**MEMORANDUM OF CONVERSATION**

**SUBJECT:**

[REDACTED]

25X1A5a2

1. [REDACTED] called on 27 October to say that he had cleared the [REDACTED] contract policy-wise with the Air Force people and that they were "violently in favor" of the proposition.

2. [REDACTED] called again today to say that he had talked at some length with General Carroll of the Air Materiel Command (AMC) which is responsible for [REDACTED] personnel clearances. The General was described as being "neutral" about the security aspects of a CIA project. He will be glad to talk with our security people when they are ready. He does not relish the idea of having another Agency reexamine persons already cleared by his command, but he will cooperate to the extent necessary to expedite the contract.

3. I reported the above to Colonel Edwards. He said he understands General Carroll's position. He will approach AMC as soon as we receive the [REDACTED] personnel list from [REDACTED]
