6. Bill Fisher, Bureau of the Budget, indicated in response to our questions that the Bureau did not wish to call a meeting of interested Agency representatives to discuss their positions with respect to the draft Executive Order concerning the exchange of atomic energy information. He also indicated that the Bureau would discourage us from calling such a meeting. He added that there was still a chance that the Order could be finalized before the 22 October deadline but he could give us no assurances that this would be the case. A separate authorization to cover the joint intelligence conference on the 23 October is now being drafted.

SIGNED

**JOHN S. WARNER**  
**Legislative Counsel**
