FOREWORD

This Gazetteer Supplement contains corrections to 3,150 entries in the BGN gazetteers for the countries of Africa and Southwest Asia. Coverage does not include Algeria, Libya, Southern Rhodesia and Zambia for which revised gazetteers are in preparation. Rwanda is also excepted because there were no corrections on record in the central names files.

These change lists are not part of the normal revision schedule and no attempt has been made to research all names in the gazetteers concerned nor to add the many names accumulated in the Board's central names files since publication of those gazetteers. Only those errors and name changes which have come to the attention of the Board and/or its staff are contained herein. Some new names have been added where they serve to clarify a change or deletion in a gazetteer entry. For example: the reorganization of an administrative division into two new divisions requires deletion of the existing gazetteer entry and substitution of entries for the newly created divisions.

Interpretation of Entries

It will be noted that certain gazetteers are divided into sections: e.g., Madagascar has subsections for Réunion and the Comoro Islands. To facilitate posting of changes in gazetteers the lists in this Supplement follow the same format as original gazetteers. A subsection not listed in the Table of Contents requires no change.

The column designated "Gazetteer Entry" contains all significant data for that entry as recorded in the gazetteer. Only minimal information is given in the right-hand column - usually only the element of the entry which has been changed. However, where any change has been made in the spelling of the name itself, the full form of the presently approved name appears in the column designated "Change To".

No attempt has been made to correct cross-reference entries in the gazetteers, nor have cross-references for new names been included.

The phrase "Delete asterisk" in the "Change To" column indicates that the name has been upgraded to a fully approved BGN/PCGN transliteration or a name standardized only in conventional English form. For a full explanation of the original function of the asterisk the user should refer to the foreword of the gazetteer concerned.

Designation codes are used in the right-hand column only if adequately explained in the related gazetteer; otherwise, the designation is written in full. Where part of a name is underlined, the

use of the part not underlined is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Local names of international features are identified by major-political-entity labels. If only one country is identified parenthetically, no name is available for the feature in the other country or countries.

The abbreviations NML and F.T.A.I. used herein should be expanded as No Man's Land and French Territory of the Afars and Issas, respectively.

Reporting of Errors

It is requested that all who use this gazetteer supplement aid in its correction for future printings by reporting errors and name changes to the Board on Geographic Names, Department of the Interior, Washington, D.C. 20240. A statement of the source of the correct information will be helpful.

Geographic names for their spellings do not necessarily reflect recognition of the political status of an area by the United States Government.
