

LS 10135A

OGC REVIEW
COMPLETED

2 December 1954

MEMORANDUM FOR: Deputy Director (Administration)

ATTENTION : Chief, Regulations Control Staff

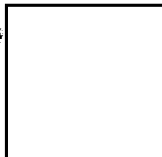

SUBJECT : Proposed Regulations Relating to PRC Functions

1. At a meeting of the Project Review Committee in August 1954, I took the position that the Project Review Committee, as such, might well be abolished and its functions become the responsibility of the Special Assistant to the Director for Planning and Coordination. There was oral discussion to this suggestion but no formal recommendation was made or acted upon.

2. Inasmuch as it has been determined that there will continue to be a Project Review Committee, I concur in the substance of the proposed regulations. There are two technical matters on which I will comment. There is a technical discrepancy in proposed [redacted] between paragraphs 4b and 5a(3). You may wish to add to paragraph 4b some such wording as "except those projects specified in paragraph 5a(3) below." Since proposed Regulations appear to be procedural in nature, I see no legal reason why the Director personally must sign them and feel it would be better, for ease of revision if any, if they were authenticated in a normal manner for the Director.
