**MEMORANDUM FOR:** Secretary, Agency Publications Board

**SUBJECT:** ORR Publications

**REFERENCE:** Memorandum from Agency Publications Board  
dated 23 April 1958, Secret

1. Attached are copies of the Publications-Information Sheets for ORR production. In filling out this form the following changes have been made:

a. The series, CIA/RR IP, has been placed in both categories of 2.3 (finished intelligence) and 2.5 (operations support), while the CIA/RR MP has been placed in categories 2.5 (operations support) and 2.6 (provisional intelligence). The CSM has been noted for categories 2.4 (memoranda and briefs) and 2.6 (provisional intelligence).

b. The CIA/RR G/E and CIA/RR G/I series have been placed in category 2.4 (memoranda and briefs) because it is felt that such best describes these series publications.

c. The category notation for the CIA/RR PIR and CIA/RR PIR (L) has not been used because no publications have been issued in these series as of this date.

d. The DCP Control series has been placed in 2.5 (operations support).

e. Four ORR series in the Comprehensive List have been omitted from the publication-information sheets since these series have been discontinued. These are (1) the DCP Worksheet, (2) EIC Working Paper, (3) Annex to the Status of Projects, and (4) the Supplement to the Status of Projects (issued monthly).

f. The ORR Status of Projects Report is now issued in a series--CIA/RR SR. This has been noted on the information sheet.

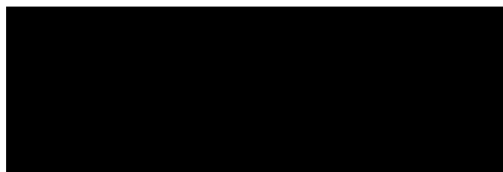

g. The CIA/SC/RR series report has been added.

11 JUN 19

2. This office does not produce reports that are type set. In noting the reproduction method for the various reports, the method cited as "printed report" includes only those series which are reproduced by photo offset or multilith methods and are usually reproduced in at least 150 copies. The term "varies" for some series denotes those series reports that are produced by multilith, photo offset, or in some cases, typescript copies to requester only.
