Office of General Counsel

Proposed Staff Agent Letter of Appointment

1. We are returning herewith the proposed staff agent letter of appointment submitted to this office for comment sometime ago. We have retained this letter until this time with the thought that a policy decision, which might necessitate further revision of paragraph 6, was forthcoming from the office of the Deputy Director (Administration) regarding the minimum length of service on second or subsequent tours abroad to establish the individual's entitlement to payment of travel and transportation costs by the Government. In its present form we can see no legal objection to paragraph 6.

2. It is our understanding that the Office of Personnel is currently in process of preparing a staff study for the Deputy Director (Administration) to provide a basis for the necessary policy decision which will ultimately appear as a regulation to cover the question of minimum service for all overseas tours.
