components of the Air Force. The Group completed a staff study on training for resistance to interrogation and indoctrination by Communists. This study will be used as a basis for determining the scope of training to be instituted in the Air Force under the provisions of the POW Code of Conduct issued by the President. A copy of this study will be forwarded to OTR on or about 1 March 1956.

METHODS AND TECHNIQUES OF COMMUNIST POLICE ORGANS

On 20 February 1956, [redacted] M. D., consultant to CIA, briefed a total of 80 DD/P and DD/S representatives on methods and techniques of Communist police organs. [redacted] used slides to present the strengths and weaknesses of the stereotyped techniques employed by the Communists against suspected state criminals. Much of his material was drawn from the findings of a group of research specialists. At both the morning and afternoon sessions, the one-hour presentation was followed by a lively hour of questions and answers during which [redacted] displayed his ready grasp of the problems and interests of the Clandestine Services.

SURVEY OF FY 1958 COLD-WAR PROGRAMS

The Office of Training has completed a survey of the training implications reflected in the FY 1958 DD/P Cold-War Programs. Several trends have been identified which may result in an increase of training requirements for certain categories of instruction. Specifically, there may be an increase in the requirements for covert training generally, and for instruction in Anti-Communist operations, audio-surveillance and counterespionage. These projected requirements can be more accurately reviewed following the receipt of DD/P estimates of training requirements for FY 1958, now in process of preparation.
