FOR OFFICIAL USE ONLY

CENTRAL INTELLIGENCE AGENCY

Washington, D.C.

June 1961

This Gazetteer is issued as a standard component of the National Intelligence Survey for Denmark and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. This Gazetteer also lists the variants of official standard names for reference purposes. These variants are not approved as standard names.

This Gazetteer will be adequately maintained by published revision.

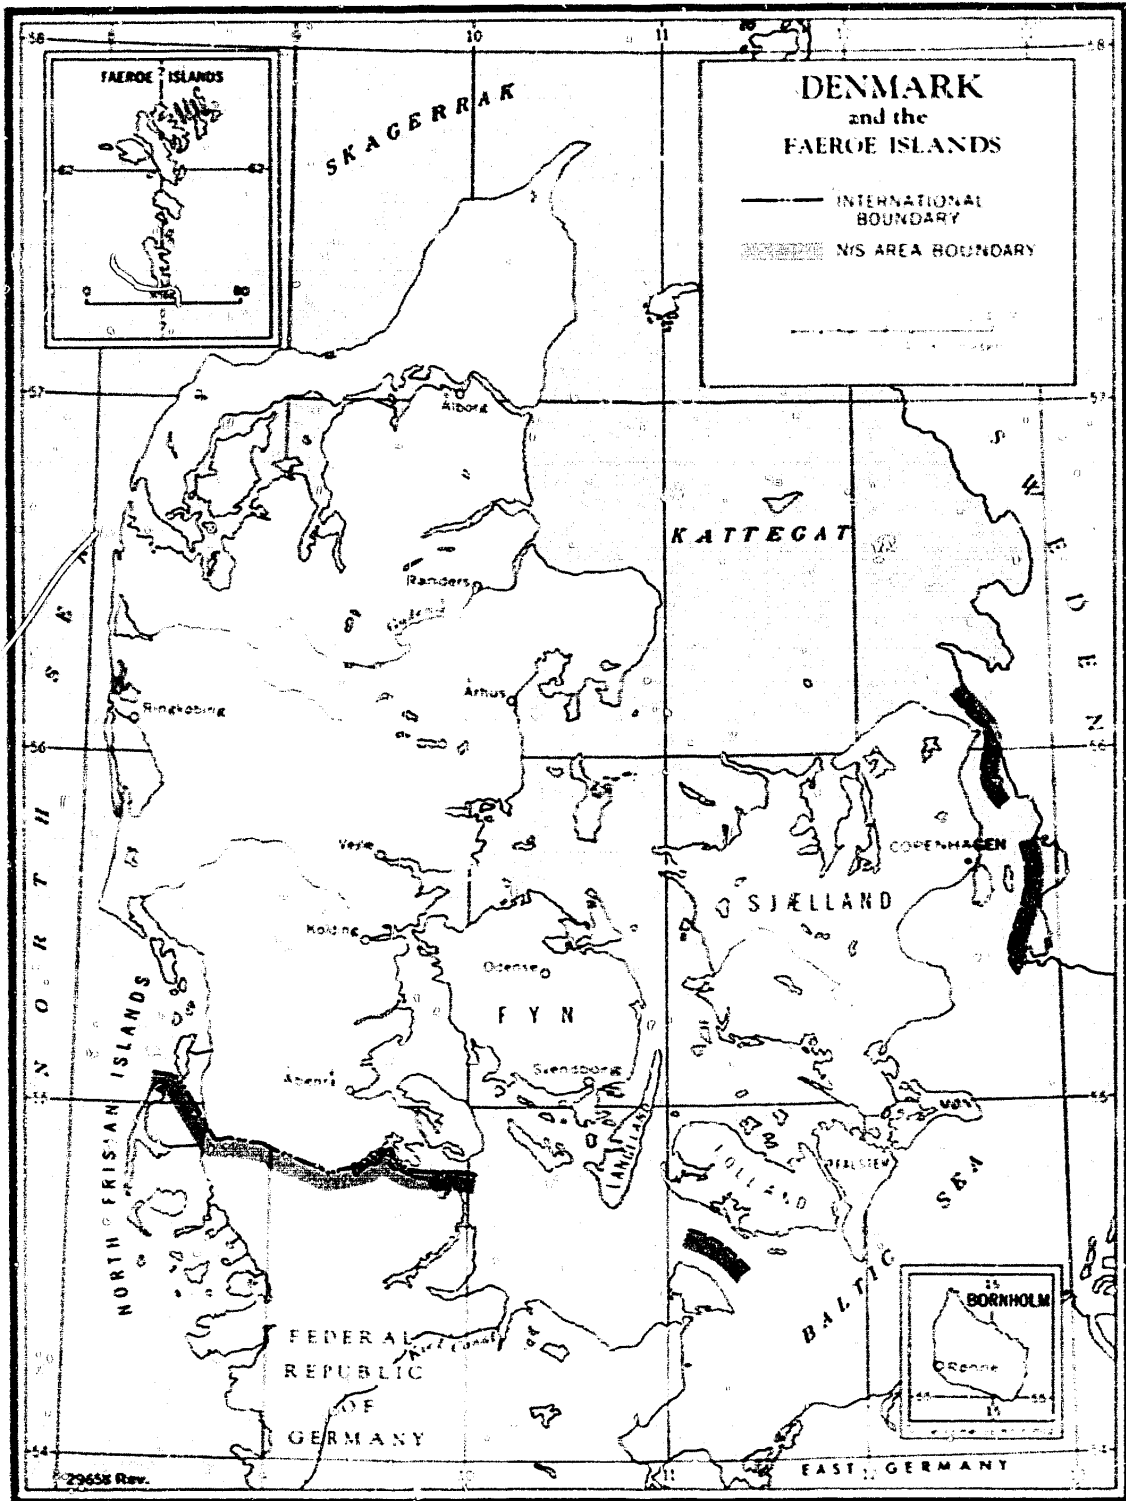

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

NIS GAZETTEER

Denmark

Official Standard Names Approved by the
U.S. Board on Geographic Names

Prepared in the Office of Geography, Department of the Interior
Published by the Central Intelligence Agency
Washington, D.C. June 1961

FOREWORD

This gazetteer contains about 19,800 entries for places and features in Denmark and the Faeroe Islands listed in two parts as follows: (1) Denmark 18,000 entries and (2) the Faeroe Islands 1,800 entries. The entries include standard names approved by the Board on Geographic Names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The names in this gazetteer supersede those in all previous Board lists for the area.

The map scale of name coverage for all areas is approximately 1:200,000.

Interpretation of entries

It has been necessary to express *iii* code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name. — Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see." Where part of a name is underlined, the use of the part not underlined is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used.

The diacritical marks used in the approved names are the Danish: *bolle* (´), as in *gård*, and the Faeroese accent (ˆ), as in *gjógv*. They are to be used whether the names are written in capital or lowercase letters. The special letter *o* (barred *o*), as in *høj*, should be so written, rather than as *ö*, in both Danish and Faeroese names. The Faeroese letter *d* (*edh*) is transliterated as *dh*, as in *fjordhur* (for *fjordur*), and should be written in the transliterated form. The digraph, as in *kær*, should be written *æ* wherever possible, or in special situations as *æe*, never as two separate letters. All separate words except prepositions are capitalized in Danish and Faeroese names.

In Danish the letters *æ*, *ø* (or *ö*), and *å* (or *aa*) are distinct from *ae*, *o*, and *a*, respectively, and are listed at the

end of the alphabet. In this gazetteer, however, *æ* is alphabetized with *ae*, *ø* with *o*, and *å* with *a*.

Variant spellings beginning with the letters *aa* and differing from approved names only in the use of initial *aa* for *å* are not listed in the Danish part of the gazetteer. For variants beginning thus, see the approved spelling under *å*.

Designation. — The second column contains designations or abbreviations of designations, as listed below. Since practically all geographic terms have varied meanings, the senses in which the designator terms are used and the range of features to which they are applied in this gazetteer are stated in the list to reduce ambiguity. The distinctions that can be made in a given gazetteer will vary with the quality of the maps of the area.

ADMD	administrative division (<i>amt</i> : first-order; <i>amtsrådsreds</i> : second-order. These divisions can be distinguished by the generic terms.)
ADMR	religious administrative division (<i>herred</i> : group of two or more parishes; <i>parish</i> : administrative unit with both ecclesiastical and civil functions. The names so coded that do not contain the generic <i>herred</i> are those of parishes. The Danes do not use <i>sogn</i> , "parish," as a generic.)
AREA	area (named area without identifiable homogeneous characteristics)
BAY	bay
BAYS	bays
BCH	barrier beach, beach
BGHT	bight (broad coastal indentation forming a slight recession in a coastline)
BNKM	marine bank
ROGP	peat bog (contains evidence of peat cuttings)
CAPE	cape
CAVE	sea cave (in cliff facing the sea)
CFT	cleft(s) (straight or nearly straight, narrow, deep, vertical-sided trench-like feature, common in coastal cliffs)

CHNM	marine channel (offshore channel between islands or between island and mainland; a deepened channel through a shallow area)	ISLP	land-tied island (joined to mainland by natural processes of coastal deposition)
CLF	cliff (high, steep rock face); bluff	ISLQ	former island (joined to mainland by diking and reclamation of the sea)
CNLD	drainage canal	ISLS	islands
CNLN	navigation canal	ISTH	isthmus (a narrow strip of land joining two wider land areas; e.g., the narrow neck of a peninsula)
CNLQ	abandoned canal (closed to through navigation; ends used as docking basins)	LBED	lake bed (the bed of a former lake which has been artificially drained for land reclamation)
COVE	cove	LCTY	locality (minor area of unspecified or mixed character)
CRQ	cirque (more or less bowl-shaped depression from which a glacier formerly flowed)	LDG	hunting lodge
CSTL	castle	LDNG	landing
CULT	cultivated land (isolated farmed area surrounded by land not cultivated)	LGN	lagoon (water body along a coast, wholly or largely cut off from the sea or other water body by a barrier beach or marsh)
DPRM	submarine depression	LK	lake (in some cases formed by impoundment of an arm of the sea)
DUNE	sand dune(s)	MDW	meadow (usually a wetland in the process of being reclaimed)
ENTR	entrance (narrow opening from the sea into a lagoon or bay)	MNMT	monument
EST	estate (seat of a large agricultural landholding or of a former agricultural landholding now having other uses)	MRN	frontal moraine (an extensive line or belt of low hills and ridges composed of glacial materials)
FJD	fjord	MRSH	marsh
FLLS	waterfall	MT	mountain
FLT	sand flat (tidal flat composed of sand)	NRWS	narrows (restricted part of a marine channel)
FLTT	tidal flat (coastal area of unspecified composition alternately submerged and exposed by tide)	PASS	mountain pass, gap (low place in a relatively even crestline of a ridge or other elongated relief feature)
FRM	farm	PCLI	independent political entity (kingdom)
FRMS	farms	PEN	peninsula
FRST	forest	PLDR	polder (a low drained area diked against encroachment by the sea)
FT	fort	PND	pond
GRGE	gorge (narrow steep-sided part of a stream course)	PPL	populated place (city, town, village, settlement)
HBR	harbor	PPLD	dispersed populated place (rural community)
HDL	headland (conspicuously high piece of land jutting out into or fronting the sea)	PPLQ	abandoned settlement
HLL	hill	PPLX	section of populated place (part of a city or town locally considered as an entity, whether or not it has administrative functions)
HLLS	hills		
HTH	heath		
INLT	inlet (elongated indentation in a coast; not a fjord)		
ISL	island		

PRK park
 PROM inland promontory (piece of an area of high, generally flat land jutting into surrounding lower land; similar to a headland except for its inland location)
 PRSW wildlife preserve
 PT point
 PTS points
 RDST roadstead
 RF reef (offshore hazard to navigation, usually characterized by submerged rocks)
 RGN region (large area recognized as an entity by reason of its history, people, or landscape)
 RKL rock on land
 RKSL rocks on land (in some instances, an accumulation of talus at the base of a cliff or other declivity)
 RKSW rocks in water
 RKW rock in water
 RPDS rapids
 RSRT resort
 RSTN railroad station
 RSTP railroad stop
 RUIN ruin
 RVN ravine (short, steep V-shaped watercourse)
 SAND sand area (not dunes or a beach, q.v.)
 SD sound (broad, protected, navigable body of water)
 SDL saddle (low place between two summits or between conspicuously high places on a ridge or mountain)
 SEA sea
 SHOL shoal (offshore hazard to navigation, generally composed of unconsolidated material, some having scattered submerged rocks)
 SLCE sluice (water gate, associated with dikes, which can be closed during high tide and opened during low tide to eliminate the collection of water in a polder)
 SLP slope (gradient on the side of a mountain or other relief feature; less steep than a cliff)

SPIT spit
 SPNG spring
 SPUR spur (sloping ridge extending laterally from a mountain or other elevation)
 STM stream (running fresh water body; generally larger and flowing more water than a ravine, q.v.)
 STNW whaling station
 STRT strait(s) (large, relatively narrow, navigable passage connecting larger bodies of water)
 UPLD upland (elevated area of low to moderate relief)
 VAL valley

Latitude and longitude. — Coordinates, in the third and fourth columns, are for finding purposes only. They were generally read to the nearest minute. For precise location, large-scale maps should be used.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouths or lower ends of streams, at one end of canals, at the summits of mountains and hills, at the extremities of capes, near the centers of areas, and at the midpoints of most other features.

Area number. — The number in the fifth column indicates the administrative or geographic unit in which the place or feature is located, as listed below.

Denmark is divided into the city of København (number 22801, below) and twenty-two *amter* (numbers 22802 to 22823), all of which are first-order administrative divisions. The *amter* are subdivided into a variety of civil and ecclesiastical divisions such as *amtsråds-kredse*, *kommuner*, *herreder*, and *sogne*. The Faeroe Islands are an autonomous part of the Kingdom of Denmark.

22800 Denmark (general)	22807 Maribo
22801 Staden København	22808 Bornholm
22802 København	22809 Svendborg
22803 Frederiksborg	22810 Odense
22804 Holbæk	22811 Vejle
22805 Sorø	22812 Skanderborg
22806 Præsto	22813 Århus

22814 Randers	22820 Ribe
22815 Alborg	22821 Haderslev
22816 Hjørring	22822 Aabenraa-Sonderborg
22817 Thisted	22823 Tønder
22818 Viborg	22880 Faeroe Islands
22819 Ringkøbing	

The general number for Denmark (22800) is used for features common to Denmark and a neighboring country and for features in two or more first-order administrative divisions of Denmark.

Locational reference. — The number in the last column indicates a map, chart, or other source on which the feature may be located by its standard name or a recognizable variant of its standard name, as follows:

Additional name lists

The following publications contain names not included in this gazetteer and may be helpful as finding lists, though the additional names in them are not necessarily

those that would be approved by the Board as standard names:

1. *Danmark i 1:200,000*, Geodætisk Institut, København, 1956. An atlas with an alphabetical place-name index.
2. *Danmark i 1:100,000*, Geodætisk Institut København, 1957-58. Three volumes similar to item 1, above.
3. *Post-og Telegraf Adresserbog for Kongeriget Danmark 1960*, Generaldirektoratet for Post-og Telegrafvæsenet, København, 1959.
4. Place-name lists of Stednavneudvalget (Danish place-names committee): *Sonder-Jyske Stednavne*, *Danmarks Stednavne*, and *Fortegnelse over Stednavne*. Several volumes of various dates, with lists by island, administrative division, or other area.

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors to the Board on Geographic Names, Department of the Interior, Washington 25, D. C. A statement of the source of the correct information will be helpful.
