(s), sisal plantation, sugar estate, tea estate(s) (these are all commercialized agricultural landholdings with associated buildings, owned by a corporation or company)	LDG	lodge
FLLS	waterfalls	LDU	land unit (area of land set aside or reserved for special settlement or development)
FLT	mudflats	LGN	lagoon (water body along a coast, largely or wholly cut off from the sea by a barrier beach or other depositional feature)
FORD	ford	LGNS	lagoons
FRM	farm	LICK	salt lick(s) (place where the ground is impregnated with saline particles to which animals come for salt; usually natural but may be artificial)
FRMS	farms	LK	lake; tarn (small mountain lake, usually in a cirque)
FRST	forest, forest reserve	LKC	crater lake (lake in the crater of a volcanic cone)
FT	fort	LKI	intermittent lake
FY	ferry (includes boat and terminal facilities)	LKS	tarns
GH	guesthouse	MESA	mesa
GLCR	glacier	MFG	factory (plant, mill, or other establishment where goods are processed or manufactured)
GLD	glade (natural opening in a forest or woods)	MKT	market (uncontrolled area used for trade; contains temporary and semipermanent structures)
GRGE	gorge (relatively narrow, steep-sided part of a streamcourse)	MN	mine(s), copper mine, diatomite mine, gold mine
HBR	harbor (body of water providing shelter for ships)	MNMT	monument
HDLD	headland (conspicuously high piece of land jutting out into or fronting the sea)	MNQR	quarry, quarries
HLL	hill (landform of moderate relief and small summit area)	MNS	mines
HLLS	hills, hill range	MSSN	mission
		MT	mountain (landform of conspicuous relief and small summit area)
		MTS	mountains, mountain range
		MUS	museum (former fort)

NSY	nursery, nurseries (includes tea and coffee tree nurseries)	RDGE	ridge (elongated, relatively narrow and evencrested relief feature)
OBSW	game observation point (place in a national park from which game may be observed in its natural habitat)	RDJC	road junction (place where roads intersect)
PASS	pass (way over, through, or between mountains or other high land)	RDST	roadstead (place, less protected than a harbor, where ships may ride at anchor)
PCLI	independent political entity	RECF	recreational facility (includes athletic fields, stadia, racing circuits, recreational halls)
PK	peak (separately named summit on a larger elevation)	RESW	game reserve
PKGT	park gate (point of entrance into a national park)	RF	reef(s) (offshore consolidated rock hazard to navigation with a least depth of 20 meters [or 10 fathoms] or less)
PKHQ	park headquarters (includes rangers' posts)	RH	resthouse (house maintained for the use of government officials on tour)
PLAT	plateau (extensive elevated area of flat to rolling surface; may exhibit considerable local relief due to dissection or the presence of hills rising above the general surface level)	RJCT	railroad junction
PLN	plain(s) (landform of low relief, slope, and elevation)	RKLL	rock on land (boulder, pinnacle, crag or other rock or rock outcrop situated on land; may include small hills with conspicuous rock exposures; see also (CLF))
PND	pond (small impoundment of water; locally called a "dara")	RKSL	rocks on land
PNDS	ponds	RKSW	rocks in water
PO	post office	RKW	rock in water (may be above or below the water surface)
POOL	pool(s) (small, permanent, natural body of clear, sweet water; includes rock pools)	RNCH	ranch, cattle ranch
PP	police post, police station	ROAD	road (improved and maintained; see also STKR, TRK)
PPL	populated place (city, town, village, trading center, group of huts, named place or locality with four or more governmental, educational, commercial, social, or other kinds of facilities)	RSD	railroad siding
PPLX	section of populated place	RSTN	railroad station
PRK	national park, park	RSTP	railroad stop
PRN	prison (includes prison camps)	RSV	reservoir (large artificially impounded body of water); watertank (concrete or metal structure designed to impound water); rock tank (artificial excavation in bare rock, used to collect rainwater)
PS	power station	RUIN	ruin(s) (former populated place now in a state of ruin)
PT	point (relatively minor projection of land into a water body or its extremity)	SALT	salt works
RDBN	road bend (sharp angle in a road, not at an intersection)	SCH	school (includes specialized schools and colleges)

SCRP	escarpment (steep slope or series of slopes resulting from a vertical displacement of the Earth's surface along a fault line; usually characterized by cliffs; may extend more or less continuously for many miles)	WLL	well (usually hand dug, water raised by hand); borehole (mechanically drilled, water raised by pump)
SDL	saddle (moderately lower place between two summits or other high places on a ridge or mountain)	WLLS	wells, boreholes
SHOL	shoal(s) (offshore hazard to navigation composed of unconsolidated material and having a least depth of 20 meters [or 10 fathoms] or less)	WTRH	waterhole(s) (place where water, often brackish, is obtained by digging in a sandy streambed); waterpan(s) (surface pool of rainwater, natural or artificial; usually seasonal)
SHSE	storehouse (place where commodities are stored; warehouse)	WTRW	waterworks
SITE	archeological site (includes archeological reserves and prehistoric sites)		
SOCF	social facility (includes clubs, community centers, meeting halls, welfare centers)		
SPIT	spit (beach material deposited by a coastal current)		
SPNG	spring(s), hot springs		
SPUR	spur		
STM	stream (includes perennial watercourses of all sizes)		
STMD	distributary		
STMI	intermittent stream (seasonal watercourse; no part indicated as perennial)		
STMX	section of stream		
STNF	forest station		
STNM	meteorological station		
STNQ	abandoned government station		
STKR	stock route (unimproved way over which cattle are driven; not used by the general traveler)		
SWMP	swamp (wetland with or without trees)		
TRK	track (unimproved road, not regularly maintained)		
TRL	trail (footpath or similar route)		
VAL	valley		
VETF	veterinary facility (includes veterinary camps, stations, and offices and tsetse fly control facilities)		
WEIR	weir		

Latitude and longitude.—The third and fourth columns indicate geographic coordinates, with longitude based on Greenwich. Coordinates were generally read to the nearest minute and are for finding purposes only.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouths or lower ends of streams, at the summits of mountains and hills, at the extremities of points, and near the centers or midpoints of other features.

Area number.—The number in the fifth column indicates the first-order administrative unit (province or area) in which the place or feature is located as listed below:

56600	Kenya (general)
56610	Western Region
56620	Nyanza Region
56630	Rift Valley Region
56640	Central Region
56650	Nairobi Area
56660	Eastern Region
56670	North-Eastern Region
56680	Coast Region

The general number (56600) is used for international features and for features in two or more first-order administrative units.

Glossary of generic terms
