MEMORANDUM FOR: Administrative Officer

SUBJECT : Supplier Communications

In connection with security responsibilities at Watertown Strip, i.e. relative to relay of communications to suppliers, it is requested that the undersigned be afforded an opportunity to review in detail the informational copies of supplier communications forwarded to Headquarters the first of next month.

In keeping with the comment of the Project Director, it appears possible that an additional communications link will be made available for the senior Project Officer of the Pratt-Whitney Corp. in the near future. Furthermore, there is some appearance of misuse or indifference to security control of the information in clear test supplier communications. Accordingly, it is desirable to review such communications prior to the establishment of an additional link.
