NIS GAZETTEER

Gabon

This NIS Gazetteer on Gabon is issued under the NIS maintenance program. It supersedes the material on Gabon in the Preliminary NIS Gazetteer on Equatorial Africa, dated November 1952.

FOR OFFICIAL USE ONLY

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200050001-1

CENTRAL INTELLIGENCE AGENCY

Washington, D.C.

April 1962

This Gazetteer is issued as a standard component of the National Intelligence Survey for Gabon and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. This Gazetteer also lists the variants of official standard names for reference purposes. These variants are not approved as standard names.

This Gazetteer will be adequately maintained by published revision.

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

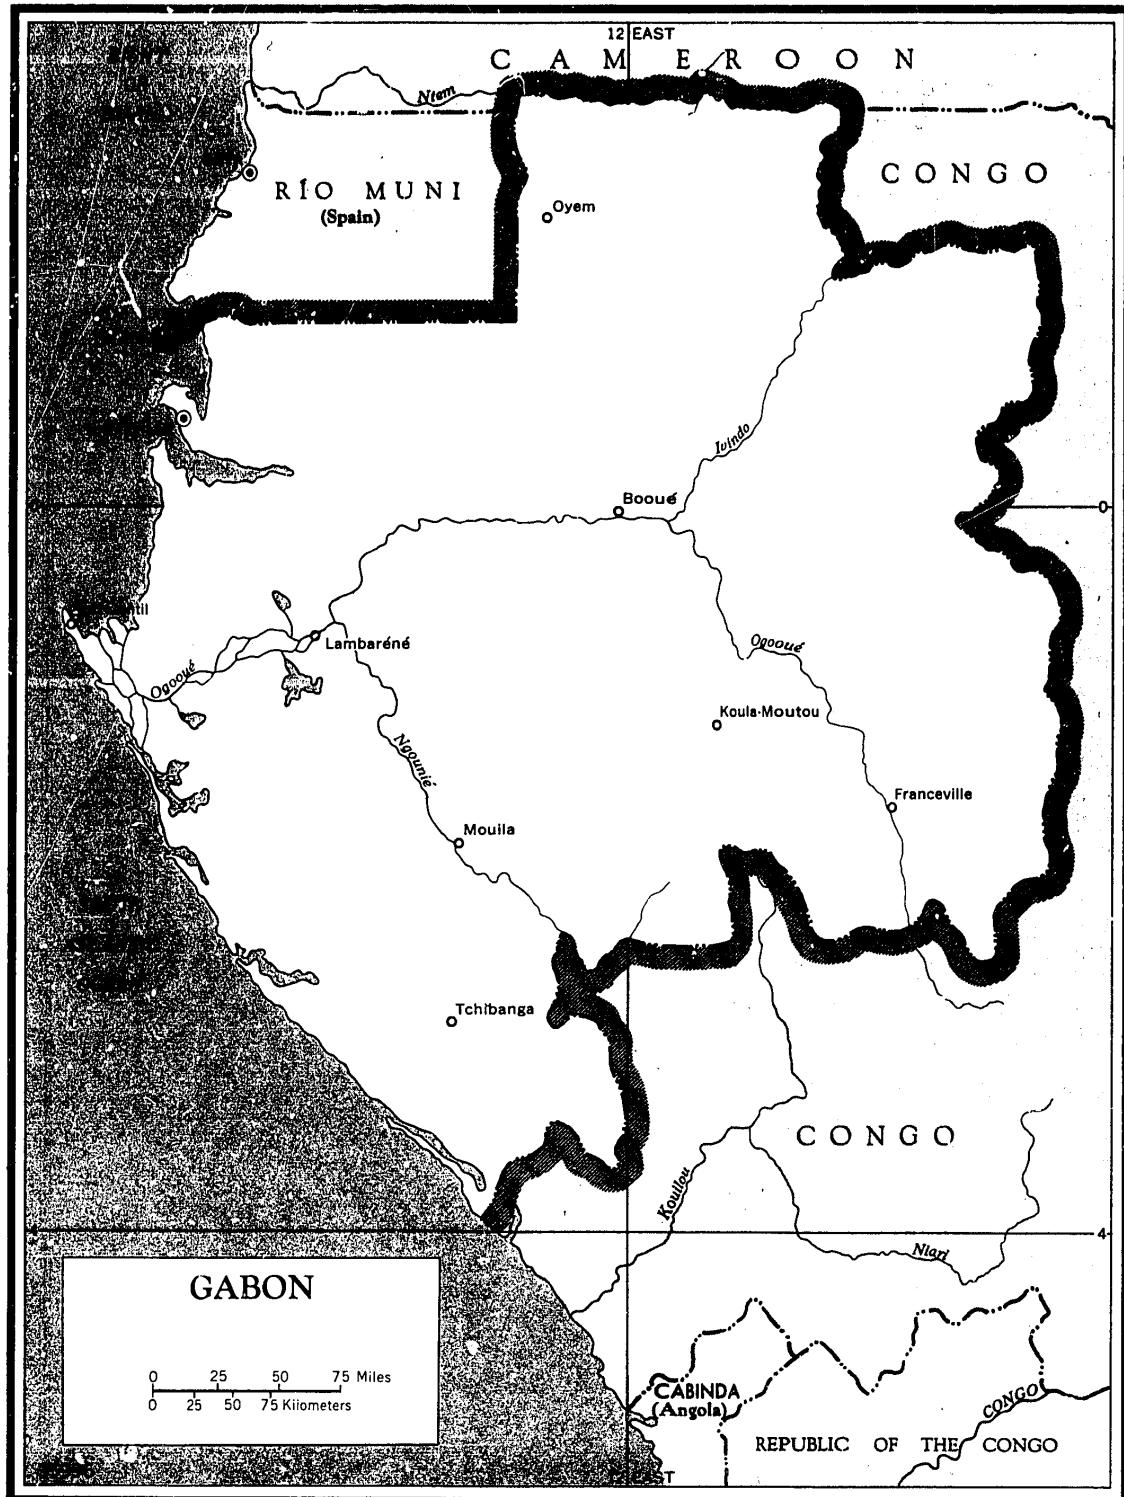

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200050001-1

NIS GAZETTEER

Gabon

Official Standard Names Approved by the
U.S. Board on Geographic Names

Prepared in the Office of Geography, Department of the Interior
Coordinated by the Central Intelligence Agency
Washington, D.C. April 1962

FOREWORD

This gazetteer contains about 8,000 entries for places and features in Gabon. The entries include standard names approved by the Board on Geographic Names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The names in this gazetteer supersede those in all previous Board lists for the area.

The map scale of name coverage is approximately 1:200,000.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name. — Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see." Where part of a name is underlined, the use of the part not underlined is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names that include specific and other elements (except names of populated places) are alphabetized by specific part; thus Rapides de Tombo is listed as Tombo, Rapides de. The diacritical marks used in the approved names are the acute (as in Kandéko), the grave (Sommet de Saint-Père), the dieresis (Bueilli), the circumflex (Sanga Forêt), and the cedilla (Saint-François). They are to be used whether the names are written in capital or lowercase letters.

The first letter of all separate words except non-initial articles, prepositions, and conjunctions should be capitalized.

A characteristic of Gabon's nomenclature is the frequent occurrence of two or more small populated places, streams, or other features with identical names within short distances of each other. The names of these places are individually listed in the gazetteer as shown on the maps of the area.

Designation. — The second column contains designations or abbreviations of designations, as listed below. Since practically all geographic terms have varied meanings, the senses in which some of the designator terms are used and the range of features to which they are applied in this gazetteer are stated in the list to reduce ambiguity. The distinctions that can be made in a given gazetteer will vary with the quality of the maps of the area and with the nature of the entities that are named.

ADM'D	first-order administrative division
BAR	bar (includes submerged portions of spits at entrances to lagoons)
BAY	bay (includes coastal indentations of variable size, such as coves and inlets)
CAPE	cape (seaward end of a projection of land of such position and size as to cause coastwise shipping to change course; see also PT)
CLIFF	cliff
CAMP	campsite
CRKT	tidal creek (watercourse tidal in its entire length; usually short, commonly without tributaries, and located in coastal marsh or other wetland)

ENTR	entrance (opening from the sea into a smaller waterbody, such as a lagoon, bay, or distributary stream)	PPL	populated place (city, town, village, settlement; includes some seasonal or temporary habitations)
ESTY	estuary (drowned river mouth)	PRK	national park
FLLS	waterfall	PT	point (end of a relatively minor projection of land into a waterbody; see also CAPE)
FRST	forest, forest reserve, woods	RES	reserve (land set aside for unknown or multiple or unspecified purposes; see also FRST, PRK, RESH, RESW)
GRGE	gorge (narrow, steep-sided part of a watercourse)	RESH	hunting reserve
GULF	gulf	RESW	wildlife reserve
HLL	hill (generally less than 300 meters elevation, small summit area, and moderate relief)	RF	reef (offshore hazard to navigation, usually characterized by submerged rocks)
HLLS	hills	RGN	region (area recognized as an entity by reason of the unity of its history, people, landscape, or other condition)
ISL	island	RKL	rock on land
ISLS	islands	RKSW	rocks in water
LGN	lagoon (waterbody along a coast, wholly or largely cut off from the sea by a barrier beach or other depositional feature)	RKW	rock in water
LK	lake	RPDS	rapids (may include some waterfalls not distinguished from rapids)
LKS	lakes	SHOL	shoal(s) (offshore hazard to navigation generally composed of unconsolidated material; may be exposed in part at low tide)
MSSN	mission	STM	stream (river or other running fresh waterbody, perennial in whole or in part)
MT	mountain	STMD	distributary (stream carrying part of the water of a larger stream into another waterbody; characteristic of deltas)
MTS	mountains, mountain range	STMI	intermittent stream (no part indicated as perennial)
PASS	pass (way over or through an area of mountains or other high land)	SVNA	savanna (natural grassland interspersed with trees or bush)
PCLI	independent political entity (republic)	SWMP	swamp (wetland characterized by the presence of trees)
PEN	peninsula	WTLD	wetland (presence of trees or grasses not specified; includes some permanent or intermittent waterbodies surrounded by wetland but not separately named)
PK	peak (apex of a mountain or other high land; occasionally one of two or more summits on a single larger elevation)		
PLAT	plateau (extensive elevated area of flat to rolling surface; may exhibit considerable local relief due to dissection or the presence of hills or mountains rising above the general surface level)		
PLN	plain		
PND	pond (small inland waterbody)		

Latitude and longitude. — Coordinates, in the third and fourth columns, are for finding purposes only. They were generally read to the nearest minute. For precise location, large-scale maps should be used.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouths or lower ends of streams, at the summits of mountains and hills, at the extremities of capes, near the centers of areas, and at the midpoints of most other features.

Area number. — The number in the fifth column indicates the administrative or geographic unit in which the place or feature is located, as listed below. Boundaries of the units should be regarded as approximate only.

54800	Gabon (general)	54805	Ogooué-Ivindo
54801	Estuaire	54806	Ogooué-Lolo
54802	Woleu-Ntem	54807	Naut-Ogooué
54803	Ogooué-Maritime	54808	Ngounié
54804	Moyen-Ogooué	54809	Nyanga

The general number (54800) is used for international features and for features in more than one division of the country.

Locational reference. — The number in the last column indicates a map or chart on which the feature may be located by its standard name or a recognizable variant of its standard name.

01 *Croquis Provisoire de l'A.E.F. et du Cameroun*, Service Géographique de l'A.E.F. et du Cameroun and Institut Géographique National, various dates, scale 1:200,000.

02 *Croquis Provisoire de l'A.E.F. et du Cameroun*, Service Géographique de l'A.E.F. et Cameroun, various dates, scale 1:1,000,000.

03 French hydrographic charts.

The code 00 is used for cross-references and for standard names to be found only on references other than those listed above.

Glossary of generic terms

The following terms occur in the standard names listed in the gazetteer. The meanings given include those supported by application to features named in the gazetteer, whether or not these meanings are given in dictionaries. (In column II, F=French, S=Spanish.)

arroyo	S	stream
bale	F	bay
banc(s)	F	shoal
barre	F	bar
bois	F	forest, woods
campement	F	campsite
cap	F	cape
chaîne(s)	F	hills
chute(s)	F	waterfall(s)
collines	F	hills
crique	F	tidal creek, bay, stream, distributary
défilé	F	gorge
domaine de chasse	F	hunting reserve
entrée	F	entrance
estuaire	F	estuary
étang	F	pond
falaise	F	cliff
golfe	F	lagoon
île(s)	F	island(s)
îlot	F	island
lac(s)	F	lake(s), lagoon
lagune	F	lagoon
marais	F	wetland
marecage	F	swamp, wetland
massif	F	mountain
mont(s)	F	mountain(s), hill(s)
montagne(s)	F	mountain(s), hill(s)
nenghe		island
ningué		island
parc national	F	national park
passe	F	distributary
pic	F	peak

plaine	F	plain
plateau	F	plateau
pointe	F	point
rapide(s)	F	rapids
rembo		stream, distributary
république	F	republic
réserve de faune	F	wildlife reserve
réserve forestière	F	forest reserve
réserve intégrale	F	multiple-purpose reserve
río	S	stream
rivière	F	stream, distributary, tidal creek

roche(s)	F	rock(s) in water
rocher	F	rock in water
savane	F	savanna
sommet(s)	F	hill(s)
vallée	F	gorge

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors to the Board on Geographic Names, Department of the Interior, Washington 25, D. C. A statement of the source of the correct information will be helpful.

Geographic names or their spellings do not necessarily reflect
recognition of the political status of an area by the United States
Government.
