GAZETTEER of OFFICIAL STANDARD NAMES

MARCH 1970

FOR OFFICIAL USE ONLY

OFFICIAL STANDARD NAMES

for

Malawi

approved by the

UNITED STATES BOARD ON GEOGRAPHIC NAMES

This Gazetteer is issued under the NIS maintenance program. It supersedes the material on Malawi (formerly Nyasaland) in the Rhodesia and Nyasaland Gazetteer, dated April 1956.

Prepared in the

Geographic Names Division, U.S. Topographic Command
Coordinated and Published by the Central Intelligence Agency
Washington, D.C. 20505, March 1970

FOREWORD

This gazetteer contains about 10,200 entries for places and features in the Republic of Malawi. The entries include standard names approved by the Board on Geographic Names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The basic name coverage corresponds to that of maps at the scale of 1:250,000 in the northern part and at 1:50,000 in the central and southern parts of the country. Entries include the names of first-order administrative divisions, populated places of all sizes, various other cultural entities, and a variety of physical features.

Most of the entities can be identified and located by the approved name or a recognizable variant of the approved name on one or more of the following sources:

Federation of Rhodesia and Nyasaland 1:250,000, Federal Department of Trigonometrical and Topographical Surveys, Salisbury, Southern Rhodesia, 1958-68.

Malawi 1:50,000, Directorate of Overseas Surveys, Tolworth, Surrey, England, 1959-67.

Malawi 1:50,000, Department of Federal Surveys, Salisbury, Southern Rhodesia, 1959-63.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name. — Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see". Where part of a name is underlined, the use of the part not underlined is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names containing generic elements preceding the specific term (except names of populated places) are alphabetized by the specific part; thus Cape Ngombo, the name of a cape, is listed as Ngombo, Cape.

Designation. — The second column contains designations or abbreviations of designations of the entities to which the names apply, as listed below. Since practically all geographic terms have varied meanings, the senses in which many of the designations are applied in *this gazetteer* are stated in the list to reduce ambiguity. It should be noted also that the differentiations of terms that can be made in any gazetteer will vary with the quality of the maps of the area and with the nature of the entities that are named. In Malawi some of the features do not fit precisely into the categories used to designate them and others could be designated in two or more ways. For example, some entities designated as courthouses, schools, missions, and the like have sufficient associated population to warrant identification as populated places.
