Office of Legislative Council

Monday - 13 October 1956

1. Mr. Earman telephoned stating that the letter from Representative Charles M. Teague of California had been discussed at some length by the Director and Deputy Director and it was the desire of the DCI that the matter be left in abeyance at this time. If it is raised again by Mr. Teague, in all probability General Cabell will visit with him.

50X1

3. Colonel White also mentioned that the DCI had requested that a letter to General Goodpastor be prepared on the subject of briefing staff members of our various committees. This letter is being prepared by Legislative Council for forwarding to the DCI through the DD/S.

4. Called Bill Fisher in the Bureau of the Budget to advise him that the Director had on this date signed a letter to Mr. Stans indicating that we were in accord with the Bureau's substitute draft of the Atomic Energy Executive Order. He indicated that he has not received further information from other interested agencies.

JOHN S. WARNER
