Dick: Will you pls check this out with [Redacted]
and [Redacted]
and, together with [Redacted]
prepare a reply to [Redacted] letter. I believe
as a matter of equity that we could well blanket
[Redacted] into the same principles of coverage we
have established for LOCKHEED, though nothing
in our contract as written with [Redacted] now requires
that we do so. BUT, are we sure that the same
problem; i.e., do we have Govt sponsored free
medical care, is not present in other supplier
contracts, based on specific omission.
