2. [REDACTED] is secretary to [REDACTED] and also assists with the secretarial support to the Project Director. In performing these duties she will on occasion have to handle correspondence and take dictation on the subject Project. I do not believe [REDACTED] needs to be given a briefing on the substantive aspects of the Project but should be briefed on the security aspects concerning the handling of correspondence and information concerning RAINBOW. I will give her this briefing upon notification from your office that she has been granted the clearance.

3. The Project Director has approved this request, subject, of course, to your security determination.
