MEMORANDUM FOR: Director of Logistics

ATTENTION : Military Procurement Division

SUBJECT : Excess Project SHORELINE Property

1. It is requested that the Bureau of Aeronautics be queried in reference to possible use by their activity of excess Project SHORELINE property presently located at Wiesbaden, Germany. The bulk of the aircraft supplies and equipment have been transferred to the domestic air unit site at Eglin Air Force Base, Florida.

2. A detail listing of the excess supplies and equipment is not available. However, following are a few of the more critical items and it is estimated that these would consist of 18,000 lbs. and 2300 cube. This would comprise the bulk by volume the excesses that are available.

- a. Engine, Aircraft, R-3350 with QEC and stand for P2V-7 aircraft.
- b. Engine, Assembly, Jet, J-34 with can for P2V-7 aircraft.
- c. POD, Assembly, Jet Engine for P2V-7 aircraft.

3. The above items may be airlifted by the Bureau of Aeronautics in the event they have any urgent requirement, otherwise surface transportation will be utilized to ship the excesses to the designated turn-in point.

4. All supply and transportation documentation will be accomplished by the 7405th Support at Wiesbaden.
