OFFICIAL STANDARD NAMES

approved by the

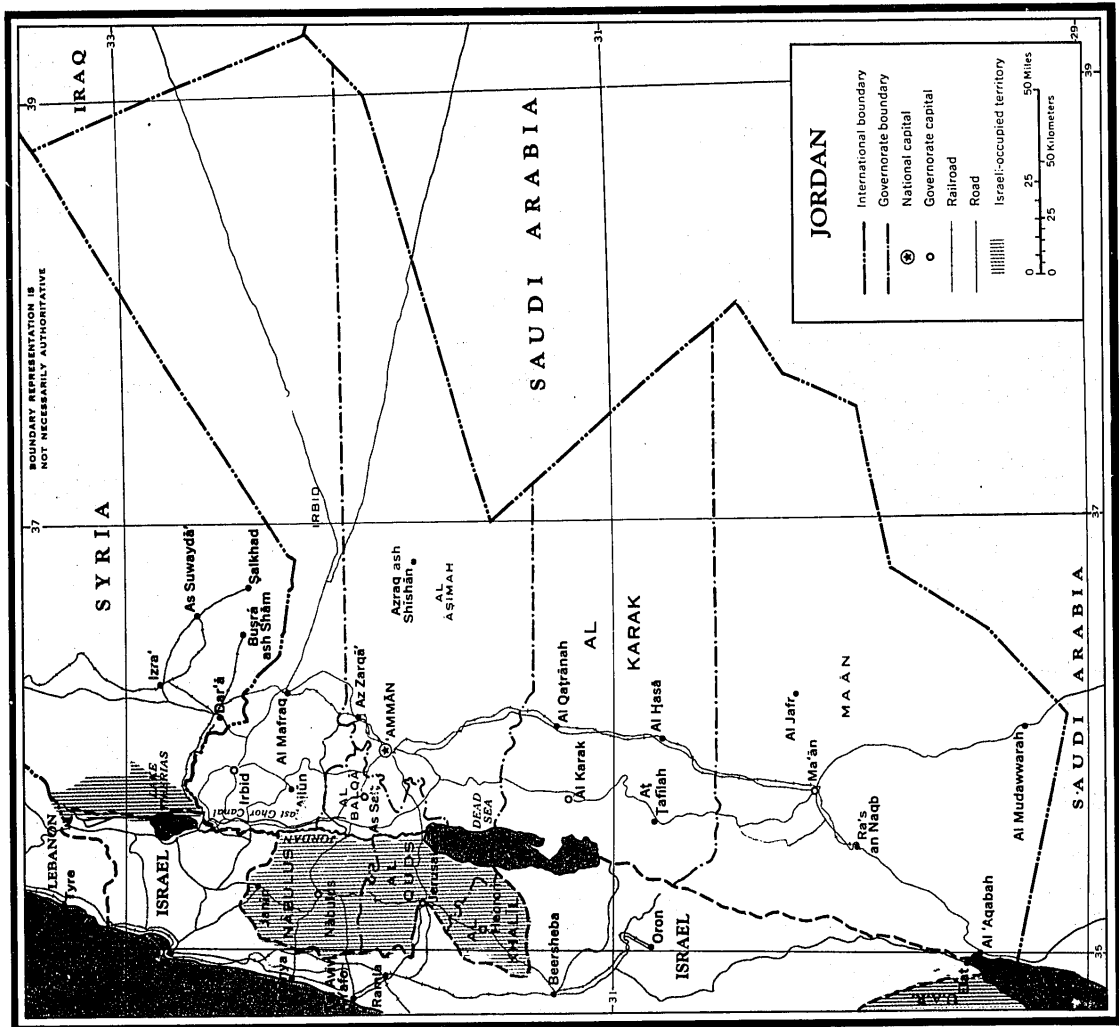

UNITED STATES BOARD ON GEOGRAPHIC NAMES

Prepared in the

Geographic Names Division, U.S. Army Topographic Command

Washington, D.C. 20315, June 1971

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200020001-4

FOREWORD

This gazetteer contains about 22,000 entries for places and features in Jordan and for features in the Laṭrūn No Man's Land and smaller No Man's Lands between Jordan and Israel, including the Area-Between-the-Lines (ABL) in and around Jerusalem. The entries include standard names approved by the Board on Geographic Names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The basic name coverage corresponds to that of maps at the scale of 1:50,000. Entries include the names of all first-, second-, third-, and fourth-order administrative divisions, populated places of all sizes, various other cultural entities, and a variety of physical features.

Most of the entities can be identified and located by the approved name or a recognizable variant of the approved name on *Jordan 1:50,000*, Series K737, Army Map Service/U.S. Army Topographic Command, 1959-69.

Evaluation

The *Jordan 1:50,000*, Series K737 maps, on which the gazetteer is largely based, are sheets that were photogrammetrically compiled from photography dated 1960-63. Maps were field checked and names were collected in the field.

The overall quality of names in this gazetteer is rated as excellent. Source material in Arabic was utilized for the entire country. Name lists in Arabic were provided by the Department of Lands and Surveys, Jordan, for areas bordering the Negev, Jordan River, Dead Sea, and that part of the country east of the 36th meridian. Arabic editions of maps at the scale of 1:100,000 also were used where they offered coverage and were used as corroborative sources for areas not covered by the above-mentioned lists. All approved names were subjected to linguistic analysis and transliteration by the BGN/PCGN Transliteration System for Arabic contained herein.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see". Where part of a name is underlined, the use of the part not underlined is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names containing generic elements preceding the specific term (except names of populated places) are alphabetized by the specific part; thus, Wādī Judayyid, the name of a wadi, is listed as Judayyid, Wādī.

Language labels are used to identify alternate local names of non-international features. Local names of international features are identified by major-political-entity labels. Where only one country is identified parenthetically, no name is available for the feature in the other country. The parenthetical expression (NML) (No Man's Land) is used for names applied to features in areas of undetermined sovereignty. Examples:

Bayt Lahm (Arabic); Bethlehem (conv.)
 Al Ghawr (Jordan)
 Lawzah, Wādī al (Jordan); Naḥal Luz (Israel)
 Maḥmūd, Wādī (Jordan, Syria)
 Qamh, Wādī al (NML, Jordan)

As far as possible, Arabic names in the gazetteer have been romanized from Arabic script according to the transliteration system used jointly by the Board on Geographic Names and the Permanent Committee on Geographical Names for British Official Use (the BGN/PCGN 1956 System), which follows on pages viii through xvii. It is almost always necessary to add missing symbols for short vowels (vowel points) in Arabic script and to rewrite dialectal forms in standard written Arabic.

Names found written only in Roman letters but recognizable as Arabic have been reconstructed into Arabic script and then transliterated.

In a very few cases, where it was not possible to determine complete BGN/PCGN Arabic forms, names have been given in the form found in romanized sources and marked with an asterisk (*) preceding the designation; however, individual Arabic words recognizable in these names have been rendered in the system.

The diacritical marks used in approved Arabic names in Jordan are the macron (¯), the cedilla (,) and the acute accent ('). These marks are to be used whether the names are written in capital or lowercase letters. In addition, the apostrophe (') and the inverted apostrophe ('), representing the letters *hamzah* and *'ayn*, respectively, frequently occur in Arabic names.

In writing Arabic names of Jordan in capital and lowercase letters, every word in a name should be initially capitalized except the following when they are not name-initial: *wa* (and) and the definite article *al*, *aḷ*, *adh*, *al*, *an*, *ar*, *as*, *aṣ*, *ash*, *at*, *aṭ*, *ath*, *az* and *aẓ*.

Hebrew names in this gazetteer have been romanized from Hebrew script in accordance with the procedures contained in the Transliteration Table for Hebrew (BGN/PCGN 1962 System). This system appears on pages xiii through xvii.

Three diacritical marks are used in Israeli names: the sub-macron (¨), which occurs in Hebrew names; and the sub-dot (.) and macron (¯), which occur in Arabic names in Israel. In addition, two orthographic signs are also used: the apostrophe (') and the inverted apostrophe (').

In writing Arabic-language names in Israel in capital and lowercase letters, the following Arabic definite articles should be capitalized only at the beginning of a name: *al*, *aḷ*, *adh*, *al*, *an*, *ar*, *as*, *aṣ*, *ash*, *at*, *aṭ*, *ath*, *az*, and *aẓ*. The Hebrew particles *Ha* and *Le* are capitalized and are prefixed without intervening space to the words they modify, with the first letter immediately following the particle also being capitalized. These particles are identified in this gazetteer by means of an overline so that names in which they occur may be written correctly. This over-

line should always be omitted when names in this gazetteer are used. The entry *HĀYARDEN* for example, should be written *HaYarden*.

Designation.—The second column contains designations or abbreviations of designations, as listed below. Since practically all geographic terms have varied meanings, the senses in which the designator terms are used and the range of features to which they are applied in *this gazetteer* are stated in the list to reduce ambiguity. The distinctions that can be made in a given gazetteer will vary with the quality of the maps of the area and with the nature of the entities that are named. In Jordan some of the features do not fit precisely into the categories used to designate them and others could be designated in two or more ways.

ADMD	first-order administrative division (<i>muḥāfaẓat</i>); second-order administrative division (<i>liwā</i>); third-order administrative division (<i>qaḍā</i>); fourth-order administrative division (<i>nāḥiyat</i>); administrative division (municipality; no generic term indicated)
AIRF	airfield (place where aircraft land and take off, with runways and related improvements but without well-developed facilities for the commercial handling of passengers and cargo)
AIRL	landing field (level, open area without major runway improvements or commercial facilities, where small aircraft occasionally land)
AIRP	airport (place where aircraft regularly land and take off, with runways and major facilities for the commercial handling of passengers and cargo)
AIRQ	abandoned airfield; abandoned landing field
ALUV	alluvial fan(s) (alluvial deposit of a stream where it issues from a gorge upon an open plain)
ARCH	archway
AREA	area (tract of land identified by a name, but without homogeneous character or established boundaries; may be identified and named for characteristics which no longer pertain to it)
BDC	bridge

BSNH	headwater basin (basin at or near the headwaters of one or more drainage areas or a named part of such a basin)	HDL	headland (conspicuously high piece of land jutting out into or fronting the sea)
CARN	cairn (heap of stones erected as a landmark or for other purposes)	HLL	hill (landform of moderate relief, moderate elevation, and small summit area)
CAVE	cave(s) (underground cavity, usually in soluble rock)	HLLS	hills
CH	church	HSE	isolated house(s)
CLF	cliff (high, steep rock face overlooking a lower area, such as a water body, coastal lowland, or valley)	HSP	hospital
GMTY	cemetery	INN	inn
CNFL	confluence (place where two or more streams flow together)	LAVA	lava field
CNLI	irrigation canal	LCTY	locality (minor area or place of unspecified or mixed character and indefinite boundaries)
CPRF	refugee camp	LK	lake
CTN	cistern(s) (covered tank or reservoir for the storage of water, usually masonry-lined and below ground level)	ML	mill
CULT	cultivated area	MND	mound(s) (low hill of earth, natural or artificial; often the site of a former village)
CVNT	convent	MRSH	marsh (wetland characterized by grasses or bush vegetation and few or no trees)
DAM	dam (barrier constructed across a stream to impound water)	MSQE	mosque (Islamic place of public worship)
DPR	depression (more or less saucer-shaped area surrounded by higher land; ordinarily has interior drainage)	MSTY	monastery
DSRT	desert (region characterized by arid climate, barren soil, and sparse xerophytic vegetation)	MT	mountain (landform of conspicuous relief, moderate to high elevation, and small summit area)
FLT	mudflat(s) (extensive mud deposit on a section of a broad valley floor)	MTS	mountains
FORD	ford (place where a stream may be crossed safely without a bridge or boat)	PAN	salt pans (areas of natural salt accumulation resulting from evaporation of surface drainage)
FT	fort (defensive structure or works, generally of little or no present military significance; may be in a state of ruin); military post	PASS	pass (way over or between mountains or other high land)
GRAZ	grazing area (area with sufficient vegetation to support a semi-nomadic animal economy)	PCLI	independent political entity (kingdom)
GRGE	gorge (relatively narrow, steep-sided segment of a watercourse); defile (narrow passageway or constricted section of a valley)	PEN	peninsula (area of land projecting into and largely, but not entirely, surrounded by water)
GRVO	olive grove	PK	peak (separately named summit on a more extensive elevation)
GULF	gulf (large, broad water body indenting a coast)	PKS	peaks
		PLAT	plateau (small area of flat to rolling surface in a well-dissected upland region)
		PLN	plain (landform of low relief, slope, and elevation); flood plain
		PMPO	oil-pumping station
		PMPW	water-pumping station
		POOL	pool(s) (small body of water in the bed of an intermittent stream or wadi)

PP	police post	SITE	ancient site; archeological site
PPL	populated place (city, town, village, settlement, or other agglomeration of buildings where people live and work; may include some semi-nomadic camps)	SLP	slope (gradient on the side or end of an elevated relief feature)
PPLQ	abandoned populated place	SPNG	spring(s); hot spring(s)
PPLX	section of populated place (part of a city or contiguous urbanized area named as an entity but having no known administrative status)	SPUR	spur (short sloping ridge extending laterally from a mountain or other elevation)
PPQ	abandoned police post	STM	stream (river or other running fresh water body, perennial in all or a part of its course)
PROM	promontory (piece of an area of high, generally flat land jutting into surrounding lower land; similar to a headland except for its inland location)	TMB	tomb(s); grave
PS	power station	TRB	tribal area
PT	point (relatively minor projection of land, or its extremity, into a water body)	TRL	trail (includes paths)
RDGE	ridge (elongated, relatively narrow relief feature with a more or less continuous crest)	TRR	terrace (more or less level surface of intermediate elevation between higher and lower adjacent surfaces)
RDJC	road junction	UPLD	upland (broad elevated area with low to moderate surface relief; includes separately named segments of an unnamed plateau)
RCN	region (large area recognized as an entity by reason of the unity of its history, people, landscape, or other condition or a combination of conditions)	VAL	valley (area drained by a stream, or a named segment of such an area); rift valley (trough-shaped depression between two roughly parallel faults and faced by escarpments on each side)
RSTN	railroad station (building used for the transaction of railroad business, located beside a railroad track at a point where trains regularly stop to take on and discharge passengers or freight)	WAD	wadi (watercourse or drainageway that carries only occasional flows of water)
RSTQ	abandoned railroad station	WADS	wadies
RSV	reservoir(s) (large artificially impounded body of water)	WADX	section of wadi
RUIN	ruin(s) (structure in a state of ruin, ruined populated place, destroyed village; not necessarily of great antiquity or archeological interest)	WALL	wall
SBKH	sabkha (area of salt-impregnated ground without vegetation, intermittently wet from rainfall or seepage; slippery when wet, salt-encrusted when dry; occurs in depressions; includes intermittent lakes and salt marshes)	WLL	well (dug or drilled source of water)
SCRP	escarpment (more or less continuous line of cliffs or steep slopes facing in one direction, caused by differential erosion or faulting or both)	WLLS	wells
SHRN	shrine	WTRH	waterhole (place where potable water is obtained by shallow digging)
		ZNS	zones (demilitarized areas)

Latitude and longitude.—The third and fourth columns indicate geographic coordinates, with longitude based on Greenwich. Coordinates were generally read to the nearest minute and are for finding purposes only.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouths or lower ends of streams, at the summits of mountains and hills, at the

extremities of capes and points, and near the centers or mid-points of other features.

Area number.—The number in the fifth column indicates the first-order administrative division (*muḥāfaẓat*) of Jordan in which the place or feature is located, as listed below:

40900 Jordan (general)	40905 Al Khalīl
40901 Al 'Aṣimah	40906 Al Balqā'
40902 Al Quds	40907 Al Karak
40903 Irbid	40908 Ma'ān
40904 Nābulus	

The 1949 Armistice Demarcation Line has been regarded as the territorial limit of Jordan for purposes of this gazetteer. Names in the Demilitarized Zones on the Jordanian side of the Armistice Demarcation Line, and in the Israeli Mount Scopus exclave, are included in this gazetteer and have been assigned the appropriate first-order subdivision number. Names in the Laṭrūn No Man's Land and smaller No Man's Lands between Israel and Jordan, including the Area-Between-the-Lines (ABL) in and around Jerusalem, have been listed with the major area number 41000.

The general number 40900 is used for international features and for features in two or more first-order administrative divisions.

Glossary of generic terms

The following terms occur as the generic parts of standard names listed in the gazetteer. The meanings given include those supported by application to the features named in the gazetteer, whether or not these meanings are given in dictionaries.

Terms which are Hebrew are identified parenthetically. All unidentified terms are Arabic.

ābār	wells, springs
agan (Hebrew)	reservoir
'aqabat	spur
'arāqīb	spur
arḍ	area

'arvat (Hebrew)	plain
āthār	ruins
'ayn	spring, pool, well
bādiyat	desert
barqat	hills
bawwābat	archway
bayt	house
bayyārat	well
bi'ār	well(s)
bi'r	well, cistern, spring
birak	pools, reservoirs
birkat	pool, reservoir, well
burq	hills
dayr	monastery, shrine
duwaykhilat	wadi
'emeq (Hebrew)	valley
fajj	valley
far'	wadi
far'at	hill
fayḍat	wadi, depression, mudflat
ge (Hebrew)	wadi
gesher (Hebrew)	bridge
ghadīr	waterhole
gharāmīl	hills
ghawr	depression, flood plain, plain, valley, alluvial fan, terrace
haḍbah, haḍbat	hill
ḥammām	hot spring(s)
ḥammāmāt	hot springs
har (Hebrew)	mountain(s), hill
ḥarrat	lava field
ḥizam	hills
ḥorbat (Hebrew)	ruins
huḍaybāt	hills
'irāq	cliff, spur, slope, hill, peak
jabal	mountain(s), hill(s), spur, slope, ridge, escarpment
jāmi'	mosque
jawfat	headwater basin

jibāl	mountain(s), hill(s), ridge, spur	nāḥiyat	fourth-order administrative division
jisr	bridge	nahr	stream
jūrat	valley	naqb	defile, cliff, spur
kanīsat	church	nufaylat	wadi
karm	vineyard, olive grove	qā', qā'at	mudflat, depression, plain
khabāri	mudflats	qabr	tomb
khabrat	waterhole, mudflat(s)	qaḍā'	third-order administrative division
khallat	wadi	qal'at	fort
khān	inn	qalb	hill
khara'ib	ruins	qanāt	canal, irrigation canal
khashm	hill, peak, mountain	qārat	hills
khawr	wadi, stream	qarn	peak, mountain, hill
khirbat	ruin(s), ancient site	qān	mudflat(s)
khubayrāt	mudflats	qubbat	tomb, shrine
khush'at	hill	qubūr	tombs
liwā'	second-order administrative division	qulaylāt	mountain
ma'avar (Hebrew)	ford	qullah, qullat	hill, mountain, peak
maghārat	cave(s)	qūr	hills
maḥaṭṭat	railroad station, abandoned railroad station	qurayn	hill
maḥaṭṭat kahrabā'	power station	qurnat	mountain
makhāḍat	ford	quwayrat	hill
makhfar	police post, abandoned police post	ra's	mountain, peak, hill(s), point, spur, cliff, escarpment, headland
mamāliḥ	salt pans	rawḍ, rawḍat	wadi
maqām	tomb	rijal	wadies
maqbarat	cemetery	rijlah, rijlat	wadi
marabb	mudflat	rujm	cairn, hill, mountain, peak, spur, ridge
maṭabb	mudflat	rujūm	cairn(s), hill(s), mountain
maṭār	airport	ru'ūs	spur
mazār	shrine	sabkhaḥ	sabkha
meleḥat (Hebrew)	mudflat	sahl	plain, mudflat, valley, headwater basin, terrace
mughr	cave(s)	sahlāt	plain
muḥāfaẓat	first-order administrative division	sawḥ	wadi
mukhayyam	(refugee) camp	sayl	wadi, wadies
muṣallā	shrine	shī'āb	wadi
mushāsh	waterhole, wells	shī'b	wadi
muthallath	road junction	shī'bān	wadi
nab'	spring	shu'ayb	wadi
nab'at	spring	siḥ	wadi, alluvial fan
naḥal (Hebrew)	stream, wadi		

sihān	mudflat	'urqūb	spur, ridge, hill(s), mountain, plateau, escarpment
sihl	mudflat	'uyūn	spring(s)
sīq	wadi	wādī	wadi, wadi section, stream, valley, mudflat, irrigation canal
siyāḥ	wadi	widyān	wadies, wadi
sūḥ	plain	yam (Hebrew)	sea, lake
ṭāḥūnat	mill	ḡahr	hill
tal'at	wadi, mountain	ḡahrah, ḡahrat	mountain, hill(s), spur, slope
tall	hill, mound, mountain, slope, spur, ridge	zawr	plain, flood plain
tallat	hill	zaytūn	olive grove
ṭār	hill	zuhūr	hill(s)
ṭārat	escarpment	zumal	hill(s)
ṭāriq	road, trail	zumaylāt	hill
tilā'	mountain	zumaylāt	hills
tilāl	hill(s), mounds, peaks, mountains, spurs	zumlat	hill
ṭīrān	hills			
tulayl	hill			
tulaylāt	hills			
tulūl	hill(s), mountains			
ṭūr	mountain, hill			
'urqān	slope, hill			

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors and name changes to the Board on Geographic Names, Department of the Interior, Washington, D.C. 20240. A statement of the source of the correct information will be helpful.

Geographic names or their spellings do not necessarily reflect recognition of the political status of an area by the United States Government.

TRANSLITERATION SYSTEM FOR ARABIC GEOGRAPHIC NAMES

TABLE I

TRANSLITERATION OF THE ARABIC CONSONANTS

(Only the isolated forms of the letters are given; see any Arabic grammar or standard reference work for the combining forms in initial, medial, and final positions and for consonant ligatures.)

ARABIC LETTER	NAME OF LETTER	TRANSLITERATION	EXAMPLES AND REMARKS
ء	hamzah	omit (initial)	ابوكمال Abū Kamāl
		' (medial)	بئر زيت Bi'r Zayt. See note 1.
		' (final)	صنعاء Ṣan'ā'
ا	alif	omit	أم العمد Umm al 'Amad. See note 2.
ب	bā'	b	البحرين Al Baḥrayn
ت	tā'	t	الكويت Al Kūt. The combination of tā' with bā' can be rendered as t/h for bibliographical purposes. See notes 3 and 4.
ث	thā'	th	الثليوث Ath Thulaythuwāt. See remarks on tā'.
ج	jīm	j	الجزيرة Al Jazīrah
ح	ḥā'	ḥ	المحمودية Al Maḥmūdīyah. See note 5.
خ	khā'	kh	خيبر Khaybar. See remark on kāf.
د	dāl	d	دمنهور Damanhūr. The combination of dāl with bā' can be rendered as d/h for bibliographical purposes. See note 4.

TABLE I (Continued)

ARABIC LETTER	NAME OF LETTER	TRANSLITERATION	EXAMPLES AND REMARKS
ذ	dhāī	dh	وادي الذهب Wādī adh Dhahab. See remark on <i>dāl</i> .
ر	rā'	r	الروضة Ar Rawḍah
ز	zāy	z	الزاوية Az Zāwiyah
س	sīn	s	سليمانية Sulaymānīyah. The combination of <i>sīn</i> with <i>bā'</i> can be rendered as <i>s/h</i> for bibliographical purposes. See note 4.
ش	shīn	sh	الشام Ash Shām. See remark on <i>sīn</i> .
ص	ṣād	ṣ	قصومة Qayṣūmah. See note 5.
ض	ḍād	ḍ	ضور Ḍawr. See note 5
ط	ṭā'	ṭ	القنيطرة Al Qunayṭirah. See note 5.
ظ	ẓā'	ẓ	الوطبي Abū Ḥaby. See note 5.
ع	'ayn	'	ابوعريش Abū 'Arīsh. This is a raised turned comma.
غ	ghayn	gh	بغداد Baghdād
ف	fā'	f	الفرات Al Furāt
ق	qāf	q	قطر Qaṭar
ك	kāf	k	الكويت Al Kuwayt. The combination of <i>kāf</i> with <i>bā'</i> can be rendered as <i>k/h</i> for bibliographical purposes. See note 4.

TABLE I (Continued)

ARABIC LETTER	NAME OF LETTER	TRANSLITERATION	EXAMPLES AND REMARKS
ل	lām	l	حلب Ḥalab
م	mīm	m	مكة Makkah
ن	nūn	n	نخل Nakhl
هـ	hā'	h	جبل هارون Jabal Hārūn. See remarks on <i>tā'</i> , <i>dāl</i> , <i>sīn</i> , <i>kāf</i> ; see also notes 3 and 4.
و	wāw	w	وادي موسى Wādī Mūsá
ي	yā'	y	اليمن Al Yaman. See notes 1 and 6.

NOTES

1. *Hamzab* is written in Arabic over all initial *aliif*s except those which belong to the definite article *al* or bear a *maddab* (see note 10). When the purpose is to indicate the presence of the sound described as a glottal stop, it is written over internal and final *aliif*, *wāw*, and *yā'* (without dots). *Hamzab* following *i* is written *ئ* (almost always the *yā'* is in the *ي* or *يـ* form) and the dots are omitted. Example: *بشر*. *Hamzab* following *u* is written *ؤ*. *Hamzab* following a long vowel is written *ء* without anything under it ("without a bearer"). The transliteration of *hamzab* (') should always be carefully distinguished from that of *'ayn* (*).
2. *Aliif* as such is not transliterated when it is bearer of *hamzab*, but see *fathab aliif* and *aliif maddab* in Table II. See also note 1 above and note 10.
3. An original *tā'* in certain endings is written *تـ* (i.e., *bā'* with two dots) and is called *tā' marbū'ah*. It is transliterated *h* (silent), except when followed by another word in a unitary expression, when it is transliterated *t*, as in *hamzab* (isolated form) and *hamzat al waḥl*. A pronounced final *bā'* occurs and for bibliographical purposes may be transliterated /*h* when a *fathab* precedes it (Al Mara/h). Cf. also note 4.
4. The two-letter symbols *th*, *kh*, *dh*, *sh*, and *gh* are convenient for use and easily comprehensible. The infrequent sequences of *t*, *k*, *d*, or *s* followed by *h* can be unequivocally transliterated for bibliographical purposes by the use of a slant line ("shilling," "solidus") to separate true *h* from a preceding *t*, *k*, *d*, or *s*; that is, *th* represents *thā'*, but *t/h* stands for *tā'* followed by *bā'*. Cf. also note 3.

NOTES

7. The classical Arabic grammatical endings written with the so-called nunation symbols (Arabic *tanwīn*) may be transliterated when necessary by aⁿ, iⁿ, uⁿ. In modern Arabic these endings have become silent and are omitted in transliteration: classical *alif*ⁿ, modern *alif*.
8. Doubled consonant sounds are written in Arabic by placing the *tashdīd* over the consonant letter written once. In transliteration the letter should be doubled. When the definite article *al* precedes a word beginning with t, th, d, dh, r, s, sh, ṣ, ḍ, ṭ, ḏ, l, n (the so-called "sun letters"), the l is assimilated in pronunciation, giving tt, thth, etc.

In transliteration this l should be omitted and the following letter written twice, once after the a of the article and secondly at the beginning of the next word. Example: An Nil, not Al Nil.

9. *Hamzat al waṣl* is transliterated ' in classical forms, as illustrated in its classical name *hamzatu 'l waṣli*, but ignored in modern forms, as in *hamzat al waṣl*.
10. *Maddab* is a horizontal wavy line over *alif*. Since *maddab* nearly always occurs in word-initial position, no confusion results from the use of ā for *alif maddab* as well as for *fathḥab alif*.

SPECIAL RULES

The following notes explain details of transliteration not stated above.

1. Initial definite articles and prepositions should be capitalized and hyphens should not be used to connect parts of names; e.g., Ash Shāriqah and Tall al Laḥm.
2. If any evidence is found for the use of the definite article in a name, the article will be used in the name chosen.
3. The Arabic word for God will be written Allāh.
4. Phrase names, commonly transcribed as one word, will be written in separate words. The definite article within such names will be written al, not ul; e.g., 'Abd Allāh, 'Abd ar Raḥmān, Dhū al Faḳār.
5. The word Ibn will be transliterated Bin wherever written without *alif*, that is, between two proper nouns; e.g., 'Umar Bin al Khaṭṭāb.
6. The Turkish word Paṣa will be transliterated directly from Arabic script as Bāshā; the Turkish word Bey will be romanized as Bey in Egyptian names, no matter how written in Arabic-language sources, but in other Arabic areas as Bak where written *bā'-kāf* and as Bayk where written *bā'-yā'-kāf*.
7. The modern colloquial word Sīdī will be given precedence over the classical form Sayyidī. (This does not preclude the spelling Sayyidī if the latter is indicated by the Arabic script or other evidence -- for instance if the *yā'* is written with *tashdīd*.)
8. The colloquial word Bū will not be changed to the classical form Abū.
9. The colloquial word for water written *mīm-yā'-tā'* on Arabic maps will be transliterated Mayyat.
10. In place names of Aramaic origin in Lebanon and Syria with an initial cluster beginning with b plus another consonant such as l or h, initial clusters such as bl and bh will be written.
11. In names containing the words for "back, ridge, hill" appearing as either *ḫā'-ḥā'-rā'* or *ḡād-bā'-rā'* in Arabic sources, the spelling used in the sources will be followed.

שׁ	shin	sh	
שׂ	sin	s	
תּ and תׁ	taw	t	See note 2
ג׳		(g)	These three letters, and certain other modified letters not included in this system, are used on Hebrew maps to render Arabic and other non-Hebrew names. (Modifications involve dots and circumflexes as well as ticks.) Names in which these letters occur will not be transliterated but should be treated in accordance with notes 6 and 7.
ד׳		(d)	
ז׳		(z)

ֹ	"long" holem	o	
ׁ	qibbuz	u	
ׁ	shureq	u	

NOTES

- Every medial alef bearing a vowel or shewa is transliterated, e.g., גַּלְאוֹן (Gal'on), בְּעֵר שֶׁבַע (Be'er Sheva'), נְדָר (Ne'dar). Alef is not transliterated when initial or used as mater lectionis, e.g., אֵלָה (Ela), סָסָא (Sasa).
- The dot placed within the body of the consonants ב , ג , ד , כ , פ and ת when they occur at the beginning of a name or after an unvowelled consonant in the middle of a name is known as the "weak" dagesh. It alters the sound of ב , פ and ד to b, k and p. The phonetic distinction between ג and כ , ד and ת , and ת and ת has now been lost and these pairs of letters are transliterated identically.

The same dot may also be placed within the body of any consonant (including the six above-mentioned but excluding א , ה , ו , י and ך) to indicate the "strong" dagesh. This is rendered in transliteration by doubling the letter; the digraph sh is not doubled. The "strong" dagesh can be distinguished from the "weak" dagesh since the former is always preceded by a vowel, e.g., אֶכּוּ ('Akko) but אֶכּוּ (Tulkarm). But see Note 4.

3. Shewa nah ("quiescent" shewa) marks the end of a closed syllable and is not pronounced. Shewa na' is a short neutral vowel.
4. The definite article הַ is capitalized in transliteration and run together with the following word, whose initial letter bearing the dagesh is also capitalized but not doubled, e.g., HaYogev. If the initial letter is 'ayin the following vowel is capitalized, e.g., Ha'Ogen.
5. "Furtive" patah, which is written under final he mappiq, het and 'ayin, but pronounced before and not after these three consonants, is transliterated before the letter under which it is written, e.g., רוֹקחַ (Roqeah).
6. The non-Hebrew elements of commemorative names derived from roman-alphabet languages should be spelled as in the original, e.g., Kefar Masaryk (not Masariq), Balfouriyya (not Balfuriyya), Kefar Szold (not Sold).
7. Arabic names written in the Hebrew alphabet should be transliterated according to the following special rules:
 - (a) Hebrew consonants will be transliterated according to the table above with the following amendments and additions:

א	omit
ג'	j
ד'	dh
ד	ḏ (dot below d)
פ	ḥ
פּ, פֿ, פֿ (final)	-a
י	dh
י'	kh
ש	ṣ
שׁ	gh
ז	ṣ
ת'	th

(b) Hebrew vowel points will be transliterated as follows:

ˆ	no vowel
-	a
.	i
˙	u
˘	e
˚	i
˛	ū (see also (c) below)
˜	ei
˝	aiy
˞	iy
˟	au

(c) Dagesh is rendered by doubling the letter or digraph, except in the case of ו and ב. ׀ should be rendered u unless it is vowelled, when it will be rendered ww, e.g., הַוְוָרָה (Huwwāra).

(d) An unassimilated Arabic article is written אל or אל and should be transliterated el (not al). An assimilated Arabic article is written אל or אל followed by a dagesh in the initial consonant of the succeeding word. This will be given effect to by transliterating the letter or digraph affected once as part of the article and once as part of the following word, e.g., אֵלֶּשֶׁטְרִיִּם (Es Sahla).

(e) A hyphen should be used in transliteration to separate h or ḥ from preceding d, ḡ, dh, gh, k, s, ṣ, sh, t, ṭ and th.

(f) The circumflex accent which is sometimes used to indicate stress should be ignored in transliteration.

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200020001-4

Created in 1849, the Department of the Interior—America's Department of Natural Resources—is concerned with the management, conservation, and development of the Nation's water, wildlife, mineral, forest, and park and recreational resources. It also has major responsibilities for Indian and Territorial affairs and for standardization of Federal usage of both domestic and foreign geographic names.

As the Nation's principal conservation agency, the Department works to assure that nonrenewable resources are developed and used wisely, that park and recreational resources are conserved for the future, and that renewable resources make their full contribution to the progress, prosperity, and security of the United States—now and in the future.

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200020001-4
