FOREWORD

This gazetteer contains about 32,500 entries for places and features in the Province of Mozambique. The entries include standard names approved by the Board on Geographic Names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The basic name coverage corresponds to that of maps at the scale of 1:250,000. Entries include the names of first- and second-order administrative divisions, populated places of all sizes, various other cultural entities, and a variety of physical features.

Most of the entities can be identified and located by the approved name or a recognizable variant of the approved form on *Carta da Colónia de Moçambique* or *Carta da Província de Moçambique,* Junta das Missões Geográficas e Investigações do Ultramar, 1946-55; scale 1:250,000.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see". Where part of a name is underlined, the use of the part not underlined is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names containing generic elements preceding the specific term (except names of populated places) are alphabetized by the specific part; thus Ponta Abril, the name of a point, is listed as Abril, Ponta.

The diacritical marks used in approved names of Mozambique are the acute accent (´), circumflex (^), tilde (~), cedilla (,), and grave accent (`). Standard Portuguese orthographic usage is followed in regard to diacritical marks in Portuguese words; latest official sources are followed for non-Portuguese words. All diacritical marks are used in both uppercase and lowercase print.

Portuguese words begin with an uppercase letter, with the exception of conjunctions, prepositions, and articles (*e, de, do, da*); latest official sources are followed for capitalization of non-Portuguese words. The apostrophe in non-Portuguese words is followed by a lowercase letter.

Designation.—The second column contains designations or abbreviations of designations, as listed below. Since practically all geographic terms have varied meanings, the senses in which the designator terms are used and the range of features to which they are applied *in this gazetteer* are stated in the list to reduce ambiguity. The distinctions that can be made in a given gazetteer will vary with the quality of the maps of the area and with the nature of the entities that are named. In Mozambique some of the features do not fit precisely into the categories used to designate them and others could be designated in two or more ways.

ADMD	first-order administrative division (*distrito*); second-order administrative division (*concelho; circunscrição*)
AIRL	landing field (level, open area without major runway improvements or commercial facilities, where small aircraft occasionally land)
AREA	area (tract of land identified by a name, but without homogeneous character or established boundaries; may be identified and named for characteristics which no longer pertain to it)
BAR	sandbar (bar or ridge of sand built up to or near the surface by currents in coastal waters; usually at the mouth of a stream)
BAY	bay
BCH	beach (deposit of sand or other unconsolidated material along a shore)
CAPE	cape (seaward end of a projection of land of such position and size as to affect the course of ships)

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200030010-3

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200030010-3

CHNM	marine channel (channel between coastal islands, reefs, or shoals; between an offshore feature and the mainland; or through a shallow marine waterbody)
CHNS	stream channel (separately named lesser channel around an island or bar in a stream)
CNL	canal
CRKT	tidal creek (watercourse tidal in all or most of its length; usually short, without extensive tributary drainage areas, and located in coastal marsh or other wetland)
DAM	dam (barrier constructed across a stream to impound water)
ESTA	plantation (large commercialized agricultural landholding with associated dwellings and other facilities, having unified ownership and management but requiring more than a one-family labor force and specializing in a single tropical or subtropical cash crop)
ESTY	estuary (drowned lower part of a stream)
FLTT	tidal flat (coastal area alternately submerged and exposed by tide)
FT	fort (defensive structure or works, generally of little or no present military significance; may be in a state of ruin)
GRGE	gorge (relatively narrow, steep-sided segment of a streamcourse)
HLL	hill (landform of moderate relief, moderate elevation, and small summit area)
HLLS	hills
HSE	isolated house
INLT	inlet (small, narrow indentation in a coast)
ISL	island
ISLS	islands
LGN	lagoon (waterbody along a coast, largely or wholly cut off from the sea by a barrier beach or other depositional feature)
LK	lake
LKS	lakes
LT	lighthouse
MSSN	mission
MT	mountain (landform of conspicuous relief, moderate to high elevation, and small summit area)
MTS	mountains; mountain range
PASS	pass (way over or between mountains or other high land)
PCLD	dependent political entity (overseas province)
PK	peak (separately named summit on a more extensive elevation)
PLAT	plateau (extensive elevated area of flat to rolling surface; may exhibit considerable local relief due to dissection or the presence of hills or mountains rising above the general surface level)
PPL	populated place (city, town, village, settlement, or other agglomeration of buildings where people live and work)
PRK	national park
PT	point (minor projection of land into a waterbody, or its extremity)
RDGE	ridge (elongated, relatively narrow relief feature with a more or less continuous crest)
RF	reef(s) (offshore consolidated-rock hazard to navigation with a least depth of ten fathoms or less)
RKL	rock on land (boulder, pinnacle, crag, or other rock or rock outcrop situated on land)
RKSW	rocks in water (rocks of such character and importance as to be identified by name, situated either above or below the surface of a body of water; often associated with reefs but separately named)
RKW	rock in water
RPDS	rapids
RSTN	railroad station (building used for the transaction of railroad business, located beside a railroad track at a point where trains regularly stop to take on and discharge passengers or freight)
SHOL	shoal(s) (offshore hazard to navigation composed of unconsolidated material and having a least depth of ten fathoms or less)
SPIT	spit (projecting tongue of beach material deposited by a coastal current)

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200030010-3

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200030010-3

STM	stream (may include intermittent as well as perennial streams)
STMA	anabranch (stream that leaves the main stream and rejoins it after a separate course for a considerable distance)
STMD	distributary (secondary watercourse carrying part of the drainage of a larger stream into another waterbody; characteristic of deltas)
STNA	agricultural station (agricultural office, agricultural research station, experimental farm, demonstration farm, or farm institute)
STRT	strait (relatively narrow water passage connecting large bodies of water)
VAL	valley (area drained by a stream, or a named segment of such an area)
WTLD	wetland (marsh, swamp or other poorly drained area with a mixture of tree and grass vegetation or with unspecified vegetation; may contain a stream or lake within it)

Latitude and longitude.—The third and fourth columns indicate geographic coordinates, with longitude based on Greenwich. Coordinates were generally read to the nearest minute and are for finding purposes only.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouths or lower ends of streams, at the summits of mountains and hills, and near the centers or midpoints of other features.

Area number.—The number in the fifth column indicates the first-order administrative unit (*distrito*) of Mozambique in which the place or feature is located, as listed below:

57900	Mozambique (general)	57905	Tete
57901	Lourenço Marques	57906	Zambézia
57902	Gaza	57907	Moçambique
57903	Inhambane	57908	Niassa
57904	Manica e Sofala	57909	Cabo Delgado

The general number (57900) is used for international features and for features in two or more *distritos*.

Glossary of generic terms

The following terms occur as the generic parts of standard names listed in the gazetteer. The meanings given include those supported by application to features named in the gazetteer, whether or not these meanings are given in dictionaries. The parenthetical symbol (A) designates Afrikaans words; the remainder are Portuguese.

angra	inlet
apeadeiro	railroad station
baía	bay
baixo(s)	shoal(s), reefs(s), bar, marine bank
banco	spit, tidal flat
barra	bar
barragem	dam
barreira	bar
barreta	bar
cabo	cape, point
campo de aviação	landing field
canal	canal, marine channel, tidal creek, stream, stream channel
circunscrição	second-order administrative division
concelho	second-order administrative division
cone	mountain
distrito	first-order administrative division
enseada	bay
estação	railroad station
farol	lighthouse
fortaleza	fort
forte	fort
golada	marine channel
ilha	island
ilhéu	island
lago	lake, wetland
lagoa(s)	lake(s), lagoon
lângua	wetland
maciço	mountain range
missão	mission

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200030010-3

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200030010-3

monte(s)	hill(s), mountain(s)
pântano	wetland, lake
parcel	shoal
parque nacional	national park
pedra	rock(s) in water
pico	peak, mountain
planalto	plateau
planície	wetland
plantação	plantation
ponta	point, cape
poort (A)	pass
porto	bay, inlet
pôsto agrícola	agricultural station
pôsto agronómico	agricultural station
praia	beach
província	dependent political entity
quedas	rapids
restinga	spit, bar, shoal
ribeira	stream
rio	stream, distributary, marine channel, estuary
rivier (A)	stream
rocha	rock on land or in water
serra	mountain(s), mountain range
spruit (A)	stream

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors and name changes to the Board on Geographic Names, Department of the Interior, Washington, D. C. 20240. A statement of the source of the correct information will be helpful.

Geographic names or their spellings do not necessarily reflect recognition of the political status of an area by the United States Government.
