NATIONAL INTELLIGENCE SURVEY

**PORTUGUESE
GUINEA**

**GAZETTEER of OFFICIAL
STANDARD NAMES**

MAY 1968

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200010009-7

OFFICIAL STANDARD NAMES

for

Portuguese Guinea

approved by the

UNITED STATES BOARD ON GEOGRAPHIC NAMES

This Gazetteer is issued under the NIS maintenance program. It supersedes
the material on Portuguese Guinea in the West Africa Gazetteer dated
August 1954.

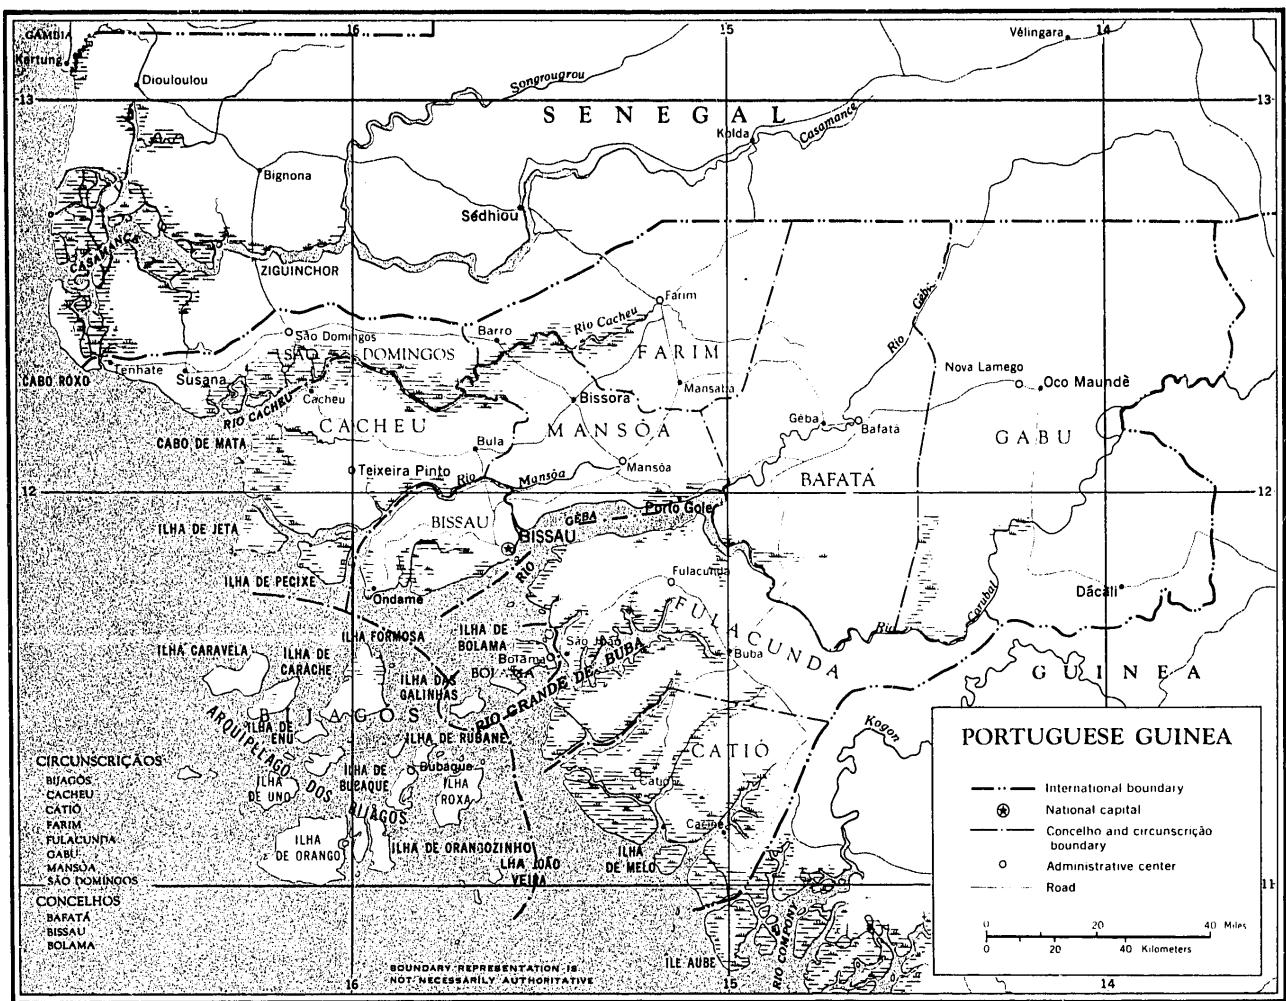

Prepared in the

Office of Geography, Department of the Interior

Coordinated and published by the Central Intelligence Agency

Washington, D.C. 20240 May 1968

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200010009-7

FOREWORD

This gazetteer contains about 8,700 entries for places and features in Portuguese Guinea. The entries consists of standard names approved by the Board on Geographic Names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The density of names coverage corresponds to that of maps at the scale of 1:50,000. Entries include the names of first-order administrative divisions, populated places of all sizes, various other cultural entities, and a variety of physical features.

Most of the places and features named can be identified and located on the following map:

Guiné Portuguesa 1/50,000, Ministério do Ultramar, Junta das Missões Geográficas e de Investigações do Ultramar.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see." Where part of a name is underlined, the use of the part not underlined is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names containing generic elements preceding the specific term (except names of populated places) are alphabetized by the specific part; thus Rio de Abul, the name of a stream, is listed as Abul, Rio de.

The diacritical marks used in approved names are the acute accent ('), circumflex (^), tilde (~), cedilla (ç), and grave accent (`). Standard Portuguese orthographic usage is followed in regard to diacritical marks in Portuguese words; latest official sources are followed for non-Portuguese words. All diacritical marks are used in both uppercase and lowercase print.

Designation.—The second column contains designations or abbreviations of designations, as listed below. Since practically all geographic terms have varied meanings, the senses in which the designator terms are used and the range of features to which they are applied in this gazetteer are stated in the list to reduce ambiguity. The distinctions that can be made in a given gazetteer will vary with the quality of the maps of the area and with the nature of the entities that are named. In Portuguese Guinea some of the features do not fit precisely into the categories used to designate them and others could be designated in two or more ways.

ADM	first-order administrative division (<i>circunscrição, concelho</i>)
AIRF	airfield
BAY	bay
BCH	beach (deposit of sand or other unconsolidated material along a shore)
BDG	bridge
BGHT	bight (open body of water forming a slight recession in a coastline)
CHNM	marine channel (channel between coastal islands, reefs, or shoals; between an offshore feature and the mainland; or through a shallow marine waterbody)
COVE	cove
CRKT	tidal creek (watercourse tidal in all or most of its length; usually short, without extensive tributary drainage areas, and located in coastal marsh or other wetland)
ESTY	estuary (drowned lower part of a stream; may include one or more large tidal creeks)
FORD	ford (place where a stream may be safely crossed without a bridge or boat)
FRM	farm
FRST	woods
HLL	hill (landform of moderate relief, moderate elevation, and small summit area)
HLLS	hills

HMCK	hammock (slightly elevated area in a wetland; characterized by firm, well-drained ground and consequent associations of soil and vegetation)
ISL	island
ISLS	islands
LCTY	locality (minor area or place of unspecified or mixed character)
LDNG	landing (place where small boats are tied up or beached when not in use; place where boats touch land for the purpose of taking on or discharging people or cargo)
LK	lake
LKI	intermittent lake (seasonal waterbody which becomes a lake during periods of rain but which dries up or becomes a marsh or waterhole during the dry season)
MRSH	marsh (wetland characterized by grasses or bush vegetation and few or no trees)
PCLD	dependent political entity (overseas province)
PND	pond
PNDI	intermittent pond
PPL	populated place (city, town, village, settlement)
PPLQ	abandoned populated place
PT	point (relatively minor projection of land into a waterbody, or its extremity)
RF	reef (offshore consolidated-rock hazard to navigation with a least depth of ten fathoms or less)
RGN	region (large area recognized as an entity by reason of the unity of its history, people, landscape, or other condition or a combination of conditions)
RKSW	rocks in water
RKW	rock in water
RPDS	rapids
SHOL	shoal(s) (offshore hazard to navigation composed of unconsolidated material and having a least depth of ten fathoms or less)
SPUR	spur (short sloping ridge extending laterally from a mountain or other elevation)
STM	stream (river or other running fresh waterbody, perennial in all or a part of its course)

STMA	anabranch (stream that leaves the main stream and rejoins it after a separate course for a considerable distance)
STMI	intermittent stream (stream, no part of which is indicated as perennial)
SVN	savanna (grassland with scattered trees; generally a plain)

Latitude and longitude.—The third and fourth columns indicate geographic coordinates, with longitude based on Greenwich. Coordinates were generally read to the nearest minute and are for finding purposes only.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouths or lower ends of streams, at the summits of mountains and hills, at the extremities of points, and near the centers or midpoints of other features.

Area number.—The number in the fifth column indicates the first-order administrative division in which the place or feature is located, as listed below:

53300	Portuguese Guinea (general)	53306	Farim
53301	São Domingos	53307	Bafatá
53302	Cacheu	53308	Gabu
53303	Bissau	53309	Bijagós
53304	Bissorã	53310	Bolama
53305	Mansôa	53311	Fulacunda
		53312	Catió

The general number (53300) is used for international features and for features in two or more first-order administrative divisions.

Glossary of generic terms

The following terms occur in the standard names listed in the gazetteer. The meanings given include those supported by application to features named in the gazetteer, whether or not these meanings are given in dictionaries. Entries labeled F are Fula words; the remainder are Portuguese.

arquipélago	islands
bafa	bay, bight
baixo(s)	shoal(s), reef, rocks in water
banco	shoal
cabo	point
campo de aviação	airfield
canal	tidal creek, marine channel
circunscrição	first-order administrative division
concelho	first-order administrative division
coroa(s)	shoal(s)
dongol .. (F)	hill(s)
esteiro	tidal creek
felo .. (F)	hill(s), spur
ilha(s)	island(s), hammock
ilhéu(s)	island(s), hanumock
lagoa	pond, lake
mael .. (F)	stream
mata	woods
mato	savanna, woods
passagem	tidal creek
pedras	rocks in water

ponta	point
ponte	bridge
portinho	landing, cove
porto	bay, landing
praia	beach
província	dependent political entity (overseas province)
rápidos	rapids
restinga	reef
rio	stream, intermittent stream, anabranch, tidal creek, estuary, marine channel
rocha	hill, spur
vau	ford
vendu .. (F)	intermittent lake, intermittent pond, marsh

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors and name changes to the Board on Geographic Names, Department of the Interior, Washington, D.C. 20240. A statement of the source of the correct information will be helpful.

Geographic names or their spellings do not necessarily reflect
recognition of the political status of an area by the United States
Government.
