[Redacted box]

December 10, 1962

DOI Waiver In ERU File

Mr. L. J. Cotton, Jr., Chief
Real Estate Branch
U.S. Atomic Energy Commission
Albuquerque Operations Office
P. O. Box 5400
Albuquerque, New Mexico

Dear Mr. Cotton:

I have received your application of November 29, for a special land use permit covering approximately 173,000 acres in Lincoln and Nye Counties, Nevada. Normally these permits are limited in size to 5 acres and for immobile and on-site improvements. Since the activities required in your use of the National Land Reserve are classified it appears that the best interests of the public will be served by granting the necessary authorization by the terms set forth in this letter.

Portions of the land applied for in Nye County are under the administration of the Bureau's District Manager located at Battle Mountain, Nevada. I have discussed your needs with him and his concurrence in this matter is attested to below.

Therefore, the Atomic Energy Commission, Nevada Operations Office is hereby authorized to locate and operate mobile instrumentation equipment, for a period of 3 years beginning December 15, 1962, on National Land Reserve lands within the following described boundaries:

Date	12/10/62	Beginning at a point which is the SE Corner of Section 22,
Letter	T. 1 S., R. 53 E.;	thence East to the SE Corner of Section 22,
Cotton	T. 1 S., R. 56 E.;	thence South to SE Corner of Section 15,
22 E.	T. 4 S., R. 56 E.;	thence West to the SE Corner of Section 16,
S. Shivan	T. 4 S., R. 54 E.;	thence North to the SE Corner of Section
C. Shivan	33, T. 2 S., R. 54 E.;	thence West to the SE Corner of Section
Shivan	34, T. 2 S., R. 53 E.;	thence North to the point of beginning;
Shivan	all lying in Nye and Lincoln Counties, Nevada, as shown on	
Shivan	attached sketch.	

This authorization does not permit construction of new roads or trails. Permission for this type of activity must be acquired through the regular right-of-way procedures. Also this authorization confers no right to interfere with any other proper or legitimate activity such as mining or grazing.

Furthermore, all sites actually used in the operation must, upon termination of the operation, be cleaned up and restored as near as possible to their original condition.

This method of authorization not only satisfies our requirements but I feel certain will also take care of your needs. If you have further questions on this matter please feel free to call upon me.

Sincerely yours,

Euel L. Davis
District Manager

Encl

I concur

District Manager
Battle Mountain District
Battle Mountain, Nevada
