FOREWORD

This gazetteer contains about 60,000 entries for places and features in Indonesia and about 600 for Portuguese Timor in two lists. (See Table of Contents at the end of this foreword.) The entries include standard names approved by the Board on Geographic Names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The basic name coverage corresponds to that of maps at the scale of 1:500,000 for Indonesia as a whole, with coverage at 1:250,000 in parts of Java. Entries include the names of first- and second-order administrative divisions, populated places of all sizes, various other cultural entities, and a variety of physical features.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see." Where part of a name is underlined, the use of the part not underlined is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names containing generic elements preceding the specific term (except names of populated places) are alphabetized by the specific part; thus Pulau Baba, the name of an island, is listed as Baba, Pulau.

Diacritical marks in the approved names in this gazetteer occur only in names in Portuguese Timor. They are the acute accent (´) and the tilde (˜) over vowels and the cedilla (¸) written under c. These marks are to be used whether the names are written in capital or lowercase letters.

In names of both Indonesia and Portuguese Timor the first letter of each separate word except noninitial articles, prepositions, and conjunctions should be capitalized. A letter immediately following a hyphen in Indonesian names is always written in lowercase, as in the compound generic terms Danau-danau and Pulau-pulau and in the three hyphenated generic terms -laleng, -one, and -wutun. In names of Portuguese Timor the letter following a hyphen in compound names is capitalized.

To reduce the bulk of the gazetteer, cross-references have been omitted for variant names that differ from standard names only in having "oe" (the Dutch spelling) for "u" (the Indonesian spelling) in the generic term; e.g., Goenoeng for Gunung. Cross-references have also been omitted for variants which differ from approved names only in the absence of a generic term; e.g., Badjo see Badjo, Pulau.

Designation.—The second column contains designations or abbreviations of designations, as listed below. Since practically all geographic terms have varied meanings, the senses in which the designator terms are used and the range of features to which they are applied *in this gazetteer* are stated in the list to reduce ambiguity. The distinctions that can be made in a given gazetteer will vary with the quality of the maps of the area and with the nature of the entities that are named. Some of the features named in this gazetteer do not fit precisely into the categories used to designate them and others could be designated in two or more ways.

ADMD	administrative division (first-order: *daerah chusus ibukota, daerah istimewa, daerah tingkat I;* second-order: *daerah tingkat II, kotapradja;* see glossary for translation of Indonesian generic terms)
BAR	bar (deposit of water-borne materials at or below the water level in a river)
BAY	bay (coastal indentation of a size intermediate between a gulf and a cove)

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200010008-8

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200010008-8

BCH	beach (deposit of sand or other unconsolidated material along a shore)
CAPE	cape (seaward end of a projection of land of such position and size as to affect the course of ships)
CAVE	cave (underground cavity, usually in soluble rock)
CHNM	marine channel (channel between coastal islands, reefs, or shoals; between an offshore feature and the mainland; or through a shallow marine waterbody)
CNL	canal (multipurpose or purpose not specified)
COVE	cove
CRKT	tidal creek (watercourse tidal in all or most of its length; usually short, without extensive tributary drainage areas, and located in coastal marsh or other wetland)
CRTR	crater (generally circular central depression in a volcanic cone)
CST	coast (broad zone paralleling the margin between land and sea and overlapping both)
DCKB	docking basin (part of a harbor where ships dock)
DTCH	drainage ditch
ESTY	estuary (drowned lower part of a stream)
FLL	waterfall
FY	ferry (boat or other floating conveyance and terminal facilities regularly used to transport people and vehicles across a river, strait, bay, or similar waterbody)
GULF	gulf
HBR	harbor (body of water providing shelter for ships)
HLL	hill (landform of moderate relief, moderate elevation, and small summit area)
HLLS	hills
ISL	island
ISLS	islands
ISLX	section of island
LDNG	landing
LGN	lagoon (waterbody along a coast, largely or wholly cut off from the sea by a barrier beach or other depositional feature)
LK	lake (includes crater lakes)
LKS	lakes
MN	mine
MT	mountain (landform of conspicuous relief, moderate to high elevation, and small summit area; includes volcanic cones)
MTS	mountains; mountain range
NRWS	narrows (constricted part of a waterbody or connection between two waterbodies; smaller than a strait)
PASS	pass (way over or between mountains or other high land)
PCLD	dependent political entity (overseas province)
PCLI	independent political entity (republic)
PEN	peninsula (area of land projecting into and largely, but not entirely, surrounded by water)
PK	peak (separately named summit on a more extensive elevation)
PKS	peaks
PLAT	plateau (extensive elevated area of flat to rolling surface; may exhibit considerable local relief due to dissection or the presence of hills or mountains rising above the general surface level)
PLN	plain (landform of low relief, slope, and elevation)
PPL	populated place (city, town, village, settlement)
PPLX	section of populated place (part of a city or contiguous urbanized area named as an entity but having no known administrative status; one of two or more minor settlements having a collective name)
PT	point (relatively minor projection of land into a waterbody, or its extremity)
RDGE	ridge (elongated, relatively narrow relief feature with a more or less continuous crest)

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200010008-8

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200010008-8

RDST	roadstead (area of navigable water, less protected than a harbor, suitable for the passage and anchorage of ships)
RF	reef(s) (offshore consolidated-rock hazard to navigation with a least depth of ten fathoms or less)
RH	resthouse
RKSW	rocks in water
RKW	rock in water
RPDS	rapids
RSTN	railroad station
RSTP	railroad stop
SEA	sea
SHOL	shoal(s) (offshore hazard to navigation composed of unconsolidated material and having a least depth of ten fathoms or less)
STM	stream (both perennial and intermittent)
STMC	canalized stream (stream that has been canalized, ditched, diked, or straightened for any purpose, yet retains in part the characteristics of the original stream)
STMD	distributary (secondary watercourse carrying part of the drainage of a larger stream into another waterbody; characteristic of deltas)
STMM	stream mouth
STRT	strait (relatively narrow water passage connecting large bodies of water)
TMPL	temple (Hindu place of worship)
VAL	valley (area drained by a stream, or a named segment of such an area)
VENT	volcanic vent (orifice other than the central crater of a volcanic cone from which lava or volcanic gases have issued)
VLC	volcano (remnants of the volcano Krakatoa; consists now of an undersea crater and several islands, one of which is the summit of a new volcanic cone)
WTLD	wetland (marsh, swamp, or other poorly drained area with a mixture of tree and grass vegetation or with unspecified vegetation)

Latitude and longitude.—The third and fourth columns indicate geographic coordinates, with longitude based on Greenwich. Coordinates were generally read to the nearest minute and are for finding purposes only.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouths or lower ends of streams, at the summits of mountains and hills, at the extremities of capes and points, and near the centers or midpoints of other features.

Area number.—The number in the fifth column indicates the major area in which the place or feature is located, as listed below:

47100	Indonesia (general)	47150	Moluccas
47110	Sumatra	47160	Lesser Sunda Islands
47120	Java and Madura	47170	West New Guinea
47130	Kalimantan	47900	Portuguese Timor (general)
47140	Celebes		

The above subdivisions of Indonesia include all islands and territorial waters geographically or administratively associated with the named islands or parts of islands. (See frontispiece map.) The general number 47100 is used for international features and for features in two or more subdivisions.

Locational reference.—A number other than 00 in the last column indicates a map, atlas, or other reference on which the feature may be located by its standard name or a recognizable variant of its standard name, as follows:

01 *Atlas of Indonesian Resources,* Direktorat Topografi A.D. (Army Topographical Directorate), Djakarta, 1963; scale 1:5,000,000. Sheet A-4, *Peta Ichtisar/General Map,* and sheet A-5, *Wilajah Daerah/Local Government Areas.*

02 *Atlas van Tropisch Nederland,* Koninklijk Nederlandsch Aardrijkskundig Genootschap (Royal Geographical Society of the Netherlands), 1938.

03 *International Map of the World* or Army Map Service Series 1301, various dates; scale 1:1,000,000.

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200010008-8

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200010008-8

04 Indonesian or Netherlands hydrographic charts, various dates and scales.

05 *Atlas Semesta Dunia,* Djambatan, The Hague, 1952.

06 *Atlas Nasional,* Ganaco, Bandung, 1960.

07 *Peta Djalan untuk Automobilist dan Pelantjong: Sumatera* (Road Map for Motorist and Tourist; Sumatra) Ikatan Motor Indonesia (Indonesian Auto Club) and Direktorat Topografi, A.D., 1956, printed 1960; scale 1:750,000.

08 *Overzichtskaart van het eiland Sumatra,* Topografische Dienst, Batavia, 1934-40; scale 1:750,000.

09 *Overzichtskaart van het eiland Sumatra,* Topografische Dienst, 1924-40; scale 1:250,000.

10 *Peta Djalan untuk Automobilist dan Pelantjong: Djawa-Madura,* Ikatan Motor Indonesia and Direktorat Topografi A.D., 1956, printed 1959; scale 1:500,000.

11 *Peta Ichtisar Djawa-Madura,* Direktorat Topografi A.D., 1952-61; scale 1:250,000.

12 *Djawa dan Madura,* Direktorat Topografi A.D., 1953-61, or *Java,* Topografische Dienst, 1923-41; scale 1:50,000.

13 *Kalimantan,* Direktorat Topografi A.D., about 1950, or *Overzichtskaart van het eiland Borneo,* Topografische Dienst, 1934; scale 1:2,000,000.

14 *Peta Ichtisar Sulawesi,* Djawatan Topografi B.M.A.D. (Army Topographic Office), Djakarta, 1952, printed 1955, or *Overzichtskaart van het eiland Celebes,* Topografische Dienst, 1927; scale 1:1,250,000.

15 *Bali,* Djawatan Topografi B.M.A.D., 1955 or *Bali,* Topografische Dienst, 1935; scale 1:200,000.

16 *Nederlands-Nieuw-Guinea,* Topografische Dienst, The Hague, 1955-58; scale 1:100,000.

17 *Nieuw Guinee,* Topografische Dienst, Batavia, 1936-44; scale 1:250,000.

18 *Atlas de Portugal Ultramarino,* Ministério das Colónias, Lisbon, 1948. Plate 103.

19 *Carta da Província de Timor,* Ministério das Colónias, 1927; scale 1:1,000,000.

20 Hélio A. Esteves Felgas: *Timor Português,* Ministério do Ultramar, Lisbon, 1956.

The code 00 is used for cross-references and for standard names found only on references other than those listed above.

Glossary of generic terms

The following terms occur as the generic parts of standard names listed in the gazetteer. The meanings given include those supported by application to features named in the gazetteer, whether or not these meanings are given in dictionaries. The parenthetical letters D, M, and P designate Dutch words, Malaysian spellings of Malay words, and Portuguese words, respectively. The undesignated items are Indonesian words and phrases and Indonesian spellings of words of the many non-Indonesian languages of Indonesia.

aek	stream
ai	stream
air	stream, distributary
air batang	stream
air terdjun	waterfall
ajer	stream
ajiko	bay
ake	stream, marine channel
alue	stream
alur pelajaran	strait, marine channel
anngi	lake
antasan	marine channel
bah	stream
baía (P)	bay
balang	stream
bapeng	mountain
batang	stream, distributary
batang air	stream
batu	rock in water, mountain, island
berg (D)	mountain
beting	reef, shoal
bob	wetland
bon	mountain
brang	stream
