MEMORANDUM FOR: Director of Training

1. It occurred to Lofty and me that the attached report could be of value to your office with respect to indoctrination, briefings, and presentations, both within the Agency and insofar as your office has responsibilities outside of the Agency. It is an authoritative document since the responsible heads of intelligence agencies have concurred in it. It is well recognized that the solutions to some of the problems mentioned or unmentioned in connection with these programs could not appropriately be dealt with in such a paper.

2. Insofar as this office can do so it will be glad to provide more detailed information which might be appropriate and useful in indoctrination, briefing, or presentations, or recommend consultation with the Assistant Director concerned if necessary.
