1. [redacted] of my Office is to be sent to [redacted] as [redacted] legal advisor, probably in late Spring of next year. In that capacity it is essential that he have a working knowledge of the [redacted] language. The EE Division considers it extremely desirable that he be proficient in the language. Proficiency from the standpoint of the work to be done by [redacted] would involve an ability to read [redacted] legal documents and to discuss legal matters with [redacted] personnel in their own tongue.

3. [redacted] is today taking a foreign language aptitude test given under the auspices of your Office. He advises me that he has previously completed, while a member of the initial professional trainee group, the Professional Employee Test Battery required by the Director of Training's memorandum. The memorandum also requires submission to the Panel of a copy of the candidate's academic record above high school. [redacted] advises me that transcripts of these records were furnished the Office of Training prior to his entry in the professional trainee program. He is now advised that these transcripts cannot be found in the Office of Training and are not a part of his official personnel file. Since it would take several weeks to obtain new copies of these transcripts, it is requested that the Panel proceed without them and advise him if it is desired that he obtain them for later review. In this regard he has furnished as an indication of his general academic achievement, a photostatic copy of his election to Phi Beta Kappa and to The Order of the Coif. These documents are attached.
